38. When amendments to a bill are reported by a committee or offered from the floor, such amendments shall be submitted in triplicate.

Adoption of amendments to any bill in the Senate prior to third reading, other than by roll call, shall not preclude subsequent consideration in committee or on the third reading of the bill, of such amendments or any part thereof, by the Senate.

Motion to Lay on the Table

39. When an amendment proposed to any pending measure shall be laid on the table, it shall not carry with it or prejudice such measure.

41. The previous question shall be put in the following form: "Shall the question be now put?" It shall require a majority vote of the Senators present; and its effect shall be to put an end to all debate except that the author of the bill or the amendment shall have the right to close, and the question under discussion shall thereupon be immediately put to a vote.

Call of the Senate

42. Upon a motion being carried for a call of the Senate, the President shall immediately order the doors to be closed, and shall direct the Secretary to call the names of the absentees as disclosed by the last previous roll call. Thereupon, no members shall be permitted to leave the Senate Chamber except by written permission of the President pro Tempore or in his absence of the presiding officer. Those members who are found to be absent and for whom no excuse or insufficient excuses

are made, may, by order of those present, be taken into custody, as they appear, or may be sent for and then taken into custody by the Sergeant-at-Arms wherever found, or by special messenger to be appointed for that purpose. In the absence of a quorum, a majority of the members present may order a roll call of the Senate and compel the attendance of absentees in the manner above provided.

A call of the Senate may be ordered after the roll has been called and prior to the announcement of the vote.

No recess can be taken during a call of the Senate. During a call, the Senate may consider and transact any matter or business that the Senators then present shall unanimously decide to consider, but no call of the Senate shall be had during a call of the Senate, except that during a call which was ordered for the purpose of procuring sufficient attendance for the conduct of business of the Senate in general and not for any other purpose, such call may be made to apply also to not more than one item of business by motion made and adopted by a majority vote of the members present after the roll has been called and prior to the announcement of the vote on such item of business. Under such circumstances, when the call of the Senate is dispensed with as to the item of business to which it is so applied it shall be deemed dispensed with as to the purpose for which it was originally made. When a call of the Senate is ordered, pending the announcement of the vote upon the completion of a roll call, the pending roll call shall become unfinished business, the consideration of which shall be continued until further proceedings under the call of the Senate are dispensed with, when it will forthwith become the order of business before the Senate.

Reconsideration

43. On the day on which a vote has been taken on any question a motion to reconsider the vote may be made by any member.

The motion may be considered on the day made or on the succeeding legislative day but may not be further postponed without the concurrence of 27 members.

No vote on a Senate bill may be reconsidered on or after the last day fixed for the consideration of Senate bills prior to adjournment and no vote may be reconsidered on the last day of the session.

When reconsideration of the vote by which any bill was passed has been demanded the Secretary shall not transmit it to the Assembly until the demand has been disposed of or the time for reconsideration has expired, but if the bill has already been transmitted to the Assembly the demand for reconsideration shall be preceded by a motion to request the Assembly to return the bill. This motion shall be put to a vote immediately without debate and if not adopted shall preclude a demand for reconsideration.

A demand to reconsider the vote on any debatable question opens the main question to debate and the vote on the reconsideration shall be on the merits of such main question.

Voting by Senate

43.5. No action whereby a bill has been passed or defeated may be rescinded without the concurrence of 27 members.

Voting on Roll Call

The names of members shall be called alphabetically.

No Senator shall be permitted to vote or change his vote after the announcement of the vote by the presiding officer.

Excused From Voting

45. When a Senator declines or fails to vote on call of his name he may, after completion of the roll call, and before the announcement of the vote be required to assign his reasons therefor, and having assigned them, the presiding officer shall submit the question to the Senate: "Shall the Senator, for the reasons assigned by him, be excused from voting?" which question shall be decided without debate. Unless the Senator is excused from voting he shall be required to vote.

Voting by Presiding Senator

46. When the President pro Tempore or any other Member of the Senate is presiding over the Senate he shall vote on roll call the same as though he were not presiding.

Committee on Credentials

THE UNIVERSITY OF CALIFORNIA

September 11, 1951

Mr. Joseph A. Beek, Secretary of the Senate
Senate Chambers, Sacramento, California

DEAR MR. BEEK: It is my honor to present to you for the information of the Senate the following report.

Assembly Concurrent Resolution No. 65: "Resolved . . . That the Liaison Committee on Higher Education be and it is hereby requested to study and investigate the feasibility of an over-all program of aviation education and to report thereon to the Legislature not later than the twentieth legislative day of 1952 Regular Session of the Legislature, including in its report any recommendations it may have as to where facilities for aviation instruction could be established with the greatest benefit to the people of the State; and be it further

"Resolved, That the Liaison Committee on Higher Education give particular attention to the present airport and other facilities at the University of California College of Agriculture at Davis; . . ."

In anticipation of this resolution, the Liaison Committee on Higher Education and the regents have passed the following motion:

"That, in the event the Legislature should pass a resolution or bill calling upon the Liaison Committee to make an investigation of the need of a college of aviation in the State, the staff appointed to conduct the continuing study on the needs of higher education in California, and such other personnel as the University and the State Board of Education may call upon to assist, be instructed to proceed with such investigations." (June 21 and 22, 1951).

Passage of A. C. R. No. 65 prompted a conference of twenty-three interested educators, legislators, and representatives of various phases of the aircraft industry and aviation, which took place July 26 at the Men's Faculty Club in Berkeley. In this conference there was developed an organizational plan for the study requested by the Legislature and assignments and deadlines were set; the reports will be completed in March, 1952.

Senate Concurrent Resolution No. 74: "Resolved . . . That an R. O. T. C. course in flying be incorporated in the courses now taught and given at the University of California at Davis; . . ."

Under existing law, I am informed, the Air Force is not empowered to offer flight training to R. O. T. C. students until they graduate and are commissioned, when they may, if qualified, be sent to regular flight training schools.

Legislation to revise this system to permit the Air Force to give flight training to senior R. O. T. C. students is now before the Congress, but there seems little likelihood, according to Air Force officers, that it will be adopted at this session. On this ground alone, therefore, there would seem to be no possible means of utilizing the University Airport facilities for R. O. T. C. training at present. The Department of Defense has announced recently, however, a policy under which the University may establish "branch" units at campuses which are integral parts of the University; consequently, the possibility of establishing a unit at Davis in anticipation of flight training authorization is now open, but the student body at Davis is hardly large enough at present to support a strong Air R. O. T. C. unit in addition to the existing Army unit.

It would appear, therefore, that the University has no alternative but to await more favorable circumstances before attempting to establish an Air R. O. T. C. program at Davis. Future developments will be watched with interest by University officers, since the University is anxious to cooperate with the Air Force, as with other branches of the Armed Forces, in maintaining a vigorous and effective Reserve Officer training program.

*Senate Concurrent Resolution No. 76: "Resolved * * * That the University of California institute and maintain a flying field at the University of California at Davis, with the teaching and instruction of agricultural flying to the said students of said university; * * *"*

Research projects have been or are being carried out at the University Airport by the Divisions of Botany and Agricultural Engineering of the College of Agriculture, and by the Institute of Transportation and Traffic Engineering of the College of Engineering. More than 7,000 acres of land immediately surrounding Davis were seeded, sprayed, or dusted by planes based at the University Airport during the last six months of 1950. In the same period Davis Airways, a private concern, used the Airport for 401 training flights of more than an hour's duration each, in spite of adverse weather conditions. In November, 1950, the University administration took over operation of the maintenance facilities at the Airport, which resulted in increased efficiency and more satisfactory service.

Expansion of the Davis curriculum to include pilot training has been recognized as a possibility, with the approval by The Regents of the use of the Airport for flight training. Future developments in this field await completion of the over-all study now under way for the Liaison Committee on Higher Education and the State Legislature.

Yours sincerely,

ROBERT G. SPROUL
Pres. of the University

STATE OF CALIFORNIA, STATE BOARD OF EQUALIZATION,
SACRAMENTO, March 3, 1952

Honorable Joseph A. Beek, Secretary of the Senate
State Capitol, Sacramento, California

SUBJECT: Reports on Property Tax Assessment

Pursuant to Section 15645 of the Government Code, I am transmitting herewith for filing with the Senate copies of the surveys which have been completed under Sections 15640 and following of the Government Code regarding property tax administration in the following counties:

Del Norte, El Dorado, Fresno, Glenn, Humboldt, Lake, Madera, Mendocino, Nevada, Sacramento, San Bernardino, San Joaquin, San Luis Obispo, Santa Clara, Sierra, Stanislaus, Tulare, Tuolumne, and Ventura.

You will recall that similar reports have been submitted to the Legislature heretofore with respect to the counties of:

Alameda, Alpine, Amador, Calaveras, Contra Costa, Imperial, Inyo, Kern, Kings, Lassen, Marin, Mariposa, Merced, Mono, Monterey, Placer, Plumas, Riverside, San Benito, Santa Barbara, Santa Cruz, Siskiyou, Solano, and Sonoma.

From the foregoing it will appear that 43 such reports have now been transmitted. The first of these were made under Section 3693 of the Political Code, while those completed after September, 1951, were made in conformity with Sections 15640 and following of the Government Code which replaced the former Political Code provisions.

Reports as to the remaining 15 counties are in process. We anticipate that most of these will be available for distribution before the close of the current fiscal year. The others should be completed reasonably soon thereafter.

There has been a gratifying expression of public interest in these surveys. The board is encouraged to believe that they are proving an effective means of promoting the objective stated in Section 15643 of the Government Code, namely, to afford the most efficient assessment of property for tax purposes in the counties of the State.

ADDRESS BY THE GOVERNOR

Message to the California Legislature by Governor Earl Warren

Budget Session, March 3, 1952

To the Senate and Assembly of the State Legislature of California:

I again welcome you to Sacramento for the Budget Session, and in accordance with Section 34, Article IV of the Constitution I submit to you the budget for our State for the Fiscal Year ending June 30, 1953.

This is the first session at which all of us have been housed in the new Capitol addition, and I trust that all of you will at long last be able to enjoy adequate facilities for the performance of your very important duties. It has been a matter of wonderment to me for many years how the Legislature could function in its totally inadequate and obsolete quarters. I want to say to you also that my staff and I are pleased with our new quarters and that we believe the greatly improved facilities will enable us to discharge our responsibilities to the people better than heretofore.

At the outset I report to you that our State is in a sound financial condition. No new or added taxes are required. The present rates will meet the budget expenditures and leave us with an estimated General Fund surplus of approximately \$70,000,000 on June 30, 1953, after financing the budget as herein proposed. This is substantially greater than we had reason to believe it would be when I submitted our budget for the current fiscal year, the reason for this being our estimates of revenue in last year's budget were proved to be conservative because we, as did other forecasters, failed to anticipate the full extent of scarce buying and other forces related to the defense program which inflated sales volume, prices and income. This budget contains a thorough discussion of the revenue estimates for the coming fiscal year and the assumptions on which they are based. We have used every means at our command to develop reliable and realistic estimates. However, these are uncertain times and any major unforeseen development in world affairs could make a substantial change in either direction in our revenue yield.

The budget for the next fiscal year which I submit to you is one of minimum requirements to carry out policies and functions already established by the Legislature. In the belief that the Legislature and the people in providing for annual budget sessions, intended them for the purpose of facilitating the preparation of budgets and not for changing policies greatly except in general sessions, we have endeavored in the presentation of this budget to follow your policies as established in the 1951 Session. With the exception of the instances which I will in a moment enumerate, this has been done explicitly. Any other increase is largely a matter of meeting the greater costs occasioned by the continued growth of the State and the advances in price and wage levels. It is significant for all of us to bear in mind that according to the estimates of the Census Bureau, our State has grown by 450,000 persons in the past year, 300,000 by in-migration and 150,000 by increase of births over deaths.

The expenditures in this budget are estimated at \$1,185,397,270 for the fiscal year, an increase of \$82,063,743 or 7.4 percent over the current fiscal year. Of this increase, \$34,500,000, or 42.2 percent, will go to local governments in the form of larger payments for support of public schools, and \$4,600,000 or 5.5 percent for other local subventions. \$5,902,000, or 7.2 percent represents the net increase in expenditures for capital outlay, and \$37,033,000, or 45.1 percent will be used for state operations. The latter sum includes \$12,550,000 for increased salaries of state employees, in accordance with Personnel Board recommendations, \$5,506,000 for the University, state colleges and other educational activities, \$3,290,000 for an improvement in the level of care at mental hospitals and homes, \$2,518,000 for public works and highway maintenance, and \$2,038,000 for better traffic law enforcement by the Highway Patrol.

State Operations

Budget recommendations for the operation of the departments of the State Government have been carefully calculated to meet work loads. Every request has had a very thorough examination, and many have been sharply reduced before being presented to you. The details of the department operating requirements were released to your committees for their advance study one month ago. I follow this practice of so informing you in order that you may be thoroughly advised of the budget requests before the session is convened.

Your special attention is called to the following items which represent the major increases in this budget.

Mental Hygiene

For several years we have been endeavoring to take our State out of the Asylum Age and establish it in the Hospital Age, where a high quality of medical care working toward rapid and complete cure is substituted for mere custodial care. Improvements in the quality of treatment authorized by the Legislature are now showing substantial results in earlier discharges and shorter periods of hospitalization. Six years ago the average length of time patients remained in our state hospitals for serious mental illnesses was 6.6 months. At the present time, the average length of such hospitalization is 4.5 months. If these advances had not been made we would now have one-third more patients in our state hospitals or an addition of 13,000 to the total of 40,000. This budget recommends funds for modest augmentation of medical, nursing and rehabilitation staffs so that still greater progress can be made.

Highway Patrol

Accidents continue to take a horrible toll on our highways in both lives and property. Last year 3,411 of our citizens were killed; 2,420 of these lost their lives on rural highways. In addition, 95,000 people were injured, many thousands of them very badly injured. We are attempting to meet this problem in every possible way—through public safety programs, by driver education, by assigning additional patrolmen within our limited means to the most dangerous areas and by sending flying squadrons into places of extreme traffic density. We have received citations from national safety organizations for good highway engineering practices, enlightened enforcement methods and for active safety programs. Our Highway Patrol is doing its best, but all of these things are not enough. Traffic fatalities increased 15.6 percent on our rural highways last year. The fact is the Patrol is of necessity spread too thinly. We do not have enough officers to man our highways. The State must have a more adequate patrol force, and the reasons for this statement are plain. In 1947 the Legislature provided the 40-hour week as of July 1, 1948, instead of the 48-hour week which had been in existence prior to 1948. This represented a reduction of one-sixth of the patrolmen available for duty on the highways. Since that time the small increases in personnel authorized by the Legislature have done little more than compensate for that loss. To be specific, the increase is but 5 percent. On the other hand, the number of automobiles on our highways since 1947 has increased by 1,433,000 or 36 percent. Since that same date, the annual number of accidents investigated by the Patrol has increased 82 percent. The supervision over the additional traffic occasioned by these 1,433,000 automobiles and the investigation of this increased number of accidents have reduced the number of officers actually patrolling the highways to the danger point in practically every county of the State. It is a proven fact that the number of accidents on any highway depend very largely upon the number of highway patrolmen who patrol it. I am therefore again recommending to you an increase in the strength of the Highway Patrol with a very earnest plea so that there may be more effective traffic law enforcement. Without this we cannot hope to substantially reduce the appalling number of traffic deaths. The 232 officers recommended in the budget represent the equivalent of 24 cents annually for each registered vehicle. This is indeed a small cost for the added protection it will buy for every man, woman and child in California.

University of California and State Colleges

In recent years you have authorized new state colleges at Los Angeles, Long Beach, and Sacramento, new campuses of the University of California at Santa Barbara and Riverside, and expanded activities at various of its other campuses. These expansions in the facilities for higher education have been only partly in operation in the immediate past while awaiting construction of buildings. An increase of more than \$5 million will be required for the more nearly complete operation of these institutions in the coming year.

Water Resources

An appropriation of \$800,000 is proposed for preliminary plans and surveys on the Feather River Project which you authorized at the 1951 Session. This is a large and important project. If it is to become a reality in time to help many parts of our State which are badly in need of water, there should be no delay in making the surveys and preparing the preliminary plans for its realization. There is no more basic problem to be solved in California than the conservation of water and I again urge upon you the great importance of early action on this project.

Price and Pay Increases

Provision has been made in this budget to meet further increases in prices, particularly for the larger items of food and clothing in the state institutions. A lump sum is recommended for allocation to the various institutions and departments supported by the General Fund if and when actual advances in prices occur. It may be interesting to point out that in our many state institutions we have 56,167 people who must be clothed and fed every day of the year. This means that in a year the State serves 61,500,000 meals, and an increase of one cent per meal would mean an additional cost

of \$615,000 per year. Provision is also made for price advances in the estimated cost of highway maintenance and other activities financed from special funds.

As you know, the State Personnel Board is required by law to recommend salaries comparable to those paid in private industry and by other public agencies. The board has made its annual report and has recommended that funds be made available to allow an increase in the pay of state employees of approximately 5 percent in the fiscal year, with some further allowance for special equity adjustments including a special increase for employees caring for mental cases. The cost of this recommendation, including increases already authorized but not allocated, amounts to \$14,200,000 in the next fiscal year. A proposed salary adjustment item in conformity with the Personnel Board's recommendation is included in the budget.

The requirements for the functions above enumerated and for the price and pay increases account for the greater part of the increase in the portion of the budget dealing with the operating expenses of the State Government.

Capital Outlay

Of necessity the capital outlay items in this budget represent a very substantial amount of money. Of the \$222 million recommended, the sum of \$107 million is for highways, \$35 million is for education—\$17 million for the University, \$17 million for the state colleges, and \$1 million for other educational institutions. \$22 million is for mental hygiene, \$19 million for corrections, \$8 million for natural resources, \$5 million for office space, and \$24 million for miscellaneous buildings and a fund to meet the increased prices. These amounts represent projects for which there is an absolute and immediate need. It is a program which can be gotten under way within the fiscal year. We believe that national defense will have advanced to a point where materials may be available for them. Delay in beginning this work will inevitably mean that the State has failed to meet its obligation largely in the care, treatment, and education of thousands of its citizens. Except for the projects which were deferred by action in the 1951 Session, the postwar building program for which money was saved between 1943 and 1946, is practically all either completed or under contract. It has relieved some of the worst situations of overcrowding and hazardous housing, but there is still a long way to go to meet our building requirements. It must be remembered that since 1946 our State has increased in population by another 2,000,000 people. There are still hundreds of juvenile delinquents being held in local jails because of lack of space for them in the State's youth facilities. There is still a long waiting list of children—thousands of them—requiring care and treatment in state homes for the mentally defective. There is still much more to do at the new state colleges and the new campuses and graduate schools of the University. Our state hospitals for the mentally ill are still overcrowded, and we now have over 12,000 prisoners in our penitentiaries. We cannot stop building so long as our population is increasing at the rate of 450,000 each year, and particularly after we have been slowed down by defense programs.

Local Assistance

More than half the budget—\$625,000,000—comes under the general heading of local assistance.

Public Schools

The largest item is the State's contribution to the support of public schools, which will amount to more than \$290,800,000 under existing law, an increase of more than \$22,500,000 over the current year. This is explained largely by the fact that there are in our public schools this year 144,000 more children than last year. In addition to the above sum, I have included \$12 million for the Equalization Fund of the General School Fund to assist those school districts which, in spite of the efforts of the State in the past to assist them with their special financial problems, find themselves distressed by the inflation which affects all of us. In 1946 the voters of California approved a constitutional amendment increasing the State's support for public schools to a minimum of \$120 per unit of attendance. Since that time the Legislature has on several occasions augmented this minimum. The definition of average daily attendance has been liberalized to include absences due to verified illness. Payments for the excess cost of educating physically handicapped children have been increased materially, and provision has been made for the education of the mentally retarded. Apportionments have been placed on a current year basis, thus correcting an inequity and relieving pressure in the financial operation of growing school districts. Special provision has been made for greater state assistance in districts with low assessed valuations and for small high schools. State payments toward the cost of transportation of school children have been increased and special incentive has been provided for the unification of schools. The State has guaranteed the interest and redemption payments on school building bonds for distressed districts to the extent of \$250,000,000. The State has granted \$55 million outright to the most distressed districts of our State for building purposes. Contributions for teachers' retirement have been liberalized. All told, the State, in addition to the grants made, and bond redemption payments assumed, has

provided at least \$50 million annually for support of public school activities over and above the constitutional minimum since 1946. This is an impressive record, but it does not tell the full story because in 1946-47 our budget for the public schools was \$113 million. Now, because of growth and further liberalization by the Legislature, our current budget for the same purpose is \$290 million. I am of the opinion, however, that it would be decidedly in the interests of better education to increase the Equalization Fund by \$12 million to assist the poorer districts.

Many of these districts, also, in spite of the help the State has heretofore afforded them, are still in need of additional school buildings after reaching the statutory limits in their tax rates and bonded indebtedness. The funds from the bond issue have been exhausted and it is my belief that another such bond issue should be submitted to the people in the November election. If the Legislature desires to continue the policy of assisting necessitous school districts in this manner and submits such a bond issue, I recommend that \$40 million be loaned to the districts pending the vote on the bond issue and providing for repayment therefrom or in the event that the bond issue should fail, from the funds of the school district on the same terms as the original bond issue for that purpose. Since our State now has a sizeable indebtedness because of this obligation, I recommend that when the \$40 million is repaid, it be placed in a special fund for amortization of the State's obligation under these bond issues. It is sound business, and would accomplish the same purpose as we accomplished in 1943 and 1945 when you completely amortized the entire outstanding bonded indebtedness of the State.

Social Welfare

The State's share of aid to the aged, the blind, and needy children, while amounting to the very substantial sum of \$151 million, is showing a smaller rate of increase than in previous years, due primarily to better employment opportunities.

Shared Revenues

Revenues from the automobile "in lieu" tax, gasoline tax, liquor licenses, and other shared taxes which the State collects and pays over to the counties and cities will amount to more than \$148 million.

Veterans Farm and Home Loan Program

Due to accelerated activity in home purchases under the veterans farm and home loan program, the money from the last bond issue of \$100 million for that purpose has been exhausted. Unless some provision is made by the State to provide immediate additional funds for that purpose, no homes for veterans can be financed for a period of 10 months. There are still many veterans who need and are entitled to this help from the State. Many of these are wounded veterans from Korea. It is estimated by the Department of Veterans Affairs that it will be necessary to finance homes and farms to the extent of \$5,500,000 per month as has been the case in recent months. I therefore recommend that we lend to the Department of Veterans Affairs for this purpose either from surplus or from such other funds as may be available the sum of \$55 million to be repaid either from the bond issue to be voted on next November, or in such other manner as the Legislature may prescribe.

Fiscal Policies

As I stated to you at the outset, the finances of our State are in excellent condition. The budget is in balance, as it has been every year since 1943. We have amortized our general bonded indebtedness that existed prior to that time, and with the exception of our obligation of approximately one-third of the school bond issue of \$250 million, we have no outstanding debt.

In 1947 you set aside the so-called "Rainy Day Fund" as a reserve for revenue deficiency. In the last 10 years, taxes have not been raised in California and for six of those years, taxes were decreased on an average of 15 percent, representing a saving to the people of approximately \$560 million. At the end of this fiscal year we will have an estimated surplus of \$70 million, after making provision for financing this budget. This is a fiscal record of which the Legislature may well be proud.

If it were reasonably safe to do so, I would again recommend to you that we reduce taxes once more, but I am of the opinion that we cannot do so with safety. Our revenues come from taxes measured by income and sales. The yields have increased with the recent expansion in business and incomes. The heavy wave of buying which took place after the outbreak of the Korean War greatly increased receipts from the sales tax. Defense work and the general high level of prices, wages, and farm and industrial income, have resulted in revenues substantially in excess of previous years and of the estimates made in last year's budget.

A great part of our economy is geared to defense expenditures. We have no assurance that the present high level of our tax yields will continue. On the contrary, there is good reason to expect declines as defense spending begins to taper off. This is the time for careful planning of fiscal affairs. While a General Fund surplus of \$70 million at the end of the next fiscal year is forecast, in a broader sense, the State does not have a surplus so long as it has outstanding debt greater than that amount. To be fully on a

pay-as-you-go basis, the State should set aside a sinking fund equal to its proportionate share of the school bond obligation. Substantial installments should be paid into such a sinking fund until the State's share of this obligation is fully funded.

We cannot avoid, even with our most careful economies, an increase in the state budget in the years ahead. The combined effects of the great postwar increase in birth-rate and heavy in-migration is really just beginning to have its influence on school attendance. As this wave advances through the elementary and secondary schools and then through our colleges and university, our annual outlays for schools and higher education will inevitably increase by many millions, even if there is no change in the unit costs. Our best estimate is that the increase will be \$39 million in 1954-55 Fiscal Year over this year.

Welfare expenditures during these periods of full employment have not increased as much as in previous years. Curtailment in defense activities will cause readjustments in the labor force which will make it more difficult for aged and handicapped to obtain employment, and increased welfare costs are sure to result. This would add still more millions to our budget.

More money will be needed to finance the State's share of the flood control projects which have been authorized.

The purchasing power of the dollar in public construction is diminishing year by year. In fact, we now obtain for our dollar only 37 cents of construction as compared with one hundred cents of construction in 1939. In other words, the approximately \$100 million construction program recommended in this budget will produce only \$37 million dollars of construction as compared with 12 years ago. It is also worth remembering in this connection that in a tax reduction program comparable to that we had between 1943 and 1948, the Federal Government under present tax schedules would automatically take \$38 million out of the \$109 million of the state tax reduction to our citizens.

The primary responsibility of those of us who are charged with the administration of our state affairs is to maintain a solvent government. No matter what other virtues government might have, if it is not solvent, it cannot be good government. If we were to overestimate our revenues of the future, or underestimate our expenses in a fluctuating economy such as we have at the present time, we might, by giving slight temporary relief, be the cause of permanently injuring the credit of our State and the services it renders to the people. I urge you in the interest of stability to abide by the fiscal policies which you established last year as we are doing in all other things, in the hope that when the Legislature meets next January, conditions will be more stable and the road ahead of us will be more clearly discernible.

Finally, may I remind you that the surplus we are dealing with was accumulated over prior years, with most of it credited to the Fiscal Year 1950-51 as a result of the scarce buying and defense expenditures occasioned by the Korean War. Only twelve million dollars of it can be credited to the current fiscal year. In no single year since World War II have we ever accumulated a sum approaching \$109 million in surplus and if we should reduce our income by that amount, it is more than possible that we would end the year with a deficit.

I offer you my wholehearted cooperation in your consideration of this budget.

LETTER OF TRANSMITTAL

SENATE CHAMBER, STATE CAPITOL
SACRAMENTO, CALIFORNIA, March 3, 1952

*Hon. Goodwin J. Knight, President of the Senate
Senate Chamber, State Capitol
Sacramento, California*

MR. PRESIDENT: PURSUANT to Senate Resolution No. 181, read and adopted June 23, 1951, at the 1951 Regular Session of the Legislature, the Senate Interim Committee on Social Welfare submit a partial report with findings and recommendations on the administrative organization and procedures of the State Department of Social Welfare.

The committee engaged the J. L. Jacobs and Company, Administrative and Finance Consultants of Los Angeles and Chicago to conduct this survey in order that we could present a factual unbiased report of their findings.

We wish to express our appreciation for the cooperation and assistance furnished by the officials and staff of the Department of Social Welfare, Legislative Auditor, Legislative Counsel, State Controller and the various county welfare administrators.

Respectfully submitted,

FRED WEYBRET, Chairman
CLYDE A. WATSON, Vice Chairman
F. PRESLEY AEBHIRE
ROY CUNNINGHAM
ED. C. JOHNSON

Letter of transmittal ordered printed in the Journal. Report ordered printed in the appendix of the Journal.

MOTION TO PRINT ADDITIONAL COPIES

Senator Weybret moved that 3,000 additional copies of the Report of Interim Committee on Social Welfare be printed for distribution.

Motion carried.

Request for Unanimous Consent

Senator Weybret asked for, and was granted, unanimous consent to have the following statement regarding the Report of Senate Interim Committee on Social Welfare printed in the Journal:

Statement by Senator Weybret

As Chairman of the Interim Committee on Social Welfare, I am submitting a partial report to you which contains our findings and recommendations of the administrative organization and procedure of the Department of Social Welfare. Our current study of various aspects of our welfare administration is not complete; however, the committee believes it is incumbent upon it to give you the following information at this time. The staff of the committee has reviewed case files of old age security recipients in several counties to ascertain the effectiveness of present administrative procedures. This review has furnished information which supports a conclusion that statements filed by responsible relatives are not in many cases properly investigated and that this failure to investigate has materially increased the cost of our entire public assistance program. A notable example of this, which will serve to illustrate this point, is the case of one William Anater. Recently, William Anater stated before a Congressional Committee in San Francisco that his income was \$32,000 in 1948. That same year, as a responsible relative, he submitted a sworn statement to a County Welfare Department in which he stated his annual income for 1948 was \$6,452.80. In 1950 he submitted a sworn statement to the County Welfare Department in which he stated his gross income was \$600.00 per month or \$7,200.00 for the year 1950. His testimony before the Congressional Committee indicates his income was at least double the amount stated on the responsible relative form submitted to the county. This case is just one of many the committee have documented. The cost to the State and county can be determined when our study is completed and will be presented to you at that time. We recommend that the State Department of Social Welfare and the counties take immediate steps to effectuate just enforcement of the responsible relative provision of the Welfare Statute.

Respectfully submitted,

FRED WEYBRET

THE RECLAMATION BOARD OF THE STATE OF CALIFORNIA
SACRAMENTO 14, March 5, 1952

*Hon. Goodwin J. Knight, President of the Senate
The State Capitol, Sacramento, California*

DEAR SIR: Pursuant to the provisions of Chapter 103 of the Resolutions of 1949 (S.J.R. 21), The Reclamation Board at its meeting March 5, 1952, directed that Invoice No. 4, of a bill collectible, be forwarded to the Federal Bureau of Reclamation, requesting repayment to the State of California for expenditures made by the State in the repair of damages to flood control works resulting from the closing of the outlet gates of Shasta Dam on May 14, 1948, by the Bureau of Reclamation.

A copy of Invoice No. 4 is attached. This invoice shows expenditures to February 1, 1952, in the amount of \$519,228.09, including an expenditure since January 1, 1951, of \$193,905.47. Since our total estimate of state costs to complete repairs is \$750,000, there appears to be a further outlay required of approximately \$231,000.

Federal expenditures to date for repairing the damage are approximately \$3,350,000, with an estimate of \$750,000 required to complete the federal share of the repair.

Of the \$3,350,000 expended to date by the Federal Government, \$1,000,000 was from emergency funds, and the balance of \$2,350,000 was diverted to this work from federal appropriations to the Sacramento River Flood Control Project. Since the repair of the damage was not a part of the original estimated cost of the Sacramento River Flood Control Project, the diversion of \$2,350,000 from appropriated funds has delayed the completion of programmed priority work at other locations.

For the past two years only \$1,000,000 per year of federal funds have been appropriated. This year the Bureau of the Budget has recommended only \$1,000,000. Due to the necessity of the Federal Government utilizing a good part of such funds for construction maintenance, only a small amount remains for construction of facilities to complete the project. The present estimate of federal costs to complete the entire project is \$19,000,000 plus approximately \$15,000,000 of state costs to complete.

In view of these facts, it would appear to the Reclamation Board appropriate that the State Legislature memorialize the Congress and the Bureau of the Budget to increase appropriations for the completion of the Sacramento River Flood Control Project to a minimum of \$3,500,000 per year until the project is completed.

The State Water Resources Board and the State Reclamation Board recently recommended to the Civil Functions Subcommittee of the House Appropriations Committee that the sum of \$3,500,000 be appropriated for the ensuing fiscal year. The chief of engineers before recent congressional committee hearings, suggested that such larger amounts could be advantageously used by the local office of the Corps of Engineers.

Very truly yours,

THE RECLAMATION BOARD
A. M. BARTON
Chief Engineer and General Manager

DEAR MR. BEEK: Further reference is made to your letter of June 25, 1951, transmitting a copy of Senate Resolution No. 199, passed by the Senate on June 23, 1951, receipt of which we acknowledged on June 29th. This resolution pertains to widening the Black Point-Sears Point cutoff and requested the California Highway Commission to report thereon to the Senate upon the convening of the 1952 Regular Session of the Legislature.

Under date of July 26, 1951, we advised you that there was some doubt as to whether it would be possible to complete the necessary survey data and prepare a report prior to the convening of the 1952 session.

We wish to advise you at this time that the State Highway Engineer has advised that the work on this report has been completed to the point that we will be able to submit a report to the Legislature near the end of the current session.

Requesting Congress to exempt hotels and motels from rent control

WHEREAS, The Federal Government has recontrolled the rents and rates of hotels and motels in various areas throughout the State of California in order to enable construction of additional public housing; and

WHEREAS, Federal housing authorities are now contemplating the recontrol of rents and rates of hotels and motels in various other areas within the State of California; and

COMMUNICATIONS

The following communication was received and read, and on motion of Senator Dilworth, ordered printed in the Journal:

STATE OF MICHIGAN, MICHIGAN SENATE

SENATE RESOLUTION NO. 8

Offered by Senator Feenstra

A resolution commending the Subcommittee of the House Interior and Insular Affairs Committee of the Federal Congress for its action taken in investigating the legal proceedings involving water rights brought by the United States Attorney General against the residents of Fallbrook, California, and vicinity; urging the Federal Congress to give prompt consideration to HR 5368 in the forthcoming session of the Congress and to prevent further federal encroachments of this kind; and condemning the action taken by the United States Attorney General.

WHEREAS, The Attorney General of the United States has recently instituted legal proceedings to deprive 14,000 citizens of Fallbrook, California, and vicinity of the use of water from the Santa Margarita River, on the theory that when the United States

Government acquired Camp Pendleton, across which this river flows, it acquired all of the river's water; and

WHEREAS, The right of such citizens to use water from this river has been long established by the laws of the State of California; and

WHEREAS, The action of the United States Attorney General is clearly an attempt to assert a paramount right of the Federal Government to this water, in complete derogation of the laws of the State of California and the rights of the citizens of California under the laws of that state; and

WHEREAS, A Subcommittee of the House Interior and Insular Affairs Committee of the Federal Congress has investigated this matter and has reported in part as follows:

"Nothing which developed indicated the necessity or any good reason for bringing suit involving thousands of defendants with trifling or nonexistent water claims. No useful purpose is being served by securing a legal and encyclopedic definition of water rights down to the last bucketful. It can be concluded that the legal theorists in the Attorney General's office have unnecessarily put the federal taxpayers to great expense and the local people to great provocation and legal expense for no practical reason whatever," and

WHEREAS, It is apparent that the action of the United States Attorney General illustrates a greedy officialistic and bureaucratic desire to extend the federal power in direct violation of the sovereignty of the State of California and the rights of its citizens under the laws of that state; and

WHEREAS, Despite the report of the Committee, the United States Attorney General has stated that the litigation would continue and that only an order from the entire Congress would compel him to drop the suit; and

WHEREAS, House Bill 5368 has been introduced in the present session of Congress, designed to require a division of the water involved between the government and the citizens and to forbid further federal encroachment; and

WHEREAS, The Michigan State Senate deems the action of the United States Attorney General in this situation to be a threat to the rights of every citizen of the United States to the use of water and other natural resources, as are guaranteed such citizens under the laws of the several states, which action must be condemned, as well as any similar future attempts to extend the federal power in derogation of the rights of citizens derived from the laws of the several states; now, therefore, be it

Resolved by the Senate of the State of Michigan, That the action of the subcommittee of the House Interior and Insular Affairs Committee, of the Federal Congress, in investigating the encroachment by the Attorney General of the United States on the rights in water of the citizens of Fallbrook, California, and vicinity, given such citizens under the laws of the State of California, and in introducing H.R. 5368 as a means of quieting the vexatious litigation instituted by the United States Attorney General against these citizens, is deemed highly commendable; and be it further

Resolved, That the Senate of the State of Michigan does urge the Congress of the United States to give prompt consideration to H.R. 5368 in the forthcoming session of the Congress and to be ever vigilant in the consideration of ways and means of preventing further encroachments upon and violations of the rights of citizens of the United States guaranteed such citizens by the laws of the respective states in which they reside; and be it further

Resolved, That the action of the United States Attorney General is hereby vigorously condemned; and be it further

Resolved, That a copy of this resolution be transmitted by the Secretary of the Senate to all representatives of this State in the Federal Congress; to the Speaker of the United States House of Representatives; to the President of the United States Senate; to the Chairman of the House Interior and Insular Affairs Committee of the Federal Congress; to the Governor of the State of California; to Jim Wayman, Ed Berg, and Carroll Huser, all of Fallbrook, California; to the First Methodist, Christian Science, and Baptist Churches of Fallbrook, California; to the United States Attorney General, and to both Houses of the Legislature of the State of California.

Adopted by the Senate, March 5, 1952.

No. 1247
COMPLAINT

The United States of America by A. Devitt Vanech, Assistant Attorney General, Ernest A. Tolin, United States Attorney, Southern District of California, Betty Marshall Graydon, Assistant United States Attorney, and William H. Veeder, Special Assistant to the Attorney General, acting under the authority of the Attorney General of The United States and at the request of the Secretary of the Department of the Navy, complains and alleges as follows:

The defendants Doe One to and including Doe Twenty-Five are sued herein by said fictitious names for the reason that their true names are unknown to plaintiff; and plaintiff asks that when their true names are ascertained, leave of court be given to amend by inserting their true names in place of said fictitious names.

I

This is a civil action brought pursuant to the provisions of 28 U. S. C. 1345, in which the United States of America, an actual controversy having arisen between the United States of America and the defendants named herein, seeks to have declared its rights to the use of water in the Santa Margarita River and its tributaries, a natural stream, hereafter referred to as the Santa Margarita River, as those rights relate to the defendants named in this complaint; to have this Court quiet its title to those rights to the use of water in the Santa Margarita River against the defendants named in this complaint and to *enjoin* the unlawful interference by the named defendants with those rights.

II

Camp Joseph H. Pendleton, located near Oceanside, California, the United States Naval Ammunition Depot, Fallbrook, California, and the United States Naval Hospital, located at Camp Joseph H. Pendleton, situated in the Counties of San Diego and Orange, State of California, are military establishments of the United States of America and vital to the National Defense. Sites for those military installations acquired by the United States of America in the years 1941, 1942, and 1943, are comprised of approximately 135,000 acres of land in the aforesaid Counties of the State of California. In excess of \$100,000,000.00 of federal funds have been expended in the development of those military establishments and the construction of the needed facilities to the end that those properties could be utilized for the military purposes for which they were acquired. Fee simple title to the properties in question now resides in the United States of America.

The site for the establishment of Camp Joseph H. Pendleton by the United States of America was selected by reason of the unique combination of the availability of a supply of water from the Santa Margarita River; sufficient land of suitable character to provide housing and training facilities for units of the Armed Forces; a beach on the Pacific Ocean adequate for the training of units of the Armed Forces in amphibious warfare and experimental work with landing craft, landing vehicles, tracked and affiliated equipment and the development thereof, and a climate which made possible year around land and amphibious training.

(a) It is the function of Camp Joseph H. Pendleton to provide housing and training facilities for units of the Armed Forces, to conduct training of units of the Armed Forces in amphibious warfare and experimental work with landing craft, landing vehicles, tracked and affiliated equipment and the development thereof; to conduct combat training of the various units of the United States Marine Corps, including air-ground support coordination, and use of artillery, tanks and other equipment used in the conduct of modern amphibious and land warfare. In addition to the aforementioned activities, it is the function of Camp Pendleton to provide logistic support for units of the United States Marine Corps together with material maintenance and storage facilities, for supplies and equipment and to house and train replacements for subsequent assignment to various operating units of the United States Marine Corps.

(b) The United States Naval Hospital, with a capacity of approximately 1,550 beds, established at Camp Joseph H. Pendleton, provides medical and hospital services to personnel of the Armed Forces, their dependents and other authorized personnel at 83 Naval shore activities located in the Southern California area and provides medical and hospital care to personnel of units of the United States Fleet.

(c) The United States Naval Ammunition Depot, Fallbrook, California provides facilities for the storage, segregation, reconditioning and issuing of ammunition for operating units of the United States Fleet and the United States Marine Corps and maintains ammunition stocks for shore establishments of the United States Navy located in the Southern California area. In addition, this Naval Ammunition Depot stores and ships ammunition for use by combat elements of the United States Navy and United States Marine Corps.

No other site on the entire West Coast provides those essential factors requisite to properly perform the functions assigned to those military establishments and the absence of any one of the essential factors would render impossible the proper performance of functions of those military establishments.

III

Exclusive jurisdiction now resides in the United States of America over all of the properties constituting the military establishments referred to in the preceding paragraphs, subject to exceptions not here involved, *by reason of cessions to it by the State of California.*

IV

Source of the all-important supply of water for Camp Joseph H. Pendleton, the Naval Ammunition Depot and the United States Naval Hospital, as indicated, is the Santa Margarita River. That stream, which is known in its upper reaches as the Temecula, rises in the Coastal Range in the western extremities of *Riverside County*, State of California, and proceeds in a generally westerly direction where it crosses the boundary of Riverside County and enters *San Diego County*. From that point it continues in a generally southwesterly direction across San Diego County, where it empties into the Pacific Ocean. Highly significant in regard to the claim which the United States of America states against the named defendants is the fact that the Santa Margarita River in its course traverses approximately 21 miles of the site of Camp Joseph H. Pendleton and the Naval Ammunition Depot before it enters the Ocean. There are no users below Camp Joseph H. Pendleton on that stream for the United States owns the lands the entire distance from the point where the Santa Margarita River enters upon the sites of the military establishments mentioned and the point where that river enters the Pacific Ocean.

The Santa Margarita River is an intermittent stream. It does not flow as a continuous surface stream, but in the dry seasons of the year the surface stream customarily and ordinarily disappears, when not artificially interfered with, at a point on the lands of the United States of America at approximately eight miles from the Ocean, sinking into the sands and gravel of its bed and channel. Later it reappears as a surface stream two or three miles below, thence flowing as a surface stream but diminishing in volume to its confluence with tidewater.

Underlying the river and its tributaries is a vast underground basin. That basin is comprised of pervious material, sands, gravel, boulders and other fluvial deposits, to the depth of several hundred feet. The basin as a whole creates a large underground reservoir into which a high proportion of the Santa Margarita River sinks. In the dry seasons the river entirely disappears into the basin, reappearing on the surface across the artesian area. This vast subterranean reservoir constitutes one of the principal sources of water for the military purposes declared above. However, the encroachments by the defendants threaten the destruction of this basin by reason of salt water intrusion from the Pacific Ocean. Already two wells have been destroyed by reason of that intrusion and the entire basin, as stated, is threatened. Not only have the activities of the defendants, through their encroachments upstream, reduced the quantities available to the United States of America from the mentioned subterranean sources, but there has been a like reduction in surface flow of the Santa Margarita River through the encroachments of the defendants.

V

By an adjudication suit tried over a period of three years and actually consuming 444 court days, the Rancho Santa Margarita, predecessor in interest of the United States of America in regard to the properties here involved, had adjudicated its rights in the Santa Margarita River. It was found by the trial court that the Rancho Santa Margarita, predecessor in interest of the United States of America, owned 38,739 acres of land riparian to the stream in question. That court likewise found that the normal flow of the river is insufficient for all of the riparian needs of Rancho Santa Margarita, predecessor in interest of the United States of America. Likewise found was the fact that 12,375 acres of those riparian lands were capable of and adapted to practical and profitable irrigation. Equally important is the fact that 30,289 acre-feet of water per annum from the Santa Margarita River was useful, valuable and necessary. Premised upon the findings of the trial court and upon the decision of California's highest court when the matter was on appeal before it, the parties to that litigation concluded their differences, declared their rights, and fixed their aliquot shares of all of the waters of the Santa Margarita River. Attached hereto is a copy of that stipulated judgment, marked Exhibit A, and by reference incorporated into this complaint.

VI

As successor in interest of the Rancho Santa Margarita, a party to the above-mentioned adjudication proceeding and to the stipulated judgment, the United States of America is entitled to, and claims all rights, titles, interests, and privileges of said Rancho Santa Margarita.

VII

Camp Joseph H. Pendleton is the only Marine Corps establishment located on the West Coast of the United States with facilities adequate to receive and train replacements and other military personnel in all phases of amphibious and land warfare for later assignment to combat forces of the United States Marine Corps now engaged in warfare in the Far East. In order that the warfare may be successfully prosecuted it

is essential that there be maintained at all times an adequate supply of water at this great military establishment which is so vital for the National Defense.

Moreover, the United States Naval Hospital above described is presently utilized and will in the future be utilized to care for combat casualties from the Korean conflict. The United States Naval Ammunition Depot above described is now utilized for the purpose of supplying ammunition to all elements engaged in the Korean conflict.

VIII

Those rights to the use of water described above have, since the acquisition of the property to which those rights are appurtenant, been applied to a beneficial and consumptive use by the United States of America in the performance of the varied functions of the military establishments more particularly mentioned in Paragraphs II and VII hereof. All of the water which was accorded to the Rancho Santa Margarita by the stipulated judgment is required to supply the requirements of Camp Pendleton, the United States Naval Hospital and the Naval Ammunition Depot. To meet the great demands arising from these military installations for military, *agricultural and other needs*, the United States, as against the defendants herein named, *asserts that it has a paramount right to 35,000 acre-feet of water annually from the Santa Margarita River*. That quantity of water must be derived not only from the surface flow which, as indicated, is intermittent, but must likewise be pumped from the great subterranean basin described in some detail in the earlier paragraphs. For the purpose of this cause the United States of America, adopting the findings of the Supreme Court of the State of California considers and accordingly claims that the surface stream and subterranean basin constitute a single source of supply of water. During any period when the quantity of water exceeds the military demands described in this paragraph, *it is utilized by the United States of America for agricultural purposes*, as it was historically used by the Rancho Santa Margarita, predecessor in interest of the United States of America. Though the agricultural use of water varies as the demands for military uses fluctuate, the United States of America, however, asserts its rights to the *full use of water for agricultural purposes* as enjoyed by the above-mentioned Rancho Santa Margarita.

IX

In direct violation of the rights of the United States of America and in complete disregard of the need of the water in question for National Defense, the defendants by reason of their diversions from the Santa Margarita River upstream from Camp Pendleton, have caused the intrusion of salt water from the Pacific Ocean as described above, to the irreparable damage of the United States. They have likewise repeatedly through overt acts displayed their disregard for the rights of the United States of America and have declared their adverse claims in contravention of the rights of the United States of America. They have likewise repeatedly asserted that their rights, though acquired subsequent to and with full knowledge of the rights of the United States, and its predecessor in interest, and the needs of the United States for the military purposes mentioned, are paramount to the rights of the United States of America, and proceeded to encroach upon and now are encroaching upon and threaten to continue to encroach upon the already insufficient supply of water required for the Nation's defense in connection with Camp Pendleton, the United States Naval Hospital and the Naval Ammunition Depot.

WHEREFORE, in contemplation of the threatened destruction, by the diversions and adverse claims of the defendants named, of the military installations above described so essential to our Nation's welfare, the United States of America prays:

1. That *all of the defendants* named in this action be *required to answer* this complaint and set up fully their claims to the use of water from the Santa Margarita River.

2. That this Court quiet the title of the United States of America in and to its rights to the use of water in the Santa Margarita River, and that it adjudge, declare and determine that all of the rights of the United States of America in and to the Santa Margarita River are *paramount to the rights of the defendants* herein named, and that the rights claimed by the defendants are subject and subordinate to the rights and interests of the United States of America.

3. That this Court declare and determine that *all of the rights of the United States of America are paramount and superior* to those of the named defendants by virtue of the riparian character of the lands above mentioned and the ownership of them by the United States, and by reason of its acquisition of the above-mentioned rights to the use of water and the application of those rights to military purposes. This Court is likewise requested to declare as against the named defendants, that by reason of the nature of the rights of the United States and by reason of its application of those rights to a beneficial use, and the great need for water to meet the military demands above described, the United States is entitled to take, use and enjoy without interference by the defendants *all of said water which it claims* for the military needs above described, for agricultural purposes, and generally for the purposes which have been stated.

4. That all of the rights asserted by the defendants in this cause to the waters of the Santa Margarita River are subject and subordinate to the rights of the United States of America to the continued flow undiminished over, above, and through the

lands described, including the rights of the United States of America in the subterranean basin to which reference has been made.

5. That the United States of America, against the named defendants, as successor in interest to the rights of the Rancho Santa Margarita, is entitled to enjoy each and every right, privilege and interest of said Rancho Santa Margarita, including the impounding of that water or any part of it if it found that the water may be better utilized by providing storage facilities.

6. The United States of America further prays that this Court not only quiet the title of the United States of America to the aforesaid rights as against the defendants, but that it *forever enjoin those defendants* from encroaching or infringing upon or threatening to encroach or infringe upon the rights of the United States of America as hereinabove set forth.

7. The United States of America further prays that this Court provide such means for the enforcement of the decree sought by this complaint as may be necessary; and for such other further relief as may be proper.

MR. PRESIDENT: I am directed to inform your honorable body that the Assembly on this day adopted:

Assembly Concurrent Resolution No. 12

ARTHUR A. OHNIMUS, Chief Clerk of the Assembly
By PAUL CRUM, Assistant Clerk

FIRST READING AND REFERENCE OF ASSEMBLY BILLS (RESUMED)

The following resolution was read:

Assembly Concurrent Resolution No. 12—Relative to adjournment in respect to the memory of the Honorable Daniel C. Murphy.

REQUEST FOR UNANIMOUS CONSENT

CONSIDERATION OF ASSEMBLY CONCURRENT RESOLUTION NO. 12

Assembly Concurrent Resolution No. 12—Relative to adjournment in respect to the memory of the Honorable Daniel C. Murphy.

Resolution read, and adopted by a rising vote of the following Senators:

Senators Abshire, Breed, Brown, Burns, Busch, Byrne, Collier, Coombs, James E. Cunningham, Roy Cunningham, Desmond, Dillinger, Dilworth, Donnelly, Dorsey, Erhart, Gibson, Hatfield, Hoffman, Hulse, Ed. C. Johnson, Harold T. REQUEST FOR UNANIMOUS CONSENT

Senator O'Gara asked for, and was granted, unanimous consent to have the following remarks of the Honorable Thomas A. Maloney, Speaker pro Tempore of the Assembly, regarding A.C.R. 12, printed in the Journal:

REMARKS OF HON. THOMAS A. MALONEY

(Tribute to the late Sheriff Daniel C. Murphy of San Francisco by Hon. Thomas A. Maloney, Speaker pro Tempore of the Assembly and former colleague of Sheriff Murphy in the State Senate—as read by Senator O'Gara.)

This resolution speaks for itself. Once again another heart has ceased to beat. The river of another life has reached the sea. The eyes of Dan Murphy, which have seen so much, are forever closed. His gentle mouth, which spoke but kind thoughts, will speak no more and once again we follow that long road that leads to God's Acre on the Sleeping Hills of Eternity.

If there were but two outstanding qualities in Dan Murphy's life, they would be honesty and devoted loyalty.

If there were but two loves in his life, they were his family and his devotion to his Country.

To know Sheriff Murphy was to love him.

And so, today we pay our final respects to our friend and late colleague, Daniel C. Murphy.

May his soul rest in peace.

I most respectfully ask that the resolution be adopted.

MOTION TO PRINT RESOLUTION OF JUDICIARY COMMITTEE

Senator O'Gara moved that the following resolution adopted by the Senate Interim Committee on Judiciary on February 2, 1952, be printed in the Journal and 500 additional copies be printed for distribution.

Motion carried.

RESOLUTION

(Amended by the Senate Interim Judiciary Committee, February 2, 1952)

WHEREAS, 1641 law students took the California bar examination in October, 1951 and only 590 passed; that is 37.5 percent, the lowest since October, 1946, which was 57.1 percent; that is 34 percent below the 50.9 percent average for full examinations in the last ten years, 1941-50;

WHEREAS, the committee has carefully studied the reason for this low percentage and has found the following facts and reached the following conclusions:

1. There is no suggestion of malpractice, favoritism, intentional scoring of careless cases or the changing of the examination;

2. The fact that only 39.4 or 35 percent of those taking the examination attained the required grade of 75 percent on first reading was due to two major factors:

(a) A serious deficiency in the preparation of the candidates;

(b) Strictness of grading;

3. After the original grading, those questions were regraded 524 papers graded between 65 and 69 percent. This passed 241 students, 56 percent of all the successful candidates. Thus, the original discrepancy from the original purpose of reapprehension was due to serious inspection by a committee from the bar association;

4. The purpose of reapprehension in the examination was criticized for these reasons:

(a) Reapprehension is not authorized, prescribed or governed by the Business and Professions Code or any other law; the Board has a power for which the Commission of Bar Examiners was created and authorized to take care to state;

(b) The standard used in reapprehension is not fixed, definite or certain. It is subject to the change of opinion of each reapprehender in individual cases;

(c) Each of the three reapprehenders was competent and conscientious. However, each had his own interpretation of the correct and acceptable standards. One was relatively strict, one was strict, and one liberal in passing papers, which in most cases the reapprehender reached independently. The lack of uniformity may have worked satisfactorily in the average of each reapprehender and the percentage of success. In previous attempts that were made, average scores ranged from between 1949 and 1950, or 67.5 percent to 67.1 percent, and whose papers were reviewed and found on or before November 27, 1951, reapprehenders reapprehended more papers than students whose papers were reviewed and passed on and after January 26, 1951, the date when a lower than 50 percent of the 65 to 69 percent papers were regraded;

(d) Most of the persons adversely affected by the decision of the reapprehenders are veterans of World War II who in the normal course of their normal scholastic life in the course of their country, and, therefore, be it

Resolved, That the committee requests the Supreme Court of California:

(a) To determine, after investigation and hearing, whether the 47 students whose original grades were between 65 and 67.1 percent and who were found by the Board of Bar Examiners should not be admitted to the bar as a matter of course;

(b) To review the nature of questions receiving original scores between 65.75 and 66 percent to determine if the reapprehenders were more liberal with regard to this group, resulting in a substantial increase in any of the 46 papers who were found;

(c) To make such further inquiry concerning the papers between 66 and 66.75 percent as would result in a category of students in that category should have been reapprehended and passed, and be a finding;

Resolved, That the court and the Commission of Bar Examiners are requested to determine the following points for future student bar examinations:

(a) To make a statement of the nature, number of all questions used, after the bar examination, for use in the grading of the examination by all of the law schools in California for uniformity and reliability;

(b) To make the grading of a representative number of narrative questions in each examination, and be a finding;

Resolved, That the court and the Commission of Bar Examiners are requested to provide consideration and study in the following suggestions which have been made to this committee:

(a) Consider each candidate who was found to pass a passing average with each subject as well as the student's average grade. Limit reapprehension to subjects in which the percentage was below the limit;

(b) Determine a full-time Commission of Bar Examiners to serve under the direction of the Supreme Court of California, and be recommended only to each court;

(c) Determine a new pattern of a level 5 percent below the average percentage of success in the last examination of the preceding 5 years, which would then must be no higher;

(d) Whenever an average grade of all applicants who have answered a particular question is 75 percent or more, then the average of the papers for all of the other questions, the percentages of all those papers are to be required to equal or lower to the question, i.e., if the average grade of all other questions is 50 percent and the

average for a particular question is 40 percent, then 10 percent shall be added to each grade previously awarded for the particular question.

(e) Establish a policy, implemented by rules, which will make standards of questions, grading, and reappraisal more uniform from year to year.

(f) Encourage examinations which most of the qualified applicants can pass without selective reappraisement.

(g) Establish more uniform standards and better coordinated procedures on reappraisal; and be it further

Resolved, That a copy of this resolution be sent to the Supreme Court of California, the State Bar of California, and the Committee of Bar Examiners.

LETTER OF TRANSMITTAL

March 13, 1952

To *the President of the Senate,*
the Speaker of the Assembly,
and to Members of the Senate and Assembly

The Joint Committee on Water Problems, created pursuant to Senate Concurrent Resolution No. 80, Resolutions Chapter 223, Statutes of 1951, considers it essential in the public interest that it submit this partial report to advise Members of the Legislature of problems which vitally affect the entire economy of the State and to propose to the Legislature action which, to some extent, may bring about a solution to the problems. These problems relate to the application of state law in the control, appropriation, use, and distribution of water sought to be appropriated by the United States for federal reclamation projects, principally in connection with the Central Valley Project.

Your committee has requested the Division of Water Resources to delay the issuance of permits to the Department of the Interior, United States, to appropriate such water so that it could make a complete study of the matters.

Your committee, after a careful consideration of the problems, urges that it is in the public interest that specific conditions be included in all such permits and licenses to protect the rights of the State to control its water resources and to insure that the right to use such water is permanent and appurtenant to the lands irrigated in accordance with both state and federal law.

Respectfully submitted,

J. HOWARD WILLIAMS

Request for Unanimous Consent

Senators Desmond and Dilworth asked for, and were granted, unanimous consent to have the following communication concerning Central Valley Water Project and Sacramento River printed in the Journal.

(COPY)

U. S. DEPARTMENT OF THE INTERIOR, OFFICE OF THE SECRETARY

WASHINGTON 25, D. C., February 4, 1952

MY DEAR GOVERNOR WARREN: The advent of the full-scale operation of the Central Valley Project emphasizes the imperative need for the early resolution of a number of problems concerning the use of water, particularly in connection with the Sacramento River. The State of California and the Federal Government have a common interest in these problems and the purpose of this letter is to urge that the State activate its available mechanisms in aid of their settlement.

It will be recalled that when the Ivanhoe Irrigation District instituted a proceeding in the Superior Court of California in and for the County of Tulare, for the confirmation of the validity of its 40-year water service and distribution system repayment contract with the United States, then Attorney General Fred N. Howser filed an answer attacking the validity of the contract under both the state and the federal law. Subsequently his successor, Attorney General Edmund G. Brown, reached the conclusion that the law of California authorizes an irrigation district to enter into such a contract with the United States, joined with the Ivanhoe District in urging a decree of validation, and actively participated in the ensuing proceedings. This action, it is worthy of note, was taken with the unanimous concurrence of the members of the Water Project Authority of California, as evidenced by its resolution of March 27, 1951. At the request of the California Director of Public Works, Attorney General Brown likewise has entered the proceeding for the validation of the 40-year water service and distribution system repayment contract between the Madera Irrigation District and the United States, in support of the district's prayer for a validation decree.

Again, the State of California, through Attorney General Brown, Assistant Attorney General Shaw, and Deputy Attorney General Goldberg, is taking an active part in the defense of *Rank v. Krug* and *Hollister v. Krug*, which are pending suits to enjoin named federal officials in the operation of Friant Dam and Reservoir.

These activities, I hope, are symptomatic of the kind of continuous collaboration between the State of California and the United States which will permit an orderly effectuation of the highest development and enjoyment of California's water resources.

The State of California of course asserts a certain scope of jurisdiction of the water of the State and of its use, and by section 8 of the Reclamation Act of 1902 (32 Stat. 388, 390) the Congress enjoined the Secretary of Interior, in carrying out the provisions of the act, to proceed in conformity with state law. The most recent judicial recognition of this statutory principle is in *United States v. Gerlach Live Stock Company*, 339 U. S. 725, decided June 3, 1950, in which the Supreme Court of the United States reviewed the administrative practice of the Bureau of Reclamation in carrying out the provisions of section 8.

The current estimate of the cost of the construction of the Central Valley Project is \$700,000,000. The recoupment of the legally reimbursable portion of this federal expenditure is necessarily dependent on a legal freedom, as well as a legally sanctioned duty, on the part of the United States to operate the project as it has been planned by both the State of California and the United States. This freedom in turn depends on the validity and extent of the rights of the United States to store, divert, and use water under the laws of California. These rights have their inception in certain applications by the California Director of Finance to appropriate unappropriated water, which have been or are to be assigned by him to the United States, in certain applications made by the United States itself, and in already vested rights to the use of water which have been acquired by the United States from private parties through negotiated purchase or inverse condemnation involving the payment of compensation.

The acquisition or adjustment of private water rights on the San Joaquin River has been substantially accomplished through negotiated settlements and inverse condemnation suits, save for some 37 suits which remain pending, including *Rank v. Krug* and *Hollister v. Krug*, to which I already have referred. On the Sacramento River, however (the legally defensible right to carry Shasta storage water through which is the key to the project operation), it is imperative that there be some definitive ascertainment of the quantum of the natural flow protected by the applications to store and divert water. This in turn can be had only through an authoritative determination of the extent of the private uses which, under California law, are senior in right to the applications filed by the State Director of Finance and the United States.

To this end the Bureau of Reclamation has for several years been engaged in a comprehensive investigation and assembly of factual data concerning water uses on the Sacramento River. This program has been implemented by the contract of July 1, 1950, between the United States and the California Department of Public Works, whereunder the state office is preparing and submitting to the Bureau of Reclamation a separate detailed report for each diversion that has been and is being made along the Sacramento River and its tributaries upstream from the City of Sacramento. This contract was made for a three year period and it contemplates reimbursements to the State by the United States in an amount not to exceed \$300,000. The material furnished by the State and the other information obtained by the Bureau of Reclamation from title insurance companies, water users, and other sources is being consolidated into comprehensive factual reports which in general may be made available to the major interested water users' organizations.

At this point in the conduct of the fact-finding program it is appropriate to contemplate the mechanics by which its products may be employed most effectively and definitely. This problem has been considered most carefully and at length, and it has been the subject of discussion from time to time among members of the staffs of the Bureau of Reclamation and the State Division of Water Resources.

I cannot be too emphatic in repeating my conviction that the ultimately mutual objective of this cooperative program is an authoritative determination of the validity and extent of the private rights to the use of water which have been perfected under state law, in order that the plan of operation of the project may be carried forward effectively, not merely because of the financial stake of the taxpayers of the entire Nation, but more directly for the immediate beneficiaries of the project, who are all of the people of California.

The United States, through the Bureau of Reclamation, of course has an immediate responsibility for the accomplishment of this objective. But I conceive the State of California, as the initial planner of the project, as the assignor of applications representing a substantial portion of the water needed for the operation of the project, and as *paterfamilias* of all of its citizens, also to have a most direct responsibility, which should be met through active and positive leadership in any negotiations and in any proceedings, in whatever forum, looking toward the solution of the water problems of the Sacramento River.

You will recall that the institution of a court adjudication proceeding was the subject of extensive attention during the October 1951 hearing held jointly in Sacramento by the Subcommittee on Irrigation and Reclamation, of the House Committee on Interior and Insular Affairs, and the Joint Interim Committee on Water Problems, of the California Legislature. Representatives of both the State and the Bureau of Reclamation testified concerning the consideration which recently had been given to this subject, as well as exchanges of correspondence some years ago. Some members of the committees strongly expressed the view that the institution of an adjudication proceeding should be avoided. The attorney representing the water users expressed himself in a similar vein.

Previous efforts to negotiate a binding recognition of Sacramento River water rights have proved unproductive and the Bureau of Reclamation has long recognized that an ultimate judicial determination of the rights of at least the major diverters might prove to be the only satisfactory way by which the operation of the initial features of the project, as planned by both the State and the United States, could be assured. In contemplation of this possibility several informal conferences among State and Reclamation representatives have been held during the past few months.

It has been our view that the one orderly and apparently the most fair and most effective procedure would be for me to request the Attorney General of the United States to institute an appropriate proceeding in the United States District Court for the Northern District of California, in the name of the United States; and for the State of California, through its Attorney General, to join as a party to such a proceeding, in support of the applications which have been assigned to the United States by the State Director of Finance.

In so doing, I should recommend that the Attorney General of the United States consider a motion to the court that the factual issues concerning the relative rights to make diversions of water be referred to the California State Engineer for a report to the court. In this manner, the rights of all interests, including the United States, could be judicially determined in conformity with state law, and the existing facilities and available mechanisms of the State might be employed in responsible aid of the court's fact-finding functions.

In view, however, of the expressed disposition of the Sacramento River waters users to undertake to agree on these relative rights without an adjudication proceeding, the Bureau of Reclamation of course would be most willing to participate in any negotiations which the State of California should initiate and which should show indications of being fruitful. I therefore urge that you call upon the appropriate state officials, including, presumably, the Attorney General and the State Engineer, to collaborate in the arrangement of an early meeting with reclamation representatives and representatives of the water users, in which the success of this approach would be promptly explored.

Failing the success of such efforts I can see no alternative to some form of judicial definition of the rights reflected by all major uses of Sacramento River water, and I am informed that responsible state representatives share this opinion.

I am taking the liberty of sending copies of this letter to Attorney General Brown and State Engineer Edmonston, and copies of my letters of transmittal are enclosed. I am instructing Regional Director Boke and Regional Counsel Graham, at Sacramento, to be available for discussions of the nature I have described.

Sincerely yours,

Effect of Final Passage of Budget Bill by a
Majority but less than a Two-thirds
Vote—No. 1428

DEAR SENATOR HATFIELD:

Question

You have asked our opinion what would happen in respect to the support of the State Government commencing July 1st next should the Budget Bill receive a majority but not a two-thirds vote upon final passage in either house of the Legislature.

Opinion

The result would be a failure of funds in respect to all state functions (except the Public School System) supported from the General Fund and whose support appropriations are normally included in the Budget Bill. The state agencies could not function after that date because of lack of an appropriation from which salaries could be paid and supplies purchased.

Analysis

Section 34a of Article IV of the Constitution provides that appropriations from the General Fund of the State for any fiscal year, exclusive of appropriations for support of the Public School System, shall not

exceed by more than 5 percent the appropriations from such fund, exclusive of such public school appropriations, for the preceding fiscal year unless two-thirds of all the members elected to each house of the Legislature voted in favor thereof; provided, that no amount appropriated in excess of such 5 percentum shall become a part of the basis for determining the maximum appropriation for a succeeding fiscal year.

The section further provides that the first bill passed (whether it be the Budget Bill or any other bill) by less than a two-thirds vote which exceeds the 5 percent limit should be reduced by the amount in excess of that limit, and *all other subsequent appropriations from the General Fund not passed by such a two-thirds vote shall be void.*

For all practical purposes the Budget Bill must be passed by a two-thirds vote of all members elected to each house of the Legislature, since failure to obtain such a vote will void all of the appropriations therein from the General Fund except appropriations for the support of the Public School System. Only the appropriations from special funds would be effective. In other words, *failure to pass the Budget Bill by the required two-thirds vote has substantially the same effect upon state agencies supported from the General Fund as a failure to pass any Budget Bill at all.*

The "base" referred to in Section 34a of Article IV of the Constitution is the total appropriated from the General Fund, other than for public schools, for the 1933-35 biennium plus 5 percent accumulated for each two years thereafter until 1947. Since that time (when the Constitution was amended to provide for annual Budget Bills) the base has been one-half of the 1945-47 base plus 5 percent accumulated for each fiscal year.

During the years immediately following the adoption of Section 34a, a number of continuing appropriations from the General Fund were enacted or amended to increase the total amount appropriated from the General Fund to such an extent that for many years these continuing appropriations alone exceeded the original base plus the 5 percent accumulated increases. As a result, any appropriation made by the Legislature from the General Fund for the next fiscal year is in excess of the base prescribed by the Constitution and is void unless it is passed by a two-thirds vote. This is equally true whether the appropriation is in the Budget Bill or in a separate bill.

This office has had occasion to consider this question on numerous occasions. Opinions to the same effect as this one appear in the Senate Journal for May 29, 1945, at page 3205 and in the Assembly Journal for June 7, 1949, at page 4157. We also call your attention to a communication from the Director of Finance to the Chairman of the Senate Finance Committee with reference to the computation of the existing amount of General Fund appropriation over the maximum amount allowable under the constitutional limitation printed in the Senate Journal for May 29, 1945, commencing at page 2992.

Failure to Enact Budget Bill No. 1424

DEAR SENATOR HATFIELD :

Question

You have asked our opinion as to the effect of a failure on the part of the Legislature to enact a Budget Bill for the 1952-53 Fiscal Year.

Opinion

Failure to enact a Budget Bill would mean that as of the first day of July no appropriations would be available for those state agencies that are supported from the General Fund and whose support appropriations are normally included in the Budget Bill. These state agencies would, therefore, of necessity cease to function. Such agencies include the state hospitals and correctional institutions, state prisons, the several departments of State Government, the State Board of Equalization, and the Legislature except for salaries of the members which probably under the provisions of the Constitution are continuing appropriations.

This situation would not be true, however, as to those agencies that are supported from special funds. Special funds in the State Treasury are generally continually appropriated for the respective purposes for which the funds were created, which ordinarily includes support of the agency administering the particular activity.

Analysis

There is no provision made in the Constitution of this State for the automatic renewal of appropriations upon failure to enact a Budget Bill. Section 22 of Article IV of the Constitution provides in part that no money shall be drawn from the Treasury but in consequence of appropriations made by law. Failure to enact a Budget Bill would mean that as of July 1, there would be no appropriation against which the Controller would be authorized to draw a warrant upon the General Fund for the support and administration of the state agencies whose support appropriations from that source are included in the Budget Bill. Those agencies would be unable to pay salaries or purchase supplies to carry out their functions.

As to agencies supported from special funds, the inclusion in the Budget Bill of appropriations for their support does not, in fact, constitute making an appropriation but rather imposes a limit upon the amount that may be expended by the particular agency from the special fund during the fiscal year. Failure to enact the Budget Bill or the omission of such items from the Budget Bill would not preclude such agencies from expending special funds, insofar as they have been heretofore appropriated for their support.

PRELIMINARY AND PARTIAL REPORT

of the

SENATE INTERIM COMMITTEE

on

ADMINISTRATIVE REGULATIONS

Foreword

The committee's basic responsibility is set forth in the first paragraph of the resolution creating it, which reads as follows:

"The Senate Interim Committee on Administrative Regulations is hereby created and authorized and directed to ascertain, study and analyze all facts relating to the rule-making powers of state administrative agencies and the exercise thereof, including but not limited to the adequacy of the expression of legislative standards defining such powers, the clarity of the definition and scope of the quasi-legislative function, the need for and the nature and extent of statutory procedures governing the exercise of that function and the giving of notice with respect to proposed rules and of rules adopted, and the need of

statutory provision for judicial review of administrative action, the scope thereof and the procedure therefor, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Senate, including in the reports its recommendations for appropriate legislation."

For many years the exercise of quasi-legislative powers by state administrative agencies has presented a serious problem in state government because of the Legislature's delegation of broad and unconfined rule-making power to such agencies. The nature of this problem is well summarized in the reports of an Assembly interim committee which studied this problem during the 1945-1947 biennium. (Assembly Interim Committee on Administrative Regulations, created by H. R. 278 of the 1945 Session; see list of reports set forth in "Chronological List of California Legislative Interim Committees and Their Reports," prepared by the Legislative Auditor (1951), at p. 29.) The work of that committee led to the enactment by the 1947 Legislature of the procedural requirements governing the adoption of rules and regulations of state agencies which are found in Government Code Sections 11370-11440.

Since 1947 no interim committee of the Legislature has been charged with this responsibility although the problem is one of continuing importance, both with respect to the procedure by which such rule-making power is exercised and with respect to the uses to which the power is put by the state agencies possessing it. The committee recognizes that the problem posed is one which affects nearly every agency of state government, and it is a problem of such magnitude that it cannot be thoroughly solved by a legislative committee which has such limited time between the adjournment of one regular session and the convening of another. The committee is also convinced, however, that the time has come when the Legislature must assume a share of the responsibility for the results which flow from the broad delegations of quasi-legislative power made by it year after year and that more time should be given by it to a solution of the problem. In making a start toward the assumption of this responsibility, the committee has not undertaken to study the regulations of any particular state department in detail. Rather, it has treated with particular problems brought to its attention and has examined them as "case studies" which may throw light on the problem as a whole.

1. *Department of Education*

a. *Duty-free period for school teachers*

In the 1951 General Session of the Legislature Assembly Bill No. 1151, having been passed in the Assembly, came up for final passage in the Senate on June 7, 1951. As presented to the Senate it read:

"Section 1. Section 13236 is added to the Education Code, to read:

"13236. Every teacher in a regular full-time day school having two or more teachers, shall have at least one duty-free period of at least thirty (30) minutes each day, which shall be as close to mid-day as is reasonably possible."

The bill was refused passage by a vote of 25 to 11 (see Senate Journal for June 7, 1951, p. 3058.9).

On November 1, 1951, the State Board of Education filed with the Secretary of State a regulation which became Section 26 of Title 5 of the California Administrative Code. This regulation, which took effect 30 days after filing, provides:

"26. The governing board of each school district shall allow each full-time teacher employed in a regular full-time day school in which two or more teachers are employed one duty-free lunch period each day of not less than 30 minutes, which period shall be as near noon as is reasonably possible."

This regulation was adopted and filed under the board's general authority to adopt rules and regulations for the government of the schools of the state (see Education Code, Section 112). Without commenting on the policy involved in the regulation and without questioning the authority conferred upon the board to adopt such a regulation, it appears to this committee that the Legislature should be made aware of situations such as this, in which a legislative decision as to policy seems to have been overruled through an exercise of the rule-making power delegated by the Legislature.

b. *Availability of new regulations required by new legislation.*

Prior to the 1951 Session of the Legislature, the governing boards of school districts were authorized to fix the fees to be charged in child care centers. The Superintendent of Public Instruction was required to establish a fee schedule which was advisory to the local governing board. In the 1951 session, by urgency measure, the fee schedule prepared by the Superintendent of Public Instruction was made mandatory (Ed. C. Sec. 19607.2, as added by Stats. 1951, Ch. 1263). The fee schedule issued pursuant

to this requirement was issued in mimeographed form (Department of Education, Child Care Center Bulletin No. 31, August 14, 1951), but it was not filed with the Secretary of State as a "regulation" and is therefore not published in the California Administrative Code. Thus, persons seeking to learn its content can do so only by locating a copy of the mimeographed bulletin, while if they look to the published regulations of the Department of Education, they will find only the 1946 regulations which are no longer being used.

2. Department of Social Welfare

a. Publication of Rules

As a part of its consideration of the exercise of the rule-making function by the Department of Social Welfare, the committee concerned itself with the technique adopted by that department, and with its effect upon the operation of county welfare departments. To that end, a questionnaire was sent to each county and replies were received from 48 of them. The response indicates that serious attention was given the questionnaire by the various county welfare directors and that they are cognizant of the problems involved. The following counties have not as yet responded: Contra Costa, Glenn, Lassen, Madera, Mariposa, Mono, Sacramento, San Mateo, Santa Barbara, and Santa Clara.

Of primary concern is the fact that the rules of the department are not available in a single series. The department issues rules, or promulgations having the effect of rules, in separate series for each of the categories of aid involved. And, as to each type of aid, not only has adopted a manual governing the specified aid but also issues bulletins and circular letters. Some of these are in the nature of preliminary rules which later find their way into the manuals either in the same or modified form. None are published in the California Administrative Code as is required of all other state departments by the 1947 legislation previously mentioned.* The result of this technique has been a flood of manual amendments, bulletins, and circular letters, the volume of which is indicated by the response of 32 counties estimating that a total of 2,201 man hours per month were required during 1951 to maintain it in a current condition.

It should also be pointed out that several of the county welfare directors have expressed satisfaction with the manner in which the rules of the department are promulgated, and others have indicated their belief that detailed regulations are necessary to maintain uniformity in the administration of the various types of aid throughout the various counties. Two county welfare directors have expressed the belief that the fault lies with the Legislature rather than the department.

One director stated "Most of the changes arise as a result of the many major and minor changes in law passed by the Legislature. If the Legislature could decide on what kind of program it wants, adopt uniform wording for all categories where intent is the same, and stick to it, we would not be so troubled by the confusion you are investigating. A very small change in a law may affect in some slight way the material printed on as many as 10 or 15 pages of the manual, all of which will then have to be re-written."

The primary objection expressed by the county welfare directors is that there are too many rules, and too many places to look for them. In day-to-day administration of the programs of aid, the case worker is required to refer to the various manuals, bulletins, and circular letters, with the necessary loss of time. And an unnecessary amount of time is expended in keeping the staff advised of the current rules and interpretations. It is also objected that the changes made by amendments of prior manuals, bulletins and circular letters are not clearly defined, deletions are not clearly indicated, and that there are variations between the wording of bulletins and subsequent manual amendments. It is stated that the results of these defects are overlapping and contradiction between the various sections of the manuals. This condition leads to confusion as to the meaning of the manuals and bulletins and promotes variations in the application of the law between the counties.

b. Stepfather's responsibility to needy stepchild

The development of this concept in the regulations governing aid to needy children is worthy of study. On March 23, 1950, the State Social Welfare Board, acting under the authority conferred by Sections 103, 103.5 and 1560 of the Welfare and Institutions Code, adopted an entirely new Manual of Policies and Procedures relating to the program of Aid to Needy Children. By a mimeographed "manual letter" dated May 26, 1950 this new manual was declared to have superseded (with respect to aid to needy children) 13 chapters of the Department's then-current Manual of Policies and Procedures and nine departmental bulletins. Both the manual letter and the new manual itself contained declarations that they were to become effective on May 1, 1950, but both were filed with the Secretary of State on June 5, 1950. At this point, it may be noted that Government Code, Section 11422, provides that the regulations of state agencies take effect 30 days after filing unless they are filed as emergency regulations, in which case they are to take effect upon filing.

* This apparently results from the special authority given to the department under Section 114.5 of the Welfare and Institutions Code to publish its regulations separately from the procedure followed by other state agencies.

The new manual governing aid to needy children contained, for the first time a provision relating to stepfathers' responsibility to stepchildren. The provision was found in Section C-356 (D), reading as follows:

"A stepfather is not legally responsible for the support of his stepchildren even though he is able to support them. However, inclusion of the stepfather in the county's planning with the family may increase his interest in giving needed care and guidance to his stepchild. He may also, voluntarily, provide partial support if he is able."

Chapter 1349 of the Statutes of 1951 provides that the amount of the grant to a needy child shall be computed after consideration is given to the income of the stepfather if the child is living with its mother and stepfather. This act became effective on September 22, 1951. It resulted from the work of the Senate Committee on State and Local Taxation, whose findings were concurred in by the Senate Interim Committee on Social Welfare. (See Report, "Aid to Needy Children Program of the State of California," January 23, 1951, printed separately and also in Appendix to 1951 Senate Journal.) In the work of the Senate committee it was repeatedly noted that the Department of Social Welfare's bulletins emphasized that no responsibility rested upon a stepfather for the support of his stepchild, and a number of those consulted by the committee recommended specifically that this responsibility be incorporated into the law.

The new statute became effective on September 22, 1951, and on August 30, 1951, amendments to the Manual—Aid to Needy Children were filed with the Secretary of State implementing it. After paraphrasing the provisions of the statute, Section C-356 (D) as amended, reads:

"The stepfather shall be interviewed to establish the amount he will agree to contribute toward the support of the child. The actual contribution which the stepfather makes (in cash or kind) shall be considered in determining the amount of assistance. Assistance is to be granted only if it is established that the stepfather is not supporting."

This manual provision was followed by an "ANC Circular Letter" discussing the "Stepfather Provision in ANC," dated January 31, 1952. Among other things the circular letter, after referring to the 1951 legislation, states, "*Such a policy had already been established by the State Social Welfare Board (ANC Manual Section C-356, D, May 1, 1950); the Legislature strengthened it by putting it into statutory form*" (italics added). Your committee has not yet determined whether this phrase means that the department is still administering the law as it was prior to the enactment of the 1951 legislation upon the theory that no change was accomplished, or whether the department believes that it had already accomplished, by regulation, all that the Legislature attempted to do in Chapter 1349 of the Statutes of 1951.

In administering the statute, however, the circular letter of January 31, 1952, must be consulted by local welfare departments, as well as the manual provision. It incorporates fairly detailed provisions concerning the handling of such cases and, to the extent that any inconsistency is involved, is probably controlling as the last statement of departmental position.

c. *Payment to the nearer dollar amount.*

On September 29, 1950 the State Social Welfare Board adopted, and filed with the Secretary of State, amendments to the new Manual of Policies and Procedures—Aid to Needy Children. The amendments to Section C-515 provided, in each of the two subsections, for payments to needy children to be computed in exact amounts and deleted the following provision: "If the computation of the budget results in a budget deficiency in an uneven amount, the payment *may be adjusted to the next higher whole dollar.*" (italics added) It is apparent from the report of the Senate interim committee previously referred to that criticism had been directed to the department for this practice of increasing aid payments, and there appears to have been no statutory authority for the practice.

At the 1951 session of the Legislature, Chapter 1533 amended Section 1511.7 of the Welfare and Institutions Code to provide that "all grants computed in accordance with said budget [for needy children] shall be paid to the nearer dollar." The amendment to the regulations of the Department of Social Welfare which was made on August 24, 1951 (to be effective on October 1, 1951) consisted of a revision of Section C-515 of the Aid to Needy Children Manual. It may be noted that, as revised, the regulation provides for payment in an exact amount if the child is living in a boarding home or private institution, and in the nearer dollar amount if the child is living with a parent or relative. Since both situations were treated alike until this last revision (whether the exact amount was used or the nearer dollar amount) and since the statutory provision uses the mandatory "shall," the question arises as to the department's authority to use two different tests under the same statutory provision.

CONCLUSION

The examples which are cited in this report seem to us to be samples of the improper exercise of quasi legislative powers by state administrative agencies. Certainly they are samples of the fact that at least some state administrative agencies ignore the policy of the Legislature and through rules and regulations actually enact laws that the Legislature has refused to enact.

We believe that the examples of the exercise of the rule-making power which we have cited are convincing proof of the fact that this committee should go more thoroughly into the subject which we have been created to investigate. In order that this can be done, it will be necessary to augment the funds needed for our work. We are convinced that if this is done we can take a substantial step toward the solution of the problem involved.

It is, therefore, our recommendation that further funds be granted at the budget session so that we may complete the work assigned to this committee and bring before the Legislature at the next regular session a report that we hope will aid in solving the problems now being considered by us.

Senator Williams asked for, and was granted, unanimous consent to have the following partial report of the Joint Committee on Water Problems printed in the Journal:

LETTER OF TRANSMITTAL

CALIFORNIA LEGISLATURE

SENATE, March 24, 1952

The Honorable Goodwin J. Knight

President, California State Senate

State Capitol, Sacramento, California

DEAR MR. PRESIDENT: Attached hereto please find partial report of the Joint Committee on Water Problems in the form of Committee Resolution No. 3, which was adopted by the Committee March 13, 1952.

I request the committee resolution and this letter be printed in the Senate Journal.

Sincerely yours,

J. HOWARD WILLIAMS, Chairman

Joint Committee on Water Problems Resolution No. 3

Relative to the Water Project Authority

WHEREAS, The federal reclamation laws provide that no contract with an irrigation district shall be binding on the United States until execution of the contract has been confirmed by decree of a court of competent jurisdiction; and

WHEREAS, Procedure has been established by state law for the confirmation of such contracts in the superior courts of California; and

WHEREAS, Several irrigation districts have brought actions to confirm contracts with the United States pursuant to the requirements of the federal reclamation laws and in accordance with the procedure provided by California law; and

WHEREAS, Prior to a realization of the full import of such validation proceedings as to the interest of the State as well as the rights and interests of local state agencies and land owners as water users, some of said proceedings were confirmed without full presentation to the courts of the issues involved; and

WHEREAS, Effective opposition to the confirmation of such a contract was first presented in the action brought by the Ivanhoe Irrigation District in the Tulare County Superior Court to confirm its contract with the United States; and

WHEREAS, The former Attorney General Fred N. Howser filed an answer in the Ivanhoe case on behalf of the State of California contesting the validity of said contract as being invalid under state law with respect to the control, appropriation, distribution and use of water; and

WHEREAS, The present Attorney General Edmund G. Brown thereafter filed an amended answer for the people of the State of California, urging confirmation of the contract and that the action will not adjudicate any right or interest of the State of California or the United States or any of their agencies to water or the regulation thereof; and

WHEREAS, The court in the Ivanhoe case on its own motion set aside a default against the Water Project Authority of the State of California, the state agency charged with representing the State in matters relating to the Central Valley Project, in order that it might appear as a party in the case; and

WHEREAS, Attorney General Brown, a member of the Water Project Authority, appeared on behalf of the authority (by including the answer of that body in an amended answer for the people of the State of California) not contesting the validity of the contract but urging that the decree will not adjudicate any right or interest of the State of California or the United States or any of their agencies to the water or their regulation thereof; and

WHEREAS, Section 8 of the Reclamation Act of 1902 (Act of Congress of June 17, 1902) requires the Secretary of the Interior to proceed in conformity with state law in the control, appropriation, use or distribution of water for reclamation projects and provides that the right to the use of water acquired under the reclamation laws shall be appurtenant to the land irrigated and beneficial use shall be the basis, the measure and the limit of the right; and

WHEREAS, It is also well established in California law that the right to the use of water is a permanent right, appurtenant to land irrigated; and

WHEREAS, It has been strongly urged in opposition to confirmation of the Ivanhoe Irrigation District contract that the contract provides for the treatment of the water rights as temporary or transitory in violation of both federal and state law, the contract being for water service which will terminate after 40 years without provision for renewal; and

WHEREAS, The attorneys for the Division of Water Resources who have participated in the case at the invitation of the Attorney General, in their brief as amici curiae on behalf of the Water Project Authority, assert that the provisions of Section 9(e) of the Reclamation Project Act of 1939, under which the Ivanhoe contract was executed, can be construed in harmony with the requirements that the water be appurtenant to the land only by considering the contract in question a temporary contract for which a contract granting a permanent water right would later be substituted, and suggest to the court that it could conditionally confirm the contract on the basis that a later contract be executed and might consider retention of jurisdiction to insure that the condition be met; and

WHEREAS, Attorney General Brown in his brief of the people of the State of California and the Water Project Authority urges that the contract is valid under state law and asserts that an attempt of the court to retain jurisdiction could be viewed only as a declaration that the contract is not valid; and

WHEREAS, The positions taken by the Attorney General as a member and legal representative of the Water Project Authority and the attorneys of the Division of Water Resources as amici curiae on behalf of the Authority indicate the conflict of legal advice with which the Authority is faced; and

WHEREAS, The Water Project Authority is charged with the duty of protecting the interests of the State of California in matters relating to the Central Valley Project; and should, to properly exercise that function, employ full-time independent legal counsel; now, therefore, be it

Resolved by Joint Committee on Water Problems, That the Water Project Authority is urged to follow all actions brought by public agencies to confirm contracts with the United States for water from the Central Valley Project and to take such steps as may be necessary to protect the interests of its State, including compliance with the requirements of state and federal law that the water rights be permanent and appurtenant to the land irrigated; and be it further

Resolved, That the Water Project Authority secure independent, impartial, competent, and eminent legal counsel to advise it in its activities; and be it further

Resolved, That the Legislature appropriate sufficient funds for the Water Project Authority to permit it to employ such counsel; and be it further

Resolved, That a copy of this resolution be transmitted to the Senate and the Assembly and to the Water Project Authority.

Senate Resolution No. 40

Relative to Charles O'Gara

WHEREAS, An outstanding example of honesty, courage, and sincere devotion to duty on the part of a public official of undisputed integrity is to be found in the case of Charles O'Gara of San Francisco ; and

WHEREAS, The Senate of the State of California believes that in the midst of many current charges and rumors of dishonesty in public office such an example should be emphasized as typical of the vast majority of Americans who devote themselves to public service ; and

WHEREAS, The following chronicle of events leading up to the resignation of Charles O'Gara from his position as Assistant United States Attorney in San Francisco illustrates the exemplary conduct of this young public officer who, in the courage of his convictions, attempted to uncover and prosecute those who violate the law, irrespective of whom they might be and regardless of the possible consequences to himself, and who was rewarded for his outstanding service to his Country by the exertions of pressures leading to his resignation :

Charles O'Gara was appointed Assistant United States Attorney at San Francisco December 9, 1949. Early in April, 1951, he received information from Deputy Collector of Internal Revenue Thomas J. Doolan indicating certain irregular practices among Internal Revenue personnel at San Francisco. Reviewing this material O'Gara prepared a detailed list of the allegations and presented it to the Federal Grand Jury of this district headed by Richard Seward on May 11, 1951. Seward's grand jury was the grand jury for the July, 1950, term as extended. In view of the extension of the Seward grand jury term it was decided by that jury that O'Gara should present the matter to the then current jury, headed by Foreman John Taylor, for the term of March, 1951. According to this instruction, O'Gara, on May 16, 1951, presented formally to the Taylor grand jury the list of alleged irregularities. O'Gara's presentation was interrupted by Federal Judge Louis E. Goodman who directed the grand jury to report to Judge Goodman's courtroom. Following this interruption the Taylor grand jury resumed its investigation and concluded its business by December, 1951, returning several indictments.

After the presentation of May 16, 1951, O'Gara was subpoenaed before the Senate Finance Committee, in Washington where he testified for two and one-half hours on the development of the Internal Revenue investigation in San Francisco. His testimony was given on August 31, 1951. From the date of his Senate Committee appearance and up until the date of his resignation, March 14, 1952, O'Gara was not given any

assignment, either criminal or civil, at the office of the United States Attorney. Despite the lack of assignment O'Gara remained in office throughout this period, awaiting a judicial ruling upon the validity of the Taylor grand jury indictments as well as upon the legality of O'Gara's appearance before the grand jury when he made his presentation May 16, 1951, and his connection with certain grand jurors who appealed to him for assistance in respect to the problem of grand jury powers. After the order of Judge Goodman interrupting the grand jury proceeding of May 16, O'Gara at the request of certain grand jurors on the Taylor grand jury, gave them detailed information as to the law of grand jury powers and particularly the power of the grand jury to investigate on its own. The legality of O'Gara so responding to the request of grand jurors was recognized in the judicial ruling handed down by Federal Judge James Alger Fee in San Francisco on February 20, 1952. In this ruling Judge Fee reviewed the development of the Internal Revenue investigation from May 16, 1951, down to the time of the indictment in December of 1951. Judge Fee's ruling clearly approves the authority of the grand jury to conduct itself as it did and also vindicates O'Gara in his authority while assisting the grand jurors.

Despite the Fee ruling, there being no assignment given O'Gara after February 20, 1951, O'Gara turned in his resignation on March 14, 1952. He has resumed practice at San Francisco; and

WHEREAS, The foregoing occurrences in San Francisco touched off a nation-wide investigation which will result in cleansing of the public service and in affirming the faith of the people in their government; and

WHEREAS, The Members of the Senate of the State of California are proud of this able and vigorous young Californian, as they are of his equally courageous and forthright brother, Gerald J. O'Gara, a Member of this Senate; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of this Senate commend Charles O'Gara for his courage, integrity, and devotion to public office, and condemn the conduct of those who are responsible for forcing his resignation; and be it further

Resolved, That the Secretary of the Senate is requested to transmit a copy of this resolution to Charles O'Gara.

Resolution read, and referred to Committee on Rules.

By Senator Hatfield:

Senate Resolution No. 41

Relative to Department of Fish and Game opposition to applications to appropriate water

WHEREAS, The State Engineer is authorized to issue permits and licenses to appropriate water for beneficial uses and may subject the appropriations to such terms and conditions as, in his judgment, will best develop, conserve, and utilize in the public interest the water sought to be appropriated; and

WHEREAS, The Senate Interim Committee on Fish and Game, by resolution, urged the State Engineer to impose, in the public interest, terms and conditions on permits issued to the United States Bureau of Reclamation to require the release of water from Friant Dam necessary to protect the fish and wild life in the San Joaquin River below Friant Dam; and

WHEREAS, Upon the advertisement of applications to appropriate water to be diverted and stored at Friant Dam, the Department of Fish and Game can protest approval of the application and introduce evidence and testimony to support a contention that certain amounts of water are necessary for the preservation of fish life and that releases for that purpose may be properly and lawfully made; and

WHEREAS, The Attorney General is, by law, the legal counsel for the Fish and Game Department except in matters with respect to which the Attorney General consents to the employment of counsel by the department; and

WHEREAS, The Attorney General in his Opinion No. 50-89 dated July 23, 1951 concluded that neither state or federal law requires the release of water at Friant Dam for the preservation of fish life below the dam; and

WHEREAS, The state law requires that in the construction and operation of a dam, such protection shall be given to the fish life below the dam as is reasonable under all of the circumstances of the case; and

WHEREAS, Federal agencies are required to make adequate provision, consistent with the primary purposes of the impoundment, diversion or other control of water, for the conservation, maintenance and management of wild life; and

WHEREAS, It is clear under California law concerning appropriation of water, that the State Engineer consider the relative benefits to be derived from the various uses of the water concerned and subject the appropriation to such terms and conditions as, in his judgment, best develop, conserve and utilize, in the public interest, the water sought to be appropriated; and

WHEREAS, Only through the wholehearted and forceful presentations made by applicants and those who appear in opposition to their applications can the State Engineer effectively determine which terms and conditions are required in the public interest; and

WHEREAS, It is manifestly unfair to ask the Attorney General, who previously concluded that the release of water for fish life is not required by state law, to exert his efforts in opposition to the pending applications by presenting evidence to support a contention that release of water for that purpose can be properly and lawfully made; and

WHEREAS, Applications to appropriate water to be stored and diverted at Friant Dam have now been advertised and the Department of Fish and Game should file any necessary protests without delay; now, therefore, be it

Resolved by the Senate of the State of California, That this body urges the Department of Fish and Game to request the Attorney General for permission to employ independent counsel to represent it in its opposition to applications to appropriate water and that the Attorney General grant such permission; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Attorney General and the Director of the Department of Fish and Game.

Resolution read, and referred to Committee on Rules.

REQUEST FOR UNANIMOUS CONSENT

Senator Hatfield asked for, and was granted, unanimous consent to have the following information submitted by the Legislative Counsel regarding United States v. Federal Power Commission, Pacific Gas and Electric Company, and Fresno Irrigation District, for Itself and as Trustee for Others, printed in the Journal.

STATE OF CALIFORNIA, OFFICE OF LEGISLATIVE COUNSEL

SACRAMENTO, CALIFORNIA, March 24, 1952

Hon. George J. Hatfield
Senate Chamber

United States v. Federal Power Commission, Pacific Gas and Electric Company, and Fresno Irrigation District, for Itself and as Trustee for Others—No. 1432

DEAR SENATOR HATFIELD: You have requested the facts upon which the United States (on behalf of the Secretary of the Interior), bases its Petition to Review Orders of the Federal Power Commission, filed with the United States Court of Appeals for the Ninth Circuit in Case No. 13265, *United States of America, petitioner, v. Federal Power Commission, Pacific Gas and Electric Company, and Fresno Irrigation District, For Itself and as Trustee For Others, respondents*. The action was filed February 18, 1952.

As stated in the petition, the case involves the validity of orders of the Federal Power Commission (1) authorizing the Pacific Gas and Electric Company to construct certain hydroelectric facilities and (2) issuing a preliminary permit to the Fresno Irrigation District to make surveys and secure data in regard to a possible additional power plant. All of the hydroelectric facilities embraced by these orders are to be located on the main stem and North Fork of the Kings River, which, lying at the southern end of the Central Valley of California, rises high in the Sierra Nevada Mountains and, for the most part, drains into a large natural sump known as Tulare Lake. The company now is operating a small hydroelectric plant, called the Balch Plant, on the River's North Fork under a license issued in 1922 by the Federal Power Commission.

In 1945, the Fresno Irrigation District filed with the Federal Power Commission an application for a preliminary permit for hydroelectric developments to be located on the Kings River (Project No. 1925). In 1948, the Pacific Gas and Electric Company applied to the Commission for a license to construct hydroelectric developments on the Kings River (Project No. 1988), which would include an enlargement of its Balch plant previously licensed as Project No. 175.

The Secretary of the Interior recommended that the applications of both the Fresno Irrigation District and the Pacific Gas and Electric Company be denied since those applications involved lands withdrawn by him under the Reclamation Law to be used to develop the power resources of the Kings River as a part of the existing Central Valley Project.

After hearings on the applications, the presiding examiner filed a recommended decision in which he concluded, in effect, that the applications should be denied, recommending that the Commission find that the development of the Kings River water resources be undertaken by the United States.

All parties, including the Secretary of the Interior, took exception to the examiner's findings and after oral argument by all parties, the Commission issued its opinion on November 10, 1949, rejecting the examiner's recommended decision, and directing that licenses be issued to the Pacific

Gas and Electric Company for all of the facilities covered by its applications and that a preliminary permit be issued to the Fresno Irrigation District for a power plant to be located at Pine Flat Dam.

Thereafter, at the request of the Secretary of the Interior, the commission granted a rehearing and, after supplemental briefs were filed and additional arguments heard, the commission issued a supplemental opinion, on December 21, 1951, reaffirming, in effect, its prior opinion with two minor modifications.

In his petition for review, the Secretary of the Interior contends that the commission's orders are invalid, assigning some five reasons therefor. His principal contention is that the commission was without authority to issue the license to the Pacific Gas and Electric Company and the preliminary permit to the Fresno Irrigation District. As a basis for this contention, he refers to Section 4(e) of the Federal Water Power Act which provides

“ * * * That licenses shall be issued within any reservation only after a finding by the Commission that the license will not interfere or be inconsistent with the purpose for which such reservation was created or acquired, and shall be subject to and contain such conditions as the Secretary of the department under whose supervision such reservation falls shall deem necessary for the adequate protection and utilization of such reservation * * *.”

The Secretary maintains that the major portion of the area required for the project embraced within the license of the Pacific Gas and Electric Company constitutes public lands which the Secretary has reserved by the issuance of “First Form Reclamation Withdrawals” for the purpose of federal development of the hydroelectric potential of the Kings River and integrating that development into the comprehensive federal development of the Central Valley Project and that the development proposed by the Pacific Gas and Electric Company and the federal development contemplated by the Secretary of the Interior cannot co-exist, the development of the Kings River by the Pacific Gas and Electric Company interfering with, and being inconsistent with, the Secretary's purposes in creating the reservations.

Section 24 of the act of June 10, 1920 (The Federal Water Power Act), provides that lands of the United States included in any proposed project under that act is from the date of filing of application therefor, reserved from entry, location, or other disposal under the laws of the United States until otherwise directed by the Federal Power Commission or by Congress. Hence, the lands included in the projects of the Fresno Irrigation District and the Pacific Gas and Electric Company were withdrawn as of the date when the applications for power permits or those projects were filed with the commission.

The “First Form Reclamation Withdrawals” are made by the Secretary of the Interior pursuant to Section 3 of the Reclamation Act of 1902 which authorizes the Secretary to withdraw from public entry the lands required for any irrigation work contemplated under the act.

It appears from Exhibits Nos. 7, 9, and 10 filed in connection with hearings before the Federal Power Commission examiner that a First Form

"Pine Flat" Reclamation Withdrawal made on November 16, 1932, included some of the lands in question. However, the principal Reclamation Withdrawals for a Federal "Kings River Project" which included Wishon Reservoir, Haas Power Plant and the Balch Power Plant were made under the provisions of the Federal Reclamation Laws on May 26, 1943.

The Pacific Gas and Electric Company application for Project No. 1988 which included Helms Reservoir, Wishon Reservoir, Haas Power Plant, Balch Power Plant and Kings River Power Plant was filed on January 19, 1948. However, only 7.09 acres of land were reserved as a result of that application, the other lands affected being reserved by the filing of applications for projects No. 102 by the San Joaquin Light and Power Co. (21,259 acres on December 9, 1920; 1,003 acres on May 1, 1924), No. 175 by the San Joaquin Light and Power Co. (12,685 acres on February 11, 1921; 2,365 acres on June 12, 1925; 4,834 acres on March 28, 1929), No. 226 by the San Joaquin Light and Power Co. (3,400 acres on August 11, 1921), No. 270 by the Mendota Irrigation District (336 acres on January 3, 1922), No. 1925 by the Fresno Irrigation District (7,239.79 acres on February 2, 1945). In other words, 45,882 acres of land included in the Pacific Gas and Electric Company's Project No. 1988 had been reserved under the Federal Water Power Act before the 1943 Reclamation Withdrawals of the Secretary of the Interior and 7,247.69 acres were withdrawn after the 1943 Reclamation Withdrawals.

The reservation under the Federal Water Power Act by virtue of the Fresno Irrigation District application for Project No. 1925, as indicated above, dated February 2, 1945, is for 7,239.79 acres.

In this connection it is noted that the First Form Reclamation Withdrawals for approximately 49,000 acres of land included in a Federal "Feather River Division, Central Valley Project," were made on February 19, 1952. On the same day, we are informed, the application of the Water Project Authority for a permit under the Federal Water Power Act for the State Feather River Project (authorized by Chapter 1441 of the Statutes of 1951) was filed, thus automatically reserving the lands of the project by virtue of Section 24 of the Federal Water Power Act.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT

Senator Tenney asked for, and was granted, unanimous consent to take up Senate Resolution No. 40, at this time, for consideration.

CONSIDERATION OF SENATE RESOLUTION NO. 40**Senate Resolution No. 40****Relative to Charles O'Gara**

WHEREAS, An outstanding example of honesty, courage, and sincere devotion to duty on the part of a public official of undisputed integrity is to be found in the case of Charles O'Gara of San Francisco; and

WHEREAS, The Senate of the State of California believes that in the midst of many current charges and rumors of dishonesty in public office such an example should be emphasized as typical of the vast majority of Americans who devote themselves to public service; and

WHEREAS, The following chronicle of events leading up to the resignation of Charles O'Gara from his position as Assistant United States Attorney in San Francisco illustrates the exemplary conduct of this young public officer who, in the courage of his convictions, attempted to uncover and prosecute those who violate the law, irrespective of whom they might be and regardless of the possible consequences to himself, and who was rewarded for his outstanding service to his country by the exertions of pressures leading to his resignation:

Charles O'Gara was appointed Assistant United States Attorney at San Francisco December 9, 1949. Early in April, 1951, he received information from Deputy Collector of Internal Revenue Thomas J. Doolan indicating certain irregular practices among Internal Revenue personnel at San Francisco. Reviewing this material O'Gara prepared a detailed list of the allegations and presented it to the Federal Grand Jury of this district headed by Richard Seward on May 11, 1951. Seward's grand jury was the grand jury for the July, 1950, term as extended. In view of the extension of the Seward grand jury term it was decided by that jury that O'Gara should present the matter to the then current jury, headed by foreman John Taylor, for the term of March, 1951. According to this instruction, O'Gara, on May 16, 1951, presented formally to the Taylor grand jury the list of alleged irregularities. O'Gara's presentation was interrupted by Federal Judge Louis E. Goodman who directed the grand jury to report to Judge Goodman's courtroom. Following this interruption the Taylor grand jury resumed its investigation and concluded its business by December, 1951, returning several indictments.

After the presentation of May 16, 1951, O'Gara was subpoenaed before the Senate Finance Committee in Washington where he testified for two and one half hours on the development of the Internal Revenue investigation in San Francisco. His testimony was given on August 31, 1951. From the date of his Senate Committee appearance and up until the date of his resignation, March 14, 1952, O'Gara was not given any assignment, either criminal or civil, at the office of the United States Attorney. Despite the lack of assignment O'Gara remained in office throughout this period, awaiting a judicial ruling upon the validity of the Taylor grand jury indictments as well as upon the legality of O'Gara's appearance before the grand jury when he made his presentation May 16, 1951, and his connection with certain grand jurors who appealed to him for assistance in respect to the problem of grand jury powers. After the order of Judge Goodman interrupting the grand jury proceeding of May 16, O'Gara at the request of certain grand jurors on the Taylor grand jury, gave them detailed information as to the law of grand jury powers and particularly the power of the grand jury to investigate on its own. The legality of O'Gara so responding to the request of grand jurors was recognized in the judicial ruling handed down by Federal Judge James Alger Fee in San Francisco on February 20, 1952. In this ruling Judge Fee reviewed the development of the Internal Revenue investigation from May 16, 1951, down to the time of the indictment in December of 1951. Judge Fee's ruling clearly approves the authority of the grand jury to conduct itself as it did and also vindicates O'Gara in his authority while assisting the grand jurors.

Despite the Fee ruling, there being no assignment given O'Gara after February 20, 1951, O'Gara turned in his resignation on March 14, 1952. He has resumed practice at San Francisco; and

WHEREAS, The foregoing occurrences in San Francisco touched off a nation-wide investigation which will result in cleansing of the public service and in affirming the faith of the people in their government; and

WHEREAS, The Members of the Senate of the State of California are proud of this able and vigorous young Californian, as they are of his equally courageous and forthright brother, Gerald J. O'Gara, a Member of this Senate; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of this Senate commend Charles O'Gara for his courage, integrity, and devotion to public office, and

condemn the conduct of those who are responsible for forcing his resignation; and be it further

Resolved, That the Secretary of the Senate is requested to transmit a copy of this resolution to Charles O'Gara.

Resolution read, and adopted on motion of Senator Tenney.

Committee of Legislative Representation

Sacramento, California

Dear Sirs:

This is to verify the letter that was sent to the Committee of Legislative Representation by David A. Town and myself, Lucius J. Spolyar. It is understood that this letter was not signed by a notary.

The points that were brought out for clarification were: That both, David A. Town and Lucius J. Spolyar are not paid any salary, bonus, or commission for their advising, but are only reimbursed for their traveling and more expenses by the Associated Students of the State College, whom they represent.

I hope this letter will serve as both of us. Thanking you for your kind consideration, I remain,

Sincerely,

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system of equations (1) has solutions for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied. The case $\alpha + \beta \neq 1$ is not considered in this paper.

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation $f(x) = \int_0^x f(t) dt$. It is shown that $f(x)$ is a continuous function and that it satisfies the functional equation $f(x+y) = f(x) + f(y)$. The function $f(x)$ is also shown to be differentiable and its derivative is found to be $f'(x) = f(x)$. This implies that $f(x) = Ce^x$ for some constant C . The value of C is determined by the initial condition $f(0) = 1$, which gives $C = 1$. Therefore, the function $f(x)$ is $f(x) = e^x$.

Figure 1. The effect of the number of iterations on the accuracy of the solution for the problem of the optimal control of the motion of a rigid body. The number of iterations is indicated on the x-axis, and the accuracy of the solution is indicated on the y-axis. The accuracy of the solution is measured by the relative error of the solution, which is calculated as the ratio of the absolute error of the solution to the maximum value of the solution. The accuracy of the solution is shown for the problem of the optimal control of the motion of a rigid body, and for the problem of the optimal control of the motion of a rigid body with a variable mass. The accuracy of the solution is shown for the problem of the optimal control of the motion of a rigid body, and for the problem of the optimal control of the motion of a rigid body with a variable mass.

LEGISLATIVE AUDITOR

Legislative Auditor
c/o Registrations
State Capitol
Sacramento, California

Dear Sir:

Having heretofore registered with you pursuant to Section 9906 of the Government Code, I file this statement pursuant to the third sentence of that section.

During the month of June I received my monthly salary as Director of the State Governmental Affairs Department of the California State Chamber of Commerce, Agriculture and Industry and your honored representative, to the best of my knowledge and belief, compensation for the performance of the type of work referred to in said section.

During the month I made the following expenditures in carrying on said work, for which I expect to be reimbursed in due course:

Miscellaneous expenditures, no one item of which exceeded \$25.00 — \$444.77

During the month of July I was on vacation and expended no money for legislative purposes.

I am employed to support or oppose such legislation as to which the Board of Directors of the California State Chamber of Commerce, Agriculture and Industry may, from time to time, take a public position.

Very truly yours,

WILLIAM C. BAKER
Acting Assistant General Manager

Re: Legislative Expenses

Enclosed you will find my report supplementing my letter
of October 4, 1951 addressed to you.

I incorporate herein by reference the statements contained
in my letter addressed to the Auditor on January 7, 1951,
the same as if they were set forth at length.

I have engaged in no services from October, 1951, to date,
which in my opinion would come within the provisions of
the above mentioned statute. I have, however, received
from various legislative committees for which I have received
the sum of \$475.00 and with respect to which I have in-
curred expenses of \$29.00.

I am submitting this information to you solely in order
that you may be fully advised as to my activities even
though they are in no way related to requirements of the law.

Very truly yours,

WHEREAS, The above report was submitted to the Senate Social Welfare Committee for its study and recommendations, which committee in turn referred it to the Senate Interim Committee on Social Welfare; and

WHEREAS, The above-mentioned inquiry is but one of many being conducted by the interim committee, so that the committee is in need of funds in order to proceed with its studies in the field of social welfare; now, therefore, be it

Resolved by the Senate of the State of California, That in addition to any money heretofore made available, the sum of twenty thousand dollars (\$20,000) or so much thereof as may be necessary, is hereby made available from the Contingent Fund of the Senate for the expenses of the Senate Interim Committee on Social Welfare (created by Senate Resolution No. 181, 1951 General Session) and its members, and for any charges, expenses, or claims it may incur, under said resolution, to be paid from said contingent fund and disbursed after certification by the chairman of the committee upon warrants drawn by the State Controller on the State Treasurer.

Resolution read, and referred to Committee on Rules.

By Senator Collier:

Resolved, That the Senate Committee on Rules is further requested to make sufficient funds available to said committee from the Contingent Fund of the Senate to enable it to conduct the investigation and make the report provided for in this resolution.

Senate Resolution No. 50

WHEREAS, St. Mary's College has in its 90-year history rendered an outstanding public service to the people of the State of California in the field of private education; and

WHEREAS, The first Board of Regents in the history of St. Mary's College recently has been selected by this illustrious institution; and

WHEREAS, This Board of Regents is composed of 32 outstanding business, industrial, and professional leaders, both Catholic and non-Catholic; and

Senate Resolution No. 51

Relative to John L. E. (Bud) Collier winning Bridge Oscar

WHEREAS, A certain handsome and distinguished Member of the Assembly of the State of California is, in addition to his diligent and arduous labors in the Legislature, engaged in a research project guaranteed to qualify him for the preparation of a monograph delineating and differentiating the Hamiltonian and Jeffersonian theories of democratic government; and

WHEREAS, Under the tutelage of certain Members of the Senate of the State of California, this same illustrious Member of the Assembly has progressed fearfully and wonderfully in his grasp of the principles of the game of contract bridge; and

WHEREAS, Most recently he engaged in tournament play where with bold bids, artful leads, deceptive discards, and splendid finesse, while shunning the fast shuffle and the new deal, he displayed such skill and mastery of the game that he emerged from the engagement triumphant and the holder of a golden statuette, an artfully designed and elegantly executed symbol of triumph in the Capital Bridge Club Tournament; and

WHEREAS, His patrons in this Senate, justly proud of the advances of their protegee in statesmanship and the art of bridge playing, are pleased and gratified to learn of his success in tournament play and his possession of the beautiful and fitting trophy, yet they do not feel that the trophy is altogether adequate for the full and permanent commemoration which the event merits; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of this Senate hereby extend to Assemblyman John L. E. (Bud) Collier, of Los Angeles and South Pasadena, their heartiest congratulations upon his winning of this Contract Bridge Oscar; and be it further

Resolved, That we consider the advisability of appointing a committee to design and prepare a bronze plaque to be erected upon the site of the redoubtable Assemblyman's triumph as a perpetual and permanent marker to commemorate this signal event; and that we suggest to such committee that they consider as a suitable motive for the plaque design a diamond studded club suspended over a heart imposed upon a background of crossed spades, all surmounted by a Jack rampant, thus symbolizing the industry, the field of endeavor, and the success of the champion; and be it further

Resolved, That the Secretary of the Senate transmit a suitably prepared copy of this resolution to Assemblyman Bud Collier, with the compliments of his colleagues in the Senate.

Resolution read, and on motion of Senator Hatfield, adopted.

RESOLUTIONS

The following resolution was offered:

By Senator Hatfield:

Senate Resolution No. 41

Relative to Department of Fish and Game opposition to applications to appropriate water

WHEREAS, The State Engineer is authorized to issue permits and licenses to appropriate water for beneficial uses and may subject the appropriations to such terms and conditions as, in his judgment, will best develop, conserve, and utilize in the public interest the water sought to be appropriated; and

WHEREAS, The Senate Interim Committee on Fish and Game, by resolution, urged the State Engineer to impose, in the public interest, terms and conditions on permits issued to the United States Bureau of Reclamation to require the release of water from Friant Dam necessary to protect the fish and wild life in the San Joaquin River below Friant Dam; and

WHEREAS, Upon the advertisement of applications to appropriate water to be diverted and stored at Friant Dam, the Department of Fish and Game can protest approval of the application and introduce evidence and testimony to support a contention that certain amounts of water are necessary for the preservation of fish life and that releases for that purpose may be properly and lawfully made; and

WHEREAS, The Attorney General is, by law, the legal counsel for the Fish and Game Department except in matters with respect to which the Attorney General consents to the employment of counsel by the department; and

WHEREAS, The Attorney General in his Opinion No. 50-89 dated July 23, 1951, concluded that neither state or federal law requires the release of water at Friant Dam for the preservation of fish life below the dam; and

WHEREAS, The state law requires that in the construction and operation of a dam, such protection shall be given to the fish life below the dam as is reasonable under all of the circumstances of the case; and

WHEREAS, Federal agencies are required to make adequate provision, consistent with the primary purposes of the impoundment, diversion or other control of water, for the conservation, maintenance and management of wild life; and

WHEREAS, It is clear under California law concerning appropriation of water, that the State Engineer consider the relative benefits to be derived from the various uses of the water concerned and subject the appropriation to such terms and conditions as, in his judgment, best develop, conserve and utilize, in the public interest, the water sought to be appropriated; and

WHEREAS, Only through the wholehearted and forceful presentations made by applicants and those who appear in opposition to their applications can the State Engineer effectively determine which terms and conditions are required in the public interest; and

WHEREAS, It is manifestly unfair to ask the Attorney General, who previously concluded that the release of water for fish life is not required by state law, to exert his efforts in opposition to the pending applications by presenting evidence to support a contention that release of water for that purpose can be properly and lawfully made; and

WHEREAS, Applications to appropriate water to be stored and diverted at Friant Dam have now been advertised and the Department of Fish and Game should file any necessary protests without delay; now, therefore, be it

Resolved by the Senate of the State of California, That this body urges the Department of Fish and Game to request the Attorney General for permission to employ independent counsel to represent it in its opposition to applications to appropriate water and that the Attorney General grant such permission; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Attorney General and the Director of the Department of Fish and Game.

Resolution read, and adopted on motion of Senator Hatfield.

WHEREAS, The neighborliness, patriotism and farsightedness manifested by the Senate of the State of Michigan in this generous gesture offers encouragement, not alone to California, but to all the other states of the Union in their resistance to the capricious exercise of bureaucratic power, and merits more than passing recognition on the part of all believers in the institutions of freedom; therefore, be it

Resolved by the Senate of the State of California, That the people of the State of Michigan, and particularly the members of the Michigan Senate, be thanked for this friendly gesture of good will and be commended for their recognition of the far reaching implications of the arbitrary attack made by the United States Attorney General upon the water rights of certain citizens of the State of California, residing in the vicinity of Fallbrook, California; and be it further

Resolved, That the Secretary of the Senate be, and he is hereby instructed, to transmit a copy of this resolution to the Senate of the State of Michigan, to Senator

STATE OF CALIFORNIA, DEPARTMENT OF JUSTICE
OFFICE OF THE ATTORNEY GENERAL
STATE BUILDING, SAN FRANCISCO, March 26, 1952

*Mr. J. A. Beek, Secretary of the Senate
California Legislature, Sacramento, California*

DEAR MR. BEEK: This will acknowledge receipt of Senate Concurrent Resolution No. 11.

I can assure you that our office will render every assistance possible to the District Attorney of Alpine County, in accordance with the terms of your resolution. However, there is some difference of opinion, as to the best method of solving this problem, between the District Attorney of Alpine County and this office. I would be very happy to have Mr. Arvin Shaw, who has made a full study of this problem, confer with the committee and Members of the Legislature at their convenience and explain what, in his opinion, should be done.

Very truly yours,

EDMUND G. BROWN, Attorney General

RESOLUTIONS

The following resolution was offered:

By Senator Tenney:

Senate Resolution No. 58

Relating to retirement pay for postal employees

WHEREAS, Bills are now pending before the Congress which would increase the annuities for postal employees now on retirement and also provide an increase for those who retire in the future; and

WHEREAS, Retired postal employees who have faithfully performed service to the country have suffered unduly from the high cost of living in the past several years due to the fixed nature of retirement payments; and

WHEREAS, Postal employees yet to retire are entitled to a retirement income which will compensate as well as possible for recent cost of living increases; and

WHEREAS, Two bills, S. 995 and particularly H. R. 6450, are designed to accomplish this worthwhile objective; now, therefore, be it

Resolved by the Senate of the State of California, That the Congress of the United States is respectfully memorialized to enact H. R. 6450 or S. 995, or other legislation of similar nature to increase the retirement pay of postal employees; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the President and Vice President of the United States, to the Postmaster General, to the Speaker of the House of Representatives and to each Senator and Representative from California in the Congress of the United States.

Resolution read, and referred to Committee on Rules.

By Senators McCarthy, Coombs, Dillinger, Way, Judah, O'Gara, Desmond, and Miller:

Senate Resolution No. 59

Relative to reducing tolls on the Golden Gate Bridge

WHEREAS, The Golden Gate Bridge and Highway District was created pursuant to legislative enactment as a political subdivision of the State of California and operates the Golden Gate Bridge as the only direct highway link between San Francisco and Marin County; and

WHEREAS, This great bridge was financed by a \$35,000,000 bond issue, authorized by the electorate of the City and County of San Francisco, and the Counties of Marin, Napa, Sonoma, Mendocino and Del Norte, which comprise the district; and

WHEREAS, The Golden Gate Bridge, first opened to traffic in May 1937, has been a financial success from the start and, from its toll revenues, has met every financial obligation as it became due; and

WHEREAS, By prudent and efficient management the Golden Gate Bridge and Highway District has accumulated through the years—and is continuing to accumulate—substantial reserve funds which are not actually needed for current operation and maintenance costs of the bridge but are retained for insurance and investment purposes; and

WHEREAS, The district had a total of \$12,331,784 in cash and securities at June 30, 1951, according to its annual report for 1950-51; and

WHEREAS, The Senate of the State of California recognized the importance of the Golden Gate Bridge to the economy of California by authorizing, at the 1951 Session of the Legislature, the appointment of an interim committee on problems concerning the inclusion of the Golden Gate Bridge into the State Highway System; and

WHEREAS, This committee reports to the Senate that it appears that substantial reduction in annual revenue through rate reduction can be made at this time without impairment of the district's ability to meet all costs of bond interest and redemption and normal costs of operation and maintenance; and

WHEREAS, It is vital to the economic development of all California and to the regular commuters and traveling public that tolls on the Golden Gate Bridge be reduced to the lowest possible basis, consistent with necessary financial requirements and safeguards for the district; now, therefore, be it

Resolved that the Senate of the State of California, Hereby requests the Board of Directors of the Golden Gate Bridge and Highway District to review the district's long-range financial situation and to give immediate consideration to a reduction of one-way tolls from forty (40) cents to twenty-five (25) cents for each passenger vehicle and occupants and a reduction, correspondingly and proportionately, of the tolls charged regular commuters crossing the Golden Gate Bridge; and be it further

Resolved, That the Board of Directors of the district be requested to advise this Senate of any action taken thereupon; and be it further

Resolved, That the Secretary of the Senate be directed to send a copy of this resolution to the Board of Directors of the District.

Resolution read, and referred to Committee on Rules.

STATEMENT OF VOTE

SENATE, CALIFORNIA LEGISLATURE, March 28, 1952

Mr. President and Gentlemen of the Senate:

My negative vote on Senate Hoffman's amendments to Assembly Bill No. 1, concerning the new armory construction was prompted for the following reasons:

The armory priority building schedule in the 1951 Budget, and as now continued in the 1952 Budget submitted by Governor Earl Warren to this Budget Session, is satisfactory to me. This priority building schedule is of extreme importance and amounts to a "gentleman's agreement"; therefore, I am prompted to yield to the Senate Finance Committee's timing as to actual construction.

Respectfully submitted,

SENATOR LOUIS G. SUTTON
Chairman, Senate Standing Committee
on Military and Veterans Affairs

CONSIDERATION OF SENATE RESOLUTION NO. 59

Senate Resolution No. 59

Relative to Reducing Tolls on the Golden Gate Bridge

WHEREAS, The Golden Gate Bridge and Highway District was created pursuant to legislative enactment as a political subdivision of the State of California and operates the Golden Gate Bridge as the only direct highway link between San Francisco and Marin County; and

WHEREAS, This great bridge was financed by a \$35,000,000 bond issue, authorized by the electorate of the City and County of San Francisco, and the Counties of Marin, Napa, Sonoma, Mendocino and Del Norte, which comprise the district; and

WHEREAS, The Golden Gate Bridge, first opened to traffic in May, 1937, has been a financial success from the start and, from its toll revenues, has met every financial obligation as it became due; and

WHEREAS, By prudent and efficient management the Golden Gate Bridge and Highway District has accumulated through the years—and is continuing to accumulate—substantial reserve funds which are not actually needed for current operation and maintenance costs of the bridge but are retained for insurance and investment purposes; and

WHEREAS, The district had a total of \$12,331,784 in cash and securities at June 30, 1951, according to its annual report for 1950-51; and

WHEREAS, The Senate of the State of California recognized the importance of the Golden Gate Bridge to the economy of California by authorizing, at the 1951 Session of the Legislature, the appointment of an interim committee on problems concerning the inclusion of the Golden Gate Bridge into the State Highway System; and

WHEREAS, This committee reports to the Senate that it appears that substantial reduction in annual revenue through rate reduction can be made at this time without impairment of the district's ability to meet all costs of bond interest and redemption and normal costs of operation and maintenance; and

WHEREAS, It is vital to the economic development of all California and to the regular commuters and traveling public that tolls on the Golden Gate Bridge be reduced to the lowest possible basis, consistent with necessary financial requirements and safeguards for the district; now, therefore, be it

Resolved that the Senate of the State of California, hereby requests the Board of Directors of the Golden Gate Bridge and Highway District to review the district's long-range financial situation and to give immediate consideration to a reduction of one-way tolls from forty (40) cents to twenty-five (25) cents for each passenger vehicle and occupants and a reduction, correspondingly and proportionately, of the tolls charged regular commuters crossing the Golden Gate Bridge; and be it further

Resolved, That the board of directors of the district be requested to advise this Senate of any action taken thereupon; and be it further

Resolved, That the Secretary of the Senate be directed to send a copy of this resolution to the board of directors of the district.

Resolution read, and adopted on motion of Senator McCarthy.

SENATE FINANCE COMMITTEE
CALIFORNIA LEGISLATURE
March 31, 1952

Hon. J. A. Beek
Secretary of the Senate
State Capitol

DEAR MR. BEEK: Pursuant to its studies and recommendations in connection with the Budget Act of 1952, the Senate Finance Committee has made the following agreements with various state agencies regarding their budgets:

Department of Agriculture

The committee requested the Department of Finance, through its Management Analysis Section, to make a study of the possibilities for reducing the number of members on the Poultry Improvement Commission for submission to the Joint Interim Committee on Agricultural and Livestock Problems prior to the next general session of the Legislature.

Department of Corrections

It has been mutually agreed among the representatives of the Department of Finance, the Department of Corrections, and the office of the Legislative Auditor that accurate time records will be kept by the Department of Corrections in order to charge properly the Correctional Industries Revolving Fund with the time of officers, carried in the support budget, when such officers are engaged in activities which would not have been conducted except for the fact that they are directly related to Correctional Industries operations.

Department of Education

The Legislative Auditor is to make a study of the need for consultants in physical education, school health education, and community recreation for the next regular session.

The Department of Education has agreed to file a report on teacher credentials policies by the next regular session with the Legislative Auditor; and he is to file the report with the Joint Legislative Budget Committee as well as with any interim committee in either house that might be going into this matter of education.

The Department of Finance, the Legislative Auditor, and the agency are requested to study possible methods of making the peace officers' training program pay for itself. A similar study is to be made for the fire training program.

The Department of Finance, the Legislative Auditor, and the agency are to review the policy of Trade and Industrial Education and Distributive Education. They are requested to study the emphasis of the present services offered to industry and the possibility of charging for services, such as work simplification, safety and organization, and methods courses, rendered to industries which are large enough to have experts of their own in these fields.

Regarding the state colleges, the Department of Finance, the Legislative Auditor, and the Department of Education have been requested to obtain figures on the cost of laboratory schools at the state colleges in terms of value to the college and the students.

Franchise Tax Board

The committee recommended that study should be made by the Legislative Auditor to determine possibility of joint performance of functions of field staffs of various state tax agencies to the end that needless duplication of facilities be eliminated; a report should be made each year on this subject.

Department of Industrial Relations

Referring to the Division of Industrial Accidents, the committee requested that a thorough study of this organization and its operations be undertaken by or at the direction of the Department of Finance. It is recommended that the Legislative Auditor and the Legislative Counsel render assistance to the Department of Finance or others in making this study. Possibilities of having the Legislative Counsel review the legal aspects of the operations in light of the procedures used in other agencies exercising judicial or semijudicial functions might be explored.

It is also requested that the commission prepare a realistic and meaningful statistical report of its activities to be presented to the Department of Finance quarterly.

Department of Investment, Division of Real Estate

The Commissioner of Real Estate was requested to review the subdivision situation with the State Real Estate Advisory Board and make a study of the lines of authority and responsibility between the State and the local governmental agencies to determine what should be done to eliminate existing confusion as to the lines of governmental jurisdiction.

Department of Justice

The Division of Civil Law, together with the Department of Finance and the Legislative Auditor, was requested to communicate with the Department of Justice in Washington to ascertain the type of records and the procedure they follow in their various district attorneys' offices; the department was requested then to keep comparable records and a report submitted next year.

Department of Mental Hygiene

The Department of Mental Hygiene was requested to contact with the University of California to see if there were a method by which reasonable accuracy of the effectiveness of outpatient clinics can be determined by a survey. The Department of Finance and the Legislative Auditor are requested to review any plan that may be developed during the interim to see if statistical measurement would be satisfactory.

In addition, the committee recommended that the Department of Mental Hygiene present a plan to the Legislature regarding local participation in financing outpatient clinics.

Inasmuch as the Langley Porter Clinic is located next to the University Hospital, it was recommended that the Department of Finance study the feasibility of having the University collect the necessary fees for patients entering the Langley Porter Clinic and to put such a plan into operation if they find it workable.

The Department of Mental Hygiene was requested to make a further study concerning the ratio of nursing personnel to total inmate population in the mental institutions to assist in determining a desirable goal for the State of California. Full cognizance and comparisons with the staffing of nursing personnel in our institutions as compared with nursing personnel staffing in other leading states should also be presented to the Legislature by the department.

Department of Motor Vehicles

It is recommended that an appropriate committee give special consideration to the recommendations contained in the "Analysis of Field Office Operations, Department of Motor Vehicles," prepared by the Legislative Auditor, November 27, 1951.

Department of Fish and Game

The present budget for the Department of Fish and Game is recommended with the express understanding that the Department of Fish and Game will make every effort to reduce the departmental headquarters staff in accordance with the recommendations made by the Legislative Auditor in his analysis of the supplemental budget request. The Department of Fish and Game, in presenting its budget for the 1953-54 Fiscal Year to the 1953 Legislature, will indicate the extent to which the Legislative Auditor's recommendations have been followed and the reasons for not carrying out any portions thereof.

Highway Patrol

With reference to Item 154.5, the Department of Finance consented to take over and conduct the survey if they found after a reasonable time that the Division of Highway Patrol was not complying with the wishes of the Legislature as indicated by this appropriation.

Division of Forestry, Department of Natural Resources

The allotment to the United States Forest Service, for prevention and suppression of forest fires on private and state-owned lands located within and adjacent to the boundaries of United States National Forests within this State, was approved with the stipulation that the U. S. Forest Service should prove that forest protection for state responsibility lands is actually increased; otherwise, the increased payments based on the new formula should be cut back to the currently used formula for determining reimbursement.

Aeronautics Commission

It was recommended that a thorough study be made of the Aeronautics Commission to outline clearly the functions and the organization of the commission, with particular attention to the advisability of (a) further reduction in existing personnel and (b) placing the Aeronautics Commission in an existing state agency.

Recreation Commission

The committee requested that the Legislative Auditor work with the Department of Finance in a study of the Recreation Commission, particularly with reference to developing a program to put consulting services on a self-supporting, or partially self-supporting, basis.

Veterans Affairs

It was agreed that the Department of Veterans' Affairs, the Department of Finance, and the Legislative Auditor will undertake a complete re-evaluation of the Veterans' Claims and Rights Service which shall be submitted to the 1953 Legislature.

Comprehensive Liability Insurance

The committee requested the Legislative Auditor to prepare a report for presentation to the next general session of the Legislature pertaining to the basic question to determine whether the State should acquire insurance for this purpose or act as a self-insurer, and the possibility of setting up a revolving fund. The committee requested that the whole problem be worked out by the Legislative Auditor together with the Department of Finance and be reported back to the 1953 session.

Respectfully submitted,

BEN HULSE, Chairman
Senate Committee on Finance

PRESENTATION OF THE GOVERNOR

Hon. Goodwin J. Knight, Lieutenant Governor of California, then presented His Excellency, Hon. Earl Warren, Governor of the State of California, to the Joint Convention.

Governor Warren then proceeded to address the Joint Convention as follows:

ADDRESS BY THE GOVERNOR**SPECIAL SESSION**

I have also called you into special session for the purpose of considering certain subjects which I believe can properly be called emergency matters. They are 14 in number, but in almost every instance are believed to be noncontroversial. All of them have been discussed with and agreed to by your speaker and president pro tempore. There were many other items requested—to be specific, 68 in number. It was the joint belief of your officers and myself that although many of the others could well be the subject of desirable legislation, they are not emergencies within the proper scope of a special session and should therefore be left to the general session in January, 1953. All of the included items have been specifically requested by one or more legislators, who have been notified that they would be included in the Call of the Session.

I have commented in the Budget Message on the items for public school construction and the Veterans' Farm and Home Purchase program.

The item on civil defense was included for the purpose of enabling the Legislature to provide for unfreezing funds heretofore appropriated for federal-state programs.

The item on sex offenses is to enable your Legislative Committee which has been working on this problem for a long time to foster legislation to strengthen the law.

The items on the San Francisco Oakland Bay Bridge are for the purpose of enabling the Legislature to pass such legislation as it deems proper in connection with the financing of improvements to the bridge, and for plans and specifications for additional crossings.

The other items are of a special or local nature. They are described in the Call and should require no further elaboration. If you desire any further information concerning them, I will be happy to supply it upon request.

I wish you success in your deliberations, and feel certain that the items in this special session will not greatly increase your labors nor unduly extend the length of the session.

ADJOURNMENT OF JOINT CONVENTION

At 2.20 p.m. there being no further business, the Speaker of the Assembly declared the Joint Convention adjourned sine die.

REASSEMBLED

At 2.30 p.m., the Senate reconvened.

Hon. Goodwin J. Knight, President of the Senate, presiding.
Secretary J. A. Beek at the desk.

RESOLUTIONS

The following resolution was offered:

By Senator Hatfield:

Senate Resolution No. 12

Relative to Senator Nelson S. Dilworth

WHEREAS, Senator Nelson S. Dilworth addressed the Los Angeles County Institute at John Muir College on January 17, 1952 on the subject of Social Studies in the Junior College; and the following words

I come to you this afternoon with some uncertainty that I can fully relate my remarks to the workaday tasks of a social studies teacher. But certain, I am of this, that practical, responsible officials in government and the teachers of our maturing youth need each other's counsel and criticism.

When Kettering was helping to develop diesel engines, the dean of engineering at a well-known college told him sharply that, according to all the engineering books, his engines could not possibly run.

"My engines don't read books," said Kettering, "but they run."

Our civilization entering the second half of the twentieth century is breaking new ground in science and mechanics, mounting new horizons of governmental activity and of human philosophy. The faith and courage of the explorer multiplied by thousands is a crying need of the hour, to chart and master new fields of human endeavor.

Secular education has taken the material progress of man from the slow plodding of human labor and horse-drawn transportation in 50 years and mounted it on the wings

of great airplanes with the speed of sound, but without the faith in God necessary to prevent mankind from destroying itself. Once again we must seek the sources of the ideals and the humanitarian motives that will enable us to control our expanding science in harmony with the moral laws inherent in our very being, immutable and indestructible.

History is a social science. History is the great social study. History has countless lessons for every generation to learn and for every race and nation. Recent attempts to rewrite history do not change the facts, they only mislead and deceive the unfortunate reader.

Someone will write in deeds the history of tomorrow. Someone must decide what deeds to do in private life and in public affairs that will become history tomorrow. Someone in school today will make those decisions in the tomorrows of history.

The acquaintance of the legislator with the junior college should not begin and end at Sacramento. It should begin and continue without end, in the legislator's own district, with his own college, and include students, staff and executives. Only thus can a legislator fully appreciate the practical effect on the lives of the youth in his district flowing from his official acts at Sacramento.

There are more students in the junior colleges of California than in the freshman and sophomore classes of all branches of the great University of this State and in the freshman and sophomore classes of the 10 state colleges and the two score private colleges all combined. One reason is that California has financed junior colleges more adequately than any other state. The greatness of your task is the measure of your unique and thrilling opportunity to give them true facts.

These students should be given a practical introduction to governmental activity. It can be practical without being too practical. A college graduate who had scorched the turf of many a gridiron and been cheered with deafening roars in scores of crowded stadiums, signed up with a pro football team. In practice scrimmage he could see he wasn't accepted as one of the gang. He was first sent into a game in the second half with his team on the short end of the score. He plowed into the opposing lineman with both word and deed and after stopping a line plunge through his position he picked himself up and spit out four teeth. His opponent snarled, "You had 32 and now you have 28. Do you want to try for 24?"

There is more than one kind of practicality. How you do things often counts for as much as what things you do.

What do your students say about the tax collector scandals? Are they blaming the officials entirely and blaming our Constitution and form of government? Do they ever ask if any one would ever even hear of tax frauds in a dictatorial form of government? For every official who is weak and yields to fraud and tax fixing practices there are probably a hundred citizens who try to obtain such concessions.

American freedoms and liberties are the product of the highest form of government ever achieved by mankind but they require the highest type of citizens to make them work. Any coward can be a good citizen behind the iron curtain, do as he is told and secretly tell on every neighbor that thinks for himself.

To be a good American requires a love of truth and justice, a willingness to sacrifice personal advantage for honor. The only secret police we have are the voices of conscience in the hearts of our loyal citizens who love our Land and its institutions.

So our students must be told that there is as much need for good citizens as there is for good officials. This is as true in city affairs as in national. Our large city governments are notoriously the least creditable portions in our American system. They are that way because citizens vote to have them that way.

The workaday world that we face is not play. Modern man faces stiff competition in his effort to preserve his life and freedom. We face the toughest kind of competition from the largest single military potential in the world, eight hundred million people engulfed behind the iron curtain in a ruthless military dictatorship.

What else can be the meaning of the tens of thousands of military planes and tanks being turned out every year in the Soviet by helpless workmen dependent for actual bread on their military masters? Competition is real in this world. It is the greatest reality of life and cannot be denied.

International rivalry continues in peace as in war. The present peace is only a tactical interlude, we read in the Manifesto and Lenin's books.

I assert that the men of the Politburo of the Supreme Soviet are warmongers.

Listen to this! William Foster, Chairman of the Communist Party of America, has written, and I quote, "nevertheless the working class itself cannot come into power without civil war."

I quote from the communist manifesto itself, "communists openly declare that their ends can only be obtained by the forcible overthrow of all existing social conditions."

Communists preach and advocate civil war. Communists are warmongers. I quote Vladimir Lenin, "the replacement of the bourgeois by the proletarian state is impossible without a violent revolution."

I quote from Joseph Stalin's own book, "the dictatorship of the proletariat is a revolutionary power based on violence against the bourgeoisie. To put it briefly: the dictatorship of the proletariat is the domination of the proletariat over the bourgeoisie untrammelled by law and based on violence." The Chinese republic and

liberty fell in civil war instigated and supplied by the Soviets. The same civil war tactics would have conquered Korea except for our intervention. The pattern fits perfectly.

Again I quote another of Stalin's books, "The dictatorship of the proletariat—can come only as the result of the destruction of the bourgeois state, of the bourgeois army—and of the bourgeois police."

I quote Stalin again, "We must therefore regard the dictatorship of the proletariat, the transition from capitalism to communism—as an entire historical epoch full of civil wars—" WARS.

These are the marching orders of world communism. They have no place in free America.

I want to point out right here that the Politburo does not apparently seek to fight us but to provoke us to fight each other. To secretly incite race and class hatred among all free peoples until class will destroy class in the ugliest, most terrible of all wars, civil war, brother against brother, father against son.

These are correct quotations of comintern policy.

The Supreme Soviet is set up and planned as a world government of subordinate Soviets. All the gears are from the top down. There are none for the people to operate. There are no forward gears for freedom for the Russian people.

I have heard the argument advanced that perhaps we should try Communism and see if it is better or worse. That is something you can't do. You cannot try Communism any more than you can try arsenic or cyanide. Communism is permanent. It is fatal to freedom. It is in effect, the total loss of your right to ever change your mind.

These are things our students should know and understand.

We have recently observed the happy Christmas holiday season but there is no Christmas message or season of good will behind the iron curtain.

I spoke of international competition for national survival. It is real. If you doubt it ask the veteran home from Korean fox holes.

Our students should know the reality of other kinds of competition that we face here at home. There is the competition for business success, for public favor and demand. The public is the umpire, and the banker is the scorekeeper. Every time you buy a General Motors car you make that corporation bigger. Every time you buy Chevron gas you promote the growth of the Standard Oil Company. You have your choice. You may buy Beacon or Douglas gas. That manufacturer will grow. You may buy Chrysler, Ford, Studebaker or Nash. You choose. Competition gives you your choice. Competition lets you the people decide what you want. Competition is another word for freedom, American liberty. It is what has made America the wonderland of the world.

Competition exists all around us, in the world of nature, between the grasses in our lawn and the trees in our forest, between the wild animal life for survival, yes, and even among birds, for life itself.

In the internal struggle for the control of our government there is the keenest competition. Your students can see this. Political competition is the only way to give the people their choice. Again competition is another word for freedom for the people.

Our Constitution guarantees no results. It is primarily a rules of the game, a means of fairly determining the will of the people. Our Constitution will not work itself. We can no more have liberty and peace without effort than we can have bread without toil and labor. Our Constitution is entirely in the language of opportunity, a chance for the ambitious to achieve for the people of America.

The Constitution substitutes ballots for bullets in our internal competition for power. But is there no competition to get the ballots? We hope that argument and cool judgment are becoming more universal than prejudice and emotion. That is civilization and progress. Still competition for position and leadership is undeniably keen. Our students should prepare to and expect to face it. Yes, there is always in America that other place on the ballot, the other name or a place for one, but not in Russia, that's the difference. Again competition is another word for freedom.

We live in a competitive world for survival, survival of nation, survival of political parties, survival of public officials as officials, survival of customs and ways of life, survival of industries and businesses. You the people are the judge. You decide.

Our students should receive a clear explanation of these realities. They should not spend their formative years in a false and misleading school of uniformity and play. They should be prepared for life and allowed to learn to strive to excel and achieve.

Of course, our government limits competition in certain restricted fields, such as the Post Office and public utilities. However, competition in service remains between companies and districts, and between officials.

Probably you have observed the means we use to support and preserve the Constitution which is the source of our freedom. More than a hundred times the military power, the Army and Navy, has been called on to uphold and enforce the Constitution of the United States. It is given effect by force, to those who do not willingly cherish it. Force is a word we dislike. It is a word we try to get away from. By our Constitution we have achieved a means of popular control of the force of government. The power of public office is wielded by our officials at their peril. If the people are not pleased with their official acts out they go and others go in. Popular control of the force of government is the fruit of our Constitution.

What I am trying to express is that our system of government leaves the people the right to choose officials and policies and eliminates any cause for civil war. It is a wise and humane substitute for civil war, for the sanguinary struggles that curse some other lands. Our Constitution is the greatest peace document ever written by man.

Under it, all the good things of life are obtainable by those who excel in winning popular acceptance of their service, whether it be in business, in political life or in artistic skill. Competition is real but we do not tread under those that are less successful. We have a thousand humane laws for the benefit of the unfortunate or handicapped. These are made possible by the success and skills of the successful.

We tax the successful, to make possible the services to the less fortunate. Patrick Henry protested with incomparable eloquence against taxation without representation but I wonder how he would describe our modern taxation with representation. In no other continent could Henry Ford have succeeded. In no other continent did enough people have money to buy a Ford car. America is 90 percent all right and the other 10 percent is under construction.

It is a great joy to serve the American people. They are so generous toward each other, so patient and sympathetic with the erring. They only ask fairness, they only condemn the vicious and destructive. Oh, there are exceptions but who wants to look at the hole in a doughnut. The doughnut is so much bigger.

Many a graduate of your colleges has worn the military uniform of our Nation with honor and distinction. Many more will do so in the future with equal or greater honor. But today I come to bid you join in preparing youth for meeting a greater need of our Country, service in peace, unselfish service in faithful peacetime understanding and loyalty, sacrificial of time, of leisure, of comfort, and of pleasure.

If the time ever comes that the men and women of America, and the youth also, will not freely give of their time and talent in peaceful governmental activity and spreading the knowledge of economic and political freedom, all may be lost. Each new generation must be persuaded to keep America free, or America as we know it will perish. Armies and navies on the sea and in the air are powerless to preserve freedom if it is lost in the hearts at home.

Liberty is an achievement. It is not the natural state of man on this earth. It took long centuries of the continued sacrifice of blood and life by our bravest and best youth to establish the principles of human rights and freedom. But like a great and magnificent temple or capitol that has taken a score or more of years to build, freedom can be destroyed in a moment's explosion of popular upheaval led by crafty schemers in organized groups that seek dictatorial power in times of national confusion or weakness.

Liberty once lost can only be regained by sacrificial toil of rebuilding, brick by brick, and column by column. Both in statute and ordinance must it be rebuilt in the hearts of the people at a renewed cost of patriotic sacrifice.

It is not only by sudden political coups that our institutions may fall, but as with any great building, by lack of care of its structure and neglect of careful preservation of its foundations. If we fail to serve our political institutions faithfully and voluntarily in peace as in war, they will decay and fall.

We cannot win the new ideological war with the old weapons of rifle and cannon. This is the greatest scrap in history. Your place is in the lineup on the field of battle. Each new generation must be taught the priceless value of freedom. Not all Americans agree with me on this, but at least they should get out of the wrong rooting section, and maybe root for the home team a little.

Military power alone is no longer able to preserve a nation and its institutions. There is a greater power in the world of men than blazing cannons, falling bombs and roaring tanks. It is ideas. Ideas master populations; populations select and control national leaders. National leaders command armies and navies of the sea and in the air. Of what avail is storming a bloody battlefield if at home the cause of liberty is lost in the hearts of the people?

Liberty once lost is rarely regained. When the gates of Rome were opened and the invader came in, it was 1500 years of oppression and exploitation, 15 long centuries before a measure of freedom again came to the Italian people.

In the last 35 years a new type of total war has been loosed on the world, a propaganda of deceit. It attacks the America we love, the American institutions our forefathers died to build, at their basic foundation in the hearts of our people.

Lenin was a socialist, and as a socialist he came to power. To enforce his socialism on an unwilling people, he had to seek and to rely on a Stalin with secret police. Benito Mussolini was a socialist and as a socialist came to power. To enforce his socialism on an unwilling people he had to drench his native land with the blood of its sons and daughters by means of a secret police. Adolph Hitler was a socialist. As a national socialist he came to power.

To enforce his socialism on an unwilling people he organized a secret police on a gigantic scale with prisons and mass execution centers equalled only by those in Russia today.

This total war of ideas, of propaganda, knows no frontiers such as are lined with guards and forts. The bombs come by mail and the spoken word. You, the custodians

of the education of our youth are the innermost line of defense. If you let the enemy through, all is lost. Liberty and freedom flourish but once in the history of any nation or people.

One hundred eighteen years ago Daniel Webster delivered his matchless eulogy of President Washington. I want to quote his closing words so full of meaning to us today.

"It were but a trifle even if the walls of yonder capitol were to crumble, if its lofty pillars should fall, and its gorgeous decorations be all covered by the dust of the valley. All these may be rebuilt. But who shall reconstruct the fabric of demolished government? Who shall rear again the well proportioned columns of constitutional liberty? Who shall frame together the skillful architecture which unites national sovereignty with state rights, individual security, and public prosperity? No, if these columns fall, they will be raised not again. Like the Coliseum and the Parthenon, they will be destined to a mournful and melancholy immortality. Bitterer tears, however, will flow over them than were ever shed over the monuments of Rome or Grecian art; for they will be the monuments of a more glorious edifice than Greece or Rome ever saw, the edifice of constitutional American liberty."

In addition to my hatred of the hideous and loathsome secret police methods of all the dictatorships of recent years, I challenge their basic concept of state control of individual property. I challenge socialism as a fundamental error and denial of basic liberty dearest to the heart of men. Deep down in every normal, sane man's heart is the desire to have a few possessions, a home, comforts, security in the possession of these comforts, a family of loved ones and their security. This is what the architects of our Nation meant by the right of pursuit of happiness. Basically all socialism and communism denies this elemental desire of the normal human heart for the right to make himself and his loved ones comfortable and happy in their own right, by their own labor, endeavor and thrift to accumulate their own possessions to enjoy and retain in their own control. I plead for the freedom of citizens to choose the economic methods best suited to their needs, subject of course to law and honesty.

Whenever this basic liberty is denied, human endeavor withers for lack of the life-blood of personal incentive and all progress dies. I challenge you to produce a textbook today that tells the whole truth about this mighty ideological conflict we are engaged in today. This truth should be earnestly presented to our youth so that they may be adequately informed to face intelligently the great decisions they will have to make in the solitude of their own minds.

Americans, young and old, are examining their opinions and their ideology of government. Particularly, young Americans are choosing their leaders. Their choice is not between Russian communists and American supporters of constitutional liberty. No, not at all. The choice is between American supporters of our constitutional methods on one hand, and on the other side, other Americans who offer peace and plenty but conspire to seize power by force. These other Americans study the same textbooks and are under the same discipline as the communist puppet rulers of Korea, of China, of Poland, and would commit the same horrible crimes in this Country if they succeed in seizing control and overthrowing our present government.

You should know that activity for the infiltration of our educational institutions and all of the strategy for the capture of youth in this and other countries, flows from a closely guarded document called Programme of the Young Communist International. This Programme was adopted by the Fifth World Congress of the Young Communist International and was confirmed by the Presidium of the Executive Committee of the Communist International on March 13, 1929. In this basic document are embodied statements from Marx, Liebknecht, Lenin and other leaders.

On page nine of this document appears a statement that demonstrates the iron chain that binds the two Internationals together: "The Executive Committee of the Young Communist International is organizationally connected with the Third International, and works in close harmony with it." Each Young Communist League is under the disciplinary control of the Young Communist International—despite the fact that there have been many changes of name and ostensible liquidations of the Comintern and the Young Communist International.

The Young Communist League is described on page 11 as "a school of communism" which must "aim at drawing into its ranks the broad masses of the toiling youth, so as to be able to fulfill its task of an educational organization." (Id., p. 12.)

On page 37 the Programme states that: "The concrete tasks of the Young Communist League in the work of the Parties consist in tireless agitation for the fighting aims of the Communist International, in supporting the Communist Party in its daily work and struggles, in participation in all revolutionary activities of the proletariat. * * *" On page 40 it is pointed out that every Young Communist League must operate under the direction of the adult Party Leaders—so that it operates as an integral part of the apparatus. In other words, from the above it is plain that the supreme authority is the Communist International (now the Cominform); that the Young Communist International is subservient to it; that each Young Communist League is subservient to the Young Communist International, and functions under the direct supervision of the Communist Party of the country in which it exists. That physical

set-up has never changed, and works today on the new organization precisely as it did on the old American Young Communist League.

Several pages of the Programme are devoted to the paramount duty of the young communist organization to recruit additional members into its ranks and thence into the Party itself. Space doesn't allow me to cite all of this material, but it may be epitomized with the quote from page 58: "The Young Communist League carries on in the first place the political education of its membership and of the broad masses of the young proletarians * * * it spreads among them the propaganda of socialism and Communism."

Stalin's attitude toward the recruiting of youth to Communism is found in another rare document, "The Tasks of Youth," in which he declared: "Briefly speaking, the task of the Young Communist League in this sphere is to educate our worker and peasant youth in the spirit of Leninism," (p. 5) of "training the youth in a spirit of confidence in the leadership of the Russian Communist Party;" (p. 6) and that "as far as possible, all young workers and the best elements among the poor peasants and the middle peasants must be enlisted in the Young Communist League," (p. 7). Stalin makes it crystal clear that he is referring to young Communists in all countries—not only in the U. S. S. R.

Now, with the two basic documents in mind, we see the directives therein contained being echoed by party publications in this County. In *The Communist* for May, 1937, there appeared an article by Richard Frank entitled "The Schools and the Peoples Front." He says, in part: " * * * The task of the student communist groups must be to coordinate and stimulate to activity all existing student groups. To the best of their ability, they must supplement the curriculum with Marxist-Leninist education." He continues: " * * * While teachers are part of the working class, their function differs vastly from that of the industrial worker. Communist teachers cannot afford to ignore this fact—that they come into contact with the children of the masses, that they are responsible for training these children, and this will be true to a much greater extent in a socialist society than now."

The magazine *The Communist* under its new name, *Political Affairs*, October, 1947, carried on these basic concepts for the infiltration, indoctrination and recruiting of youth: "The most powerful reaction in our country is avidly striving to capture and use the youth for its own profit-hungry, warmongering purposes. Therefore, if labor and the progressive forces (communist language always understood by them to designate the organized and disciplined party members) want the youth, they must fight for them. The question of who will win the Battle for the Youth now going on in our Country is one of the most decisive political issues that the American people have to confront." *Political Affairs* says a battle is going on to win the youth.

To recapitulate: the object of recruiting the youth of all countries to communism originated long before the revolution of 1917, and when the Comintern was created in 1919 one of its most potent subdivisions was the Young Communist International. Its prime purpose, as stated above, was the penetration of the youth and the winning of them to Marxism. That has always been a basic objective, of course—and now that the Party has lost most of its unstable membership, the effort to recruit students has been accelerated.

This ideological war will not go on forever. There will come an hour of decision. One side or the other will win the victory. The minds of all mankind are the stakes at issue, freedom or world-wide slavery physical and mental.

In the hands of the people is lodged the supreme power to preserve or to neglect. Along with power also goes the work and worry of responsibility. This responsibility must be borne by human shoulders, cost what it may in sacrifice and effort. It has been well said that eternal vigilance is the price of liberty and it might have been added continual effort and service.

We must have citizens; we must have officials; we must have popular leaders willing to make the sacrifices of both time and ease, willing to give up their pleasures and comforts to continually defend our institutions and to aggressively champion in the market place of public opinion our American ideals.

There must be a continuous process of public education by public leaders, unselfishly given, to persuade each new generation of citizens to keep America free, and strong.

Of course, if the time comes that American men will no longer willingly die to defend the Constitution, it will fall. It is equally true that if the time comes that American men and women will no longer give of their lives, their substance and their time to defend and serve the Constitution in peace, it will be ignored and overthrown.

There must always be an adequate number of citizens willing to accept the obligations, the responsibilities and the hardships of public office to make our government work. These must be men and women above the base motives of the spoilsman, who cannot be intimidated by organized self-seekers nor corrupted by stealthy manipulators.

This neglect of duty has led to the breakdown of government in many countries. The indolent Italian citizen, rather than face the criticism and strife of public life, was willing to accept a "leader." In the cruel service of that leader, the peace-loving Italian gave a thousand times the labor that maintenance of his free constitutional

government would have required of him. In addition, he paid in pools of the blood of his sons and unchecked tears of his family.

And what shall I say of the Germans who neglected to keep their constitutional republic and voluntarily chose a Fuhrer. In exchange for their freedom they got poverty, destruction of homes and loss of livelihood, wounds without number, death and a national and racial condemnation and dishonor on the unchangeable pages of history. All because they would not accept the petty duties and responsibilities of free government. Freedom will not work itself. It is but an opportunity. We must grasp it and use it or become slaves.

There are potential Hitlers, Stalins, and Mussolinis in every country. I ask you seriously today where is there an adequate and forceful textbook to teach our youth the rights and privileges of American citizenship in comparison to the rights and privileges of citizenship under other forms of government? Loyal teachers are working without tools. In our law schools the subject of larceny is taught, but they do not get thieves to teach it. In our schools we must aggressively teach the evils of totalitarian forms of government. We must aggressively teach the perils of Communism, but we need not, we must not have communists teach it, anymore than we would have criminals teach in our law schools.

The thing to be afraid of today in America is that we do not give an effective testimony to our youth of the value of American institutions and what they cost in the history of our race.

We should be afraid that communist and socialist material and propaganda is not matched, answered and exposed. If it isn't, our way of life here in the wonderland of the world will go by default, through a series of persistent half-truths and outright lies against the American institutions we hold dear.

I like a little poem I came across the other day, the author being unknown.

I passed a gleaming mirror
A-shining in the sun:
'Twas but a wayside puddle
For dainty feet to shun.
But that small sheet of water
Was deep as clouds are high,
For in its glinting surface
Was seen God's vast blue sky.

I wish that I might be assured
That people passing me
Could overlook my littleness
And something greater see;
That my small life, with all its faults,
Could be a faithful guide to youth
And to the passer-by reflect,
The Sunshine of eternal truth.

The problem of providing a simplified method of clearing real property of the lien of the inheritance tax upon the death of one joint tenant has caused considerable discussion in recent months. It is recognized that when no inheritance tax is actually due it is not consonant with sound public policy to require surviving joint tenants or other persons in comparable situations to undertake expensive or cumbersome proceedings to clear their property of a potential inheritance tax lien. This act provides a simplified procedure for clearing property of the lien of the inheritance tax in such cases, which procedure may be followed at any place within the State without excessive cost or inconvenience. This act will be particularly beneficial to widows who are left with relatively scant means and who need all of such means in order to support themselves in good health. In order that the benefits of this act may be extended to those affected by it as soon as possible it is necessary that this act take immediate effect."

COMMUNICATIONS

The following communications were received and read, and on motion of Senator Hatfield, ordered printed in the Journal:

Letter of Transmittal

LAW OFFICES OF NORTHCUTT ELY
TOWER BUILDING, WASHINGTON 5, D. C., March 6, 1952

*Mr. A. D. Edmonston, State Engineer,
Department of Public Works,
Sacramento 5, California*

DEAR MR. EDMONSTON: George Wilson of Senator Knowland's office just phoned to tell us that the *Federal Register* for today, March 6th, at page 1975, contains Bureau of Reclamation first form withdrawals on the Solano project, Trinity River project and Feather River project.

A 30-day period is fixed for filing of objections.

We will obtain copies of these withdrawals and forward them to you.

As you know, the Secretary of the Interior is now appealing to the Ninth Circuit Court of Appeals from the Federal Power Commission decision granting licenses in the Kings River case, on the ground that the existence of first form reclamation withdrawals deprives the Power Commission of jurisdiction to issue licenses. For that reason, these withdrawals might be of particular importance to the State, particularly on the Feather River, where you have just filed an application for Federal Power Commission license.

You might give some consideration as to whether the State may wish to file an amicus curiae brief in the Ninth Circuit Court of Appeals case, in view of this situation.

With kindest regards, faithfully yours,

NORTHCUTT ELY

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF RECLAMATION, REGIONAL OFFICE, REGION 2
SACRAMENTO, CALIFORNIA, March 26, 1952

*Mr. A. D. Edmonston
Executive Officer, Water Project Authority
Public Works Building, 1120 N Street, Sacramento, California*

DEAR MR. EDMONSTON: I am gravely concerned by what seems to be a growing public misunderstanding concerning certain recent withdrawals of public land in California for reclamation purposes. I understand that these withdrawals were considered by the Water Project Authority in its meeting of yesterday, with particular reference to the public lands in the Feather River area and the relation of their withdrawal to the State's proposed Feather River Project. I also have noted Senate Concurrent Resolutions Nos. 2 and 5 and Senate Joint Resolution No. 3, which would protest these administrative actions.

I should consider it most appropriate that, in keeping with the resolution which I am informed the Authority adopted yesterday, the State of California present its views with respect to these withdrawals, whether by way of objection or otherwise, to the Secretary of the Interior within the 30-day period provided in the notice in the *Federal Register*. I should like, however, that the true history, effect, and significance of the withdrawals be clearly understood.

It first should be emphasized that all of the lands involved in the withdrawal orders are lands owned by the Federal Government. It should be obvious that an agency of the Federal Government cannot "withdraw" lands which are in private or State ownership. The Congress has authorized both the President and the Secretary of the Interior to withdraw public lands for various purposes. For example, section 1 of the act of June 25, 1910 (36 Stat. 847, 43 U.S.C. S 141), provides:

"That the President may, at any time in his discretion, temporarily withdraw from settlement, location, sale, or entry any of the public lands of the United States including the District of Alaska and reserve the same for water-power sites, irrigation, classification of lands, or other public purposes to be specified in the orders of withdrawals, and such withdrawals or reservations shall remain in force until revoked by him or by an Act of Congress."

Section 3 of the Reclamation Act of 1902 (32 Stat. 388) authorizes the Secretary of the Interior to withdraw from entry public lands which may be used for reclamation purposes. The statute does not contemplate that congressional authorization of the construction of a project be a condition precedent to the exercise of this authority, and throughout the history of reclamation it has been the practice to withdraw government land in anticipation of their need for construction purposes, thereby reserving them for a public use and preserving them against the acquisition of private rights which would be inconsistent with that public use. Certainly a public official would be remiss in meeting the responsibility of his public trust if he failed to protect public property for public development.

Such withdrawals can in no way interfere, however, with any private rights which already have vested. The statement in the 11th "whereas" clause in Senate Resolutions 3 and 5, to the effect that "first form reclamation withdrawals are now in conflict with such permits issued by the State for beneficial use of its water resources * * *", therefore is flatly incorrect as a matter of fact and as a matter of law.

It is unfortunate that the recent withdrawal of federal lands in the Feather River area should be interpreted as a gesture of federal hostility toward state development. The fact is that the preliminary steps looking toward this particular withdrawal were initiated in September 1949, as a part of an authorized investigation of the resources of the Feather River. Moreover, some 6,500 acres of land in the area covered by the State's recent application to the Federal Power Commission for a license already had been withdrawn between 1909 and 1932 for water power development, some by the President and some by the Secretary of the Interior.

Of the approximately 49,000 acres involved in the 1952 withdrawal order, approximately 39,000 acres already were a part of the Plumas National Forest, which was created in 1905 and which is a "reservation" within the express language of section 3(2) of the Federal Power Act. Furthermore, of the 49,000 acres, only 11,700 acres lie within the area covered by the State's application to the Federal Power Commission.

The State's application reveals that it would require the acquisition of 28,232 acres of land now in private ownership. It also would involve the use of 9,463 acres of federal land, lying both within and without the boundaries of the Plumas National Forest. To the extent that the latter area coincides with the area already withdrawn from entry by the President and the Secretary of the Interior, the State's application thus may enjoy this area's historical protection from private exploitation and the State may be relieved of the necessity of its purchase from private owners, as in the case of the other 28,232 acres involved in its application.

The 1952 Feather River area withdrawal of federal lands thus is neither an instance of a head-on collision between state jurisdiction and federal jurisdiction or a conflict between state planning and federal planning, nor can it with any degree of fairness be impugned as a federal "grab" of state or private resources. It rather is a congressionally-authorized exercise of administrative authority over public property in the interest of the sound conservation and development of our natural resources to the end that more water may be brought to California land and more power may be brought to California homes.

Whether such development should or will be undertaken by the Federal Government or the State of California is not within the scope of this discussion. In either case the same California citizens would be the immediate beneficiaries of the development.

I do not yet know what position, if any, the Secretary of the Interior may conclude that the Department of the Interior should take with respect to the State's application to the Federal Power Commission for a license. But whatever that decision may be it will involve a consideration of all factors and it need in no event depend on the latest withdrawal, particularly in view of those which already had been made by the President and the Secretary of the Interior between 1909 and 1932.

The principal purpose of this letter therefore is to assure you that the 1952 withdrawal of federal lands in the Feather River area is not in and of itself to be construed as reflecting a conclusion that the Bureau of Reclamation or the Department of the Interior are thereby recording opposition to the State's authorized Feather River Project.

Sincerely yours,

RICHARD L. BOKE, Regional Director

If the terms and conditions of any bonds that are outstanding on the effective date of this section and that are payable from such tolls are such as to require that the cost of physical maintenance of the toll bridge shall be paid from sources other than tolls and revenues from the use and operation of the toll bridge, the cost of such maintenance shall be paid by the department out of funds available to it for the maintenance of state highways until such bonds are refunded or retired or until payment of the cost of maintenance out of tolls and revenues from the toll bridge is authorized in the manner provided in the proceedings authorizing the issuance of such bonds. The moneys so repaid shall be credited to the money available for construction of state highways in County Group No. 1 as specified in Section 187.

Whenever, after the effective date of this section, any bonds secured by a pledge of the tolls and revenues of the toll bridge are refunded or retired, in the total then outstanding, the California Toll Bridge Authority shall include in the proceedings for any new issue of bonds for such purpose bonds in an amount fully sufficient to repay to the State Highway Fund the amount provided by this section.

On page 2 of said bill, strike out line 49; and on page 3, strike out lines 1 to 10, inclusive, and insert "shall be paid by the department from the tolls and revenues received from the use and operation of the toll bridge and additional crossing, except as follows:

If the terms and conditions of any bonds that are outstanding on the effective date of this section and that are payable from such tolls are such as to require that the cost of physical maintenance of the toll bridge shall be paid from sources other than tolls and revenues from the use and operation of the toll bridge, the cost of such maintenance shall be paid by the department out of funds available to it for the maintenance of state highways until such bonds are refunded or retired or until payment of the cost of maintenance out of tolls and revenues from the toll bridge is authorized in the

manner provided in the proceedings authorizing the issuance of such bonds. The State Highway Fund shall be reimbursed by the authority for all amounts so expended with interest thereon at the rate of one and one-half percent ($1\frac{1}{2}\%$) per annum to be computed on the total amount expended during any one year.

Whenever after the effective date of this section any bonds secured by pledge of the tolls and revenues of the toll bridge are refunded or retired, in the total then outstanding, the authority shall include in the proceedings for any new issue of bonds for such purpose bonds in a sufficient amount to repay to the State Highway Fund the amount provided by this section. If the amount is not repaid from the proceeds from the sale of bonds and all revenue bonds secured by revenues on the toll bridge are fully retired, and all other obligations secured by revenues of the toll bridge, whether by means of bond issue or other provisions of law have been fully paid, then such repayment shall be made from the tolls and revenues of the toll bridge, and the authority and the department shall fix and collect tolls on the toll bridge at a rate sufficient to include provision for such repayment until the amount required to be paid into the State Highway Fund by this section has been paid thereto.

(b) There shall be repaid into the State Highway Fund the sum of eleven million five hundred thousand dollars (\$11,500,000) by the California Toll Bridge Authority to reimburse that fund for moneys heretofore expended therefrom for maintenance, operation and insurance of the toll bridge. In addition there shall be repaid into the State Highway Fund an amount equal to all expenditures therefrom for maintenance of the toll bridge for the period commencing February 1, 1952, to the effective date of this section, which amount shall be determined by the department and the authority. The moneys so repaid shall be credited to the money available for construction of state highways in County Group No. 1 as specified in Section 187.

Whenever, after the effective date of this section, any bonds secured by a pledge of the tolls and revenues of the toll bridge are refunded or retired, in the total then outstanding, the California Toll Bridge Authority shall include in the proceedings for any new issue of bonds for such purpose bonds in an amount fully sufficient to repay to the State Highway Fund the amount provided by this section.

If the amount provided to be repaid to the State Highway Fund by this section is not repaid from the proceeds of the sale of bonds, then, after all revenue bonds issued and sold by the California Toll Bridge Authority in the sum of twenty one million dollars (\$21,000,000) and designated as "San Francisco-Oakland Bay Bridge 1951 Refunding and Improvement Toll Bridge Revenue Bonds, Series A" have been fully redeemed and paid, the authority and the department shall fix and collect tolls on the toll bridge at a rate sufficient to include provision for such repayment until the amount required to be paid into the State Highway Fund by this section has been collected to make such payment."

Until the adoption of Joint Rules at this session, the Joint Rules of the last preceding regular session are incorporated herein and made applicable to this committee and its members.

5. The committee has the following additional powers and duties:

(a) To select a vice chairman from its membership.

RESOLUTIONS

The following resolution was offered:

By Senators O'Gara, Miller, and Ward:

Senate Resolution No. 19

Relative to Lloyd's reinsurance

WHEREAS, The Insurance Commissioner of the State of California in the reasonable exercise of the discretion vested in him by subdivision (b) of Section 922.5 of the Insurance Code has allowed in the past credits claimed by ceding insurers in their financial statements on account of reinsurance in Lloyd's, London; and

WHEREAS, The Insurance Commissioner in his Bulletin 128, dated March 24, 1952, has indicated that he is abandoning his former policy in view of the position taken by the National Association of Insurance Commissioners in December, 1951, that reinsurance ceded to Lloyd's, London, should be subject to the same standards as other alien reinsurance for the purposes of determining credit in the financial statements of ceding insurers; and

WHEREAS, Bulletin 128 further indicates that the Department of Insurance will no longer consider Lloyd's American Trust Fund as it currently exists a deposit of "sufficient assets in the United States for the protection of policy holders in the United States" within the meaning of subdivision (b) of Section 922.5; and

WHEREAS, In recognition of the fact that Lloyd's of London is the oldest, most respected and possessed of the best loss paying record of any insurance organization in the world and that the Lloyd's American Trust Fund has a current balance of \$249,000,000 many California insurance companies have ceded reinsurance to Lloyd's, London; and

WHEREAS, The policy of the Department of Insurance as expressed by Bulletin 128 will have a disastrous effect on most insurance companies whose head offices are in this State; now, therefore, be it

Resolved by the Senate of the State of California, That the Insurance Commissioner of the State of California is requested to postpone the effective date of his Bulletin 128 to such time in 1953 as will permit the enactment of legislation clarifying the situation with regard to reinsurance with Lloyd's of London; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a copy of this resolution to the Insurance Commissioner.

Motion to Lay on Table

Motion carried.

FURTHER AMENDMENTS TO ASSEMBLY BILL NO. 33

Motion to Amend

Senator Breed moved the adoption of the following amendment:

Amendment No. 1

On page 7 of the printed bill, as amended in Senate April 1, 1952, strike out lines 12 to 15, inclusive, and insert "any other crossings of San Francisco Bay, or approaches leading to such crossings, have been deleted."

Amendment read.

Motion to Substitute Amendments

Senator O'Gara moved that the following amendments be substituted for the amendments offered by Senator Breed.

tolls upon the existing Bay Bridge for the purpose of construction of as many additional crossings of San Francisco Bay as the State may desire.

Opinion

It is our opinion that the proposed amendments might be so construed, although we think it more likely that the result reached would be to require only federal approval of the use of the tolls from the existing bridge in connection with the Southern Crossing as a condition to the construction of such crossing.

Analysis

As amended by the language of the proposed amendment, the pertinent portion of Sec. 30656, which is added to the Streets and Highways Code by Assembly Bill No. 33, would read as follows:

"... except that no construction shall be commenced unless and until *all restrictions* in the federal law imposing limitations upon the right of the State of California or the authority to collect tolls upon the existing San Francisco-Oakland Bay Bridge for the purpose of constructing *one or more additional crossings* of San Francisco Bay, or approaches leading to any of such crossings, have been deleted." (Emphasis added.)

We believe that it is probable that the courts would interpret the section, as amended, as permitting the commencement of construction of the Southern Crossing upon amendment of the federal law to permit the collection of tolls upon the existing Bay Bridge for construction of a Southern Crossing, even though no additional crossings are exempted from the limitations in the federal law. Reading the section as a whole, it appears that the Legislature intended the result which would be reached by this construction. The use of the disjunctive word "or" in the phrase "one or more additional crossings" indicates the intent of the Legislature that the construction of the Southern Crossing may be commenced as soon as the federal law is amended so as to permit the collection of tolls upon the existing Bay Bridge to pay for the construction of *one* additional crossing, whether or not such tolls can be collected for the construction of any other additional crossings.

The question is not free from doubt, however, and we believe that it is possible the courts might construe this section, as amended, as prohibiting the commencement of construction of the Southern Crossing until the federal law is amended so that tolls upon the existing Bay Bridge may be collected for the purpose of construction of as many additional crossings of San Francisco Bay as the State may desire. The words underlined in the portion of Section 30656, quoted above are susceptible of such construction, for if the federal law were amended so as to exempt the use of tolls for the construction of a Southern Crossing *away* from the restrictions, it could be argued that *all restrictions* in the federal law with respect to use of such tolls for construction of *one or more additional crossings* have not been deleted.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

The following amendments were proposed by the Committee on Finance:

Amendment No. 1

In line 3 of the title of the printed measure, strike out "16.5", and insert "17".

Amendment No. 2

In line 5 of the title of said measure, after "State", insert " , providing for the repayment to the General Fund of appropriations made therefrom for state school building aid and prescribing the terms and conditions under which such grants and loans to school districts shall be made and repaid".

Amendment No. 3

On page 1, line 7, strike out "16.5" and insert "17".

Amendment No. 4

On page 1 of said measure, strike out line 9, and insert

"SEC. 17. Bonds of the State of California shall be prepared, issued, and sold in the amount of one hundred twenty million dollars (\$120,000,000), in such denominations, to be numbered, to bear such dates, and to bear such rate of interest as shall be determined by the Legislature.

The proceeds of such bonds shall be used :

(a) Subject to such legislation as the Legislature may, from time to time, enact, to provide loans and grants to school districts of the State for use in purchasing and improving school sites, the purchasing of furniture and equipment for schools, and the planning and constructing, reconstructing, repairing, altering, and making additions to, school buildings. In apportioning funds to school districts, priority shall be given to those school districts where the children will benefit most from additional schoolhouse facilities. This priority shall be based on acuteness of overcrowding, on rapid growth in attendance, on amount of local tax funds expended in providing school buildings, and the time of the district's application.

(b) To be paid to the General Fund a sum equal to the sum for which the Controller has drawn his warrants in accordance with the terms of final apportionments made prior to January 1, 1953, pursuant to an act entitled "An act to add Article 3 to Chapter 18, Division 3 of the Education Code, relating to state school building aid, and making an appropriation therefor," to be repaid from the first proceeds of the bonds issued pursuant to this section.

(c) To pay the expenses that may be incurred in preparing, advertising, issuing, and selling the bonds, and in administering and directing the expenditure of the moneys realized from the sale of such bonds.

The issuing, signing, countersigning, endorsing, and selling of the bonds herein provided for, and the interest coupons thereon, the place and method of payment of principal and interest thereon, the procedure for initiating, advertising and holding sales thereof, and the performance by the several state boards and state officers of their respective duties in connection therewith; and all other provisions, terms, and conditions relating to the bonds, shall be as provided by the Legislature.

The Legislature shall pass all laws, general or special, necessary or convenient to carry into effect the provisions of this section. No money received from the sale of bonds pursuant to this section shall be allocated to any school district until legislation providing for such allocation of the proceeds of the bonds herein authorized is enacted. Such laws may provide for the allocation of funds to school districts pursuant to this section by the State Allocations Board or a similar agency, and in that event, notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with such board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending before such board.

From the proceeds of bonds sold pursuant to this section, twenty-five million dollars (\$25,000,000) shall be made available for apportionment to school districts on May 5, 1953, or shall have been apportioned to school districts under an act entitled "An act to add Article 3 to Chapter 18, Division 3 of the Education Code, relating to state school building aid, and making an appropriation therefor," and five million dollars (\$5,000,000) shall be made available on June 5, 1953, and on the fifth day of each month thereafter to and including December 5, 1954.

Before any school district receives any apportionment from the money realized from the sale of the bonds, a two-thirds majority of the qualified electors of the school district, voting thereon, shall authorize the governing board thereof to repay upon the amount apportioned an amount which would have been raised during the fiscal year preceding the year in which repayment is made by a tax of thirty cents (\$.30) on each one hundred dollars (\$100) of assessed valuation within the district each year until the principal of the amount apportioned, and the interest thereon as determined by the Legislature, is repaid, but not to exceed 30 years. The Legislature may provide that in determining the amount of yearly repayment, a school district may receive a credit

for a portion of the yearly amount the school district is required to pay on the principal and interest of that portion of its bonded indebtedness incurred prior to or as a requirement for the making of the apportionment.

The amount required to be repaid annually by a unified school district or by a high school district which maintains a junior college shall be determined separately for each type of school included in the district, so that for the purposes of this section the elementary schools, high schools, or junior colleges comprising a unified district or a high school district which maintains a junior college shall be considered as separate districts, and if more than one apportionment is made to a type of school included in such a unified school district or a high school district which maintains a junior college, the annual repayment of such district for such type of school shall not exceed the amount which would have been repaid by the district for one apportionment to such type of school. If more than one apportionment is made to a school district which is not a unified school district nor a high school district which maintains a junior college the amount of annual repayment by such district shall not exceed the amount which would have been repaid by the district for one apportionment to the district.

The people of the State of California in adopting this section hereby declare that it is in the interests of the State and of the people thereof for the State to aid school districts of the State in providing necessary school sites and buildings for the pupils of the Public School System, such system being a matter of general concern inasmuch as the education of the children of the State is an obligation and function of the State."

Amendment No. 5

On page 1 of said measure, strike out lines 10 to 21, inclusive; and strike out all of page 2.

Amendments read, and adopted.

Resolution ordered printed, and to third reading.

CONSIDERATION OF SENATE RESOLUTION NO. 19

Senate Resolution No. 19

Relative to Lloyd's reinsurance

WHEREAS, The Insurance Commissioner of the State of California in the reasonable exercise of the discretion vested in him by subdivision (b) of Section 922.5 of the Insurance Code has allowed in the past credits claimed by ceding insurers in their financial statements on account of reinsurance in Lloyd's, London; and

WHEREAS, The Insurance Commissioner in his Bulletin 128, dated March 24, 1952, has indicated that he is abandoning his former policy in view of the position taken by the National Association of Insurance Commissioners in December, 1951, that reinsurance ceded to Lloyd's, London, should be subject to the same standards as other alien reinsurance for the purposes of determining credit in the financial statements of ceding insurers; and

WHEREAS, Bulletin 128 further indicates that the Department of Insurance will no longer consider Lloyd's American Trust Fund as it currently exists a deposit of "sufficient assets in the United States for the protection of policy holders in the United States" within the meaning of subdivision (b) of Section 922.5; and

WHEREAS, In recognition of the fact that Lloyd's of London is the oldest, most respected and possessed of the best loss-paying record of any insurance organization in the world and that the Lloyd's American Trust Fund has a current balance of \$249,000,000 many California insurance companies have ceded reinsurance to Lloyd's, London; and

WHEREAS, The policy of the Department of Insurance as expressed by Bulletin 128 will have a disastrous effect on most insurance companies whose head offices are in this State; now, therefore, be it

Resolved by the Senate of the State of California, That the Insurance Commissioner of the State of California is requested to postpone the effective date of his Bulletin 128 to such time in 1953 as will permit the enactment of legislation clarifying the situation with regard to reinsurance with Lloyd's of London; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a copy of this resolution to the Insurance Commissioner.

Resolution read, and adopted on motion of Senator O'Gara.

CONSIDERATION OF SENATE RESOLUTION NO. 17

Senate Resolution No. 17

Relative to effecting adequate information to California suppliers and declaring a public policy thereon

WHEREAS, Senate Concurrent Resolution No. 94 of the 1951 General Session declared the public policy of the State of California to encourage and assist California industry and labor in the production and sale of articles, including buildings, fixtures, equipment and supplies which are fabricated and assembled in this State and declared that the State should draft specifications and calls for bids in such a manner as to enable California manufacturers to compete on as nearly equal a footing as practicable with manufacturers and suppliers in other states; and

WHEREAS, Said Concurrent Resolution No. 94 requested the Director of Finance, the State Purchasing Agent, the State Architect, and the Director of Public Works to conduct an investigation as to the best means of implementing the above-mentioned public policy; and

WHEREAS, Senate Resolution No. 206 of the 1951 General Session reiterated in all material respects the declaration of public policy set forth above and requested the same state officials to conduct the investigation and study mentioned above; and

WHEREAS, The aforementioned resolutions requested the state officials therein named to make a written report to the Governor, the Senate, and the Legislature on or before February 1, 1952; and

WHEREAS, Interested parties representing both labor and management within this State do not believe that the matter has been thoroughly and properly studied and do believe that further study is necessary; and

WHEREAS, Such further study should include a close study of the instructions issued by the State Architect and an investigation as to whether or not these instructions are being carried out; now, therefore, be it

Resolved by the Senate of the State of California. That the Director of Finance, the State Purchasing Agent, the State Architect, and the Director of Public Works are requested to continue the investigation which they were requested to undertake in said Senate Concurrent Resolution No. 94 and said Senate Resolution No. 206 of the 1951 General Session, and to continue to meet with interested groups in accordance with said resolutions in order that means may be devised to fully and completely effectuate the state public policies referred to therein; and be it further

Resolved, That said state officials are hereby requested to make a written report on or before February 1, 1953, to the Governor and the Senate covering the matters specified in said Senate Concurrent Resolution No. 94 and said Senate Resolution No. 206 of the 1951 General Session; and be it further

RESOLUTIONS

The following resolution was offered:

By Senator Weybret:

Senate Resolution No. 23

Relative to federal participation in the cost of independent audit of joint public assistance programs

WHEREAS, Audit of public assistance programs should be independent of the agency expending or administering the expenditures under such programs, in order to result in proper efficiency and economy, control of expenditures, and consequent savings of state, federal and county money; and

WHEREAS, The Federal Government fully recognizes this principle but under existing regulations does not participate in its proper share of the cost of independent audit of public assistance programs; and

WHEREAS, In consequence, the audit program of expenditure by the counties of this State of federal, state, and county funds for old age assistance, aid to needy children, and aid to the needy blind has since March 1, 1950, been conducted largely by the State Department of Social Welfare which administers the program, with only limited funds available for participation by the State Controller, who, under the Constitution and laws of this State, is the independent auditor of expenditures; and

WHEREAS, Independent audit would result in greater efficiency and economy, closer control of expenditures for such aids, and in consequent savings of state, federal and county money; and to that end the Legislature at the 1952 Regular Session has effected transfer of the fiscal portion of such audit to the State Controller; now, therefore, be it

Resolved by the Senate of the State of California. That the Senate of the State of California respectfully memorializes the President and Congress of the United States and the Federal Security Administrator to take such action as will result in a grant of federal funds to cover a proper share of the cost of auditing joint public assistance programs even when an auditing function is performed by a state agency other than the agency administering the expenditures under such programs; and be it further

Resolved, That the Senators and Representatives from California in the Congress of the United States are urged to meet and jointly take such action in furtherance of the purposes of this resolution as they deem appropriate; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Federal Security Administrator, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTIONS

The following resolutions were offered:

By Senator Tenney:

Senate Resolution No. 22

Congratulating Lieutenant Governor and Mrs. Goodwin J. Knight
on becoming grandparents

WHEREAS, The arrival of a baby daughter, April Christine, to Mr. and Mrs. Robert A. Eaton in St. Johns Hospital, Santa Monica, at 11:30 a.m. today, Wednesday, April 2, 1952, has elevated our presiding officer, the Honorable Goodwin J. Knight to the status of a grandfather; and

WHEREAS, The arrival of this precious granddaughter was the more remarkable not only because she was born in the city which her great-grandfather Edwin Eaton helped form some 65 years ago, but also because neither the baby's father, a graduate law student who was taking the State Bar Examination in Los Angeles, nor her grandfather, who was capably presiding over the deliberations of this body, were able to give the customary assistance of a father or grandfather by pacing the hospital halls; now, therefore, be it

Resolved by the Senate of the State of California, That the heartiest congratulations of every Member of the Senate be extended to Lieutenant Governor and Mrs. Goodwin J. Knight, for their most recent achievement in becoming grandparents, and that best wishes are extended to the proud parents Mr. and Mrs. Robert A. Eaton and their baby daughter; and be it further

Resolved, That the Secretary of the Senate is directed to transmit suitably prepared copies of this resolution to Lieutenant Governor and Mrs. Goodwin J. Knight, and to Mr. and Mrs. Robert A. Eaton.

Resolution read, and on motion of Senator Tenney, adopted.

Senate Resolution No. 25

Relative to the new sailor in the Beek Navy

WHEREAS, The Beeks of Balboa are noted as a family devoted to aquatic sports and proficiency as mariners and navigators of all types of vessels including sailing dinghies, snowbirds, starboats, ferryboats, submarines and trans-oceanic ships; and

WHEREAS, The birth of Charles Frederick Beek has resulted in the attainment of the status of grandfather by Commodore Joseph A. Beek, our esteemed seagoing Secretary of the Senate of the State of California; and

WHEREAS, The arrival of this new recruit to defend the Beek honors as sailors is an event which causes great gratification to Commodore and Mrs. Joseph A. Beek; now, therefore, be it

Resolved by the Senate of the State of California, That Members of this Senate heartily congratulate the Commodore and his wife upon the arrival of their first grandson, and hereby express the hope that this little sailor may follow in the course set by older members of his family, and enjoy a happy and successful life, and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a suitably prepared copy of this resolution to the said Mr. and Mrs. Barton B. Beek.

Resolved, That the Secretary is further directed to supervise the indexing, correcting, comparing and proofreading of the Journal of the Senate and making the information therein contained readily available for use of Members of the Legislature, state officers and the general public, as a permanent record of the business transacted during the 1952 First Extraordinary Session of the Legislature, and to complete the compilation of the Constitution and the book on the California Legislature, and to attend to the distribution thereof, and be it further

When said Final Calendar is prepared, the Secretary is directed to forward one copy to each public library in the State and shall distribute others as by Joint Rule No. 13 provided, and be it further

REQUEST FOR UNANIMOUS CONSENT

Senator O'Gara asked for, and was granted, unanimous consent to have the following explanation of his vote on Assembly Bill No. 33 printed in the Journal:

**EXPLANATION OF VOTE BY SENATOR O'GARA ON
ASSEMBLY BILL NO. 33**

I am voting for this measure with the greatest reluctance. Only the necessity of securing a southern crossing has caused me to support this bill.

The provisions of the bill requiring the toll payers to pay maintenance are most unfair, and, in my opinion, unconstitutional.

Under the provisions of this bill, the toll payer pays the same impost twice; once as tolls and again in the form of a tax on the gasoline that propels his car across the bridge.

Either the San Francisco Bay Bridge is a state highway and you have to use gas tax money to maintain it or it is not a state highway and you have to refund to the commuters the gas tax money which they pay when they buy the gasoline which carries them across the bridge.

On every other bridge in the State Highway System, maintenance is paid for from gas tax money. That includes the Dumbarton and San Mateo bridges and also includes all the toll-free bridges.

The slogan of the sponsors of this bill is that the bridge motorists shall pay millions for gas tax and not receive one cent of maintenance for that tax.

These provisions violate every principle of fair taxation and good government.

I shall strive at the next legislative session to remedy the inequities with regard to maintenance.

GERALD J. O'GARA

IN JOINT CONVENTION

Hon. Sam L. Collins, Speaker of the Assembly, presiding.

Chief Clerk Arthur A. Ohnimus at the desk.

SENATE ROLL CALL

Hon. Goodwin J. Knight, President of the Senate, directed the Secretary of the Senate to call the roll of Senators.

The roll was called, and the following answered to their names:

Senators Abshire, Brown, Burns, Busch, Byrne, Collier, Coombs, James E. Cunningham, Roy Cunningham, Desmond, Dillinger, Dilworth, Donnelly, Dorsey, Erhart, Gibson, Hatfield, Hoffman, Hulse, Ed. C. Johnson, Harold T. Johnson, Judah, Kraft, Mayo, McBride, McCarthy, Miller, O'Gara, Parkman, Powers, Regan, Sutton, Tenney, Thompson, Ward, Watson, Way, Weybret, and Williams—39.

of opinion on details could not be resolved. Since then I have talked to many legislators, and have found them almost universally of the opinion that a bond issue should be submitted to the people to relieve the existing critical situation.

Perhaps one of the reasons the Legislature was unable to agree upon a bill in March was that the California School Facilities Survey was not completed until after adjournment of that session. That survey graphically shows the present state-wide school construction needs. Based on costs estimated by the Department of Education the total cost of school plant needs as of October 1, 1952, was found to be as follows:

*Total Cost of Needed School Plant Facilities of California School Districts
Deficit Districts Only*

| | <i>Elementary</i> | <i>Secondary</i> | <i>Total</i> |
|--|----------------------|----------------------|----------------------|
| To relieve overcrowding of March, 1951, and house enrollment increases to October, 1952 ----- | \$184,263,000 | \$42,464,000 | \$226,727,000 |
| To replace unsatisfactory buildings in use March, 1951 ----- | 153,689,000 | 40,187,000 | 193,876,000 |
| To provide general facilities ----- | 75,801,000 | 37,124,000 | 112,925,000 |
| To purchase sites ----- | 14,316,000 | 3,039,000 | 17,355,000 |
| Total ----- | \$428,069,000 | \$122,814,000 | \$550,883,000 |
| Less: | | | |
| Cost of buildings under construction March 1, 1951, or contracted prior to October 1, 1951 ----- | 43,451,000 | 13,289,000 | 56,740,000 |
| Total cost of net plant needs ----- | \$384,618,000 | \$109,525,000 | \$494,143,000 |

Offsetting the total needs shown in this table are financial resources totaling \$249,797,000, leaving a deficit of \$244,346,000.

Bear in mind if you will, that this report is for new buildings to relieve present overcrowding and to replace existing unsatisfactory buildings. I point out to you that this is a backlog of accumulated needs. This backlog requires state assistance in the amount of \$244,346,000. To do even this much would only account for past accumulations and would not begin to look forward to the future at all. All it would do is to bring us up to October 1, 1952, and by the time the bonds are sold, even if they were all sold at once, we would again be developing a backlog.

I feel compelled to interject at this point a comment as to the quality of school building structures in the light of recent experience. You know that in recent years there has been some skepticism expressed here and there about the desirability of replacing unsatisfactory school buildings during a time when the need for additional classrooms is so great. The experience we have had in the last two weeks in connection with earthquakes brings this necessity for replacing unsatisfactory school buildings into sharp focus. It is quite apparent in the damaged area that the schools constructed since the Field Act became law are practically undamaged, while many of those constructed before that time are total losses or suffered severe damage. We have just been advised by the school authorities of Kern County that something like 259 classrooms in the county have been destroyed or rendered unusable and that there certainly would have been many tragic deaths if the quakes had come while schools were in session. Thus we are again fortunate, as we have been several times in the past, in the fact that these severe earthquake shocks came when schools were not in session.

This emphasizes that there should be no delay in replacing buildings that are unsatisfactory because of construction deficiencies.

I call your further attention to the fact that the school population last year increased by 144,000 over the preceding year. Estimates of the Department of Education are to the effect that in the next four years our school population will continue to grow rapidly. These estimates translated into school construction requirements up to 1956 are reported by the survey to be as follows:

*Estimated Cost of School Building Needs and Financial Resources of
685 Districts Found Unable to Meet Needs by 1956*

| | <i>Total</i> |
|---|----------------------|
| Total Cost of Construction Needed ----- | \$501,410,000 |
| Available Resources ----- | 89,085,000 |
| Deficit in Financial Resources ----- | \$412,325,000 |

I know it is unnecessary to impress upon your minds the necessity for providing adequate and safe classrooms for our school children, and of the State's responsibility for assisting those districts that have exhausted their financial resources. The Legislature in recent years has manifested a clear understanding of the problem. You have initiated a program which is undoubtedly more comprehensive than that of any other

state government in the Country. However, the last bond issue has all been allocated. There are no current funds with which to meet the building deficiencies and the growth of our State is such that even slight delays in construction programs build up our needs to great proportions.

In calling the Legislature into session at this time, I am affording an additional opportunity to resolve any differences of opinion you may have on details of the program.

Earthquake Disaster: I have mentioned the recent earthquakes which have called forth the sympathy of the people in every part of our State. The needs of these stricken communities are entitled to our consideration. Already I have received resolutions from the Board of Supervisors of Kern County and the City Councils of Tehachapi and Bakersfield suggesting changes in the assessment date of taxable property and other forms of tax relief for individual taxpayers, as well as assistance in community rehabilitation. I have opened up the call so these needs may be considered.

Revenue Deficiency Reserve: Also, while we are speaking of disasters, I draw your attention to the fact that in the current budget there was an oversight in failing to continue the availability of the Revenue Deficiency Reserve in cases of extreme emergency. Consequently, I have included in the call an item to rectify that error.

Social Welfare: Since adjournment of the budget session, the United States Congress has increased its contributions for old age assistance, aid to the needy blind, and aid to dependent children. I have included in the call a recommendation for the consideration of legislation to pass these increased amounts along to the recipients of old age assistance and aid to the needy blind in keeping with the policy heretofore established by the Legislature. I am advised that additional legislation is not necessary to accomplish the same result for needy children. Inasmuch as the policy of this State has always been to keep the aid to the partially self-supporting blind equal to that of aid to the needy blind, I suggest a comparable increase in the aid to the partially self-supporting blind.

Conclusion: As is invariably the case when a special session of the Legislature is summoned, I have received many requests to include items in the call. Most of them are matters that at one time or another deserve the consideration of the Legislature. However, in an effort to conserve your time and particularly because the Legislature has so recently adjourned, and will again convene in January, I have declined to include these additional subjects. Nevertheless, if both houses of the Legislature should request me to do so, I will open up the session to any item so requested.

In conducting your business in this short session, I want you to know that the assistance and all the resources of the executive departments of the State Government are at your command. We are all anxious to be helpful in expediting your business. I trust this interruption in the summer months will neither prevent nor too long delay the vacations to which your arduous duties entitle you.

ADJOURNMENT OF JOINT CONVENTION

At 1 10 p.m. there being no further business, the Speaker of the Assembly declared the Joint Convention adjourned sine die.

REASSEMBLED

At 1 15 p.m., the Senate reconvened.

Senate Resolution No. 20

Relating to the Bible Institute of Los Angeles, Incorporated

WHEREAS, For 44 years the Bible Institute of Los Angeles, Incorporated, has been a growing educational institution dedicated whole heartedly to the Christian American way of life with a program of general education, letters and sciences, and has had as its purpose the training of young people in the moral and spiritual truths of the Word of God and has been preparing them for service in schools and churches as community leaders and as teachers both at home and as missionaries from various missionary boards to the people of other nations; and

WHEREAS, The Institute is composed of four distinct schools, namely, the two-year Bible Institute, the four-year Biola Bible College, the three-year postgraduate Talbot Theological Seminary, and a one-year postgraduate school of missionary medicine, and has a distinguished faculty of accomplished educators with thorough academic training in the best universities of our Country, some of which have a record of study abroad; and

WHEREAS, The Bible Institute of Los Angeles is entirely supported by the free-will offerings of churches and individuals for the purpose of offering this complete educational service free of tuition to a student body of 800 young people who could not otherwise afford such training; and

WHEREAS, Ninety-two percent of the students are working part time to support themselves during their educational courses and participating in the youth activities and services of more than 300 churches in and around Los Angeles as teachers, superintendents, choir directors, student pastors, and other capacities, and engaging in many charitable services in missions, hospitals, and other ways; and

WHEREAS, Thirty-seven hundred and eight graduates have completed their courses and gone out into Christian service in all parts of the world and have rendered signal service to friendly foreign governments in the education and training of their people. Thirteen hundred graduates have entered into foreign missionary service or are teaching in more than 50 foreign nations including Japan, Formosa, Philippine Islands, Malaya, East Indies, Siam, India, Iran, Israel, Egypt, Ethiopia, Sudan, nearly every other region in Africa, Turkey, Greece, Mexico, Guatemala, Ecuador, Costa Rica, Brazil, Argentina, and many other countries, with a larger percentage having given their lives in the service of native peoples than the percentage of fatal casualties in our military services; and

Who have been well represented in the armed services of our Country in two world wars, as chaplains and in the enlisted and commissioned ranks of the Army, the Air Force, the Navy and the Marine Corps, and many of the Institute faculty are themselves veterans of the first or second World Wars; and

Who have received their educational training at the Bible Institute of Los Angeles, Incorporated, continued their education through postgraduate training at many of our great universities and colleges, the names of which comprise an impressive list, and have established splendid records for scholarship and academic achievement; and

Who have served the United States or against the governments of the countries where they have gone; and who are endeavoring to raise its academic standards and to offer a more complete educational service to its students in order that they may more effectively serve God and our Country and the other countries to which they may go to teach and serve; now, therefore, be it,

Senate Resolution No. 21

Enacted by the Senate of the State of California

WHEREAS, On May 2, 1950, the United States Supreme Court against the Senate Fact-Finding Committee on Un-American Activities and every member thereof, based on the Federal Civil Rights Act and seeking judgment against the defendants, and each of them, in the sum of \$250,000; and

WHEREAS, If such an action could be successfully maintained, every legislative committee which subpoenaed a witness to appear before it, and every member of such committee, could be forced to defend against civil actions for damages in the federal courts whenever the witness alleged that the motive of the committee was to intimidate him and to prevent him from exercising, or to punish him for having exercised, some federally protected right; and

WHEREAS, If such an action could be successfully maintained, any Member of the Legislature who voted in favor of a measure later held to violate federally protected rights might be forced to defend himself against similar actions in the federal courts;

WHEREAS, Since it was obvious that said action posed a threat to the effective operation of this and every other state legislature and the committees thereof, it was determined that an outstanding attorney who was well versed in the procedure of the federal courts should be employed to represent the committee; and

WHEREAS, Harold C. Faulkner, Esquire, met these requirements in the highest degree and was employed to defend the committee; and

WHEREAS, In the face of a statute which, read literally, seemed adverse to the committee; in the face of decisions of the United States Circuit Courts of Appeal else where in the Country apparently supporting the right to bring such an action; and in the face of a decision of the United States Court of Appeals of the Ninth Circuit ruling against the committee, Mr. Faulkner sought and secured a hearing in the Supreme Court of the United States, personally conducted the argument before that court on behalf of the committee and won a complete and final victory for the committee, its members, and the Legislature; and

WHEREAS, The importance of that victory to this State and to every other state is evidenced by the fact that the attorneys general of twenty-six other states joined in a brief amicus curiae in support of the position taken by Mr. Faulkner, and the State of Wisconsin filed its own independent brief as amicus curiae in support of such position; and

WHEREAS, The opinion of the Supreme Court in that case, *Tenney v. Brandhove*, 341 U. S. 367, will remain a landmark case in the law and a permanent testimonial to the legal ability of Harold C. Faulkner; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of the Senate hereby express their admiration for the legal talents of Mr. Harold C. Faulkner and their appreciation for his work on behalf of the Senate committee, and extend their congratulations to him for his outstanding victory in the case of *Tenney v. Resolved, That the Secretary of the Senate be and he is hereby directed to forward to Mr. Harold C. Faulkner a suitably prepared copy of this resolution.

The letter of transmittal ordered printed in the Journal, and the report printed in the Appendix of the Journal.

MOTION TO PRINT COPIES OF REPORT

MOTION TO PRINT COMMENTS ON LEGISLATIVE AUDITOR'S REPORT

Senator Donnelly moved that the comments on Legislative Auditor's Report of July 22, 1952, by the Department of Education, be printed in the Journal.

Motion carried.

COMMENTS ON LEGISLATIVE AUDITOR'S REPORT
OF JULY 22, 1952

By Department of Education—Dr. Drayton B. Nuttall

There was no opportunity to analyze completely the findings of the Legislative Auditor's office because the data was not made available, except for nonstate-aided buildings.

Sixty-seven and five-tenths percent of the nonstate-aided buildings used for comparison with the state-aided projects were contracted before July 1, 1951. Thirty-eight and two-tenths percent of them were contracted before January 1, 1951, whereas very few state-aided buildings were contracted before July 1, 1951. It is unlikely that a comparable contracting period was used, and we know that construction costs were rising very rapidly during the latter half of 1951.

In refiguring the data supplied, we find that the costs of nonstate-aided projects do not agree with the figures published in the Legislative Auditor's report. For example, the total square foot cost in the report for all projects was \$14.84. We arrived at a cost of \$17.37. A supplemental sheet is attached, showing the results of recalculation on nonstate-aided projects.

The cost per classroom reported for state-aided projects as \$38,000 does not agree if we use the per-pupil cost of \$994 as contained in the report, multiplied by 35 students. This computation shows \$34,790. It must also be recognized that this is not

the cost of a classroom, but the total cost of all buildings, site development, etc., prorated per classroom.

The Legislative Auditor's figures show clearly that cost-per-pupil is not a proper unit cost or measure of design standards. For example, 8 projects used in the report without multi-purpose buildings, with a reported cost per square foot of \$13.00, ranged in cost per pupil from \$400 to \$1,500. Of 11 projects reported as costing \$14.00 per square foot, the range in cost per pupil was reported from \$500 to \$1,400.

The report states that a high proportion of the state school building loans went for nonclassroom facilities. No comparison was made in this respect between state-aided and nonstate-aided schools. The proportions given for state-aided schools are not different from those found in a normal building program. Obviously, if comparable facilities are used, the proportion of space devoted to classrooms and other parts of the school plant would be similar.

We find no supporting evidence in the report or elsewhere for the statement that classrooms can be built at present costs for \$18.20.

The report fails to establish a proper comparison between state-aided and nonstate-aided projects as to the size of the project and the facilities included. The median size of the nonstate-aided projects was only 11,000 square feet. We do not know the median size of the state-aided projects used, but we believe it would be significantly higher.

Senate Resolution No. 25

Relative to the passing of Mrs. Harry L. Parkman

WHEREAS, It is with great sorrow and deep regret that the Members of this Senate have learned that on June 23, 1952, death came to Birdie Parkman, the beloved wife of our respected colleague and good friend, Senator Harry L. Parkman of San Mateo County; and

WHEREAS, Senator and Birdie Parkman more than 40 years ago did become husband and wife and did enjoy the remotest of confidence, fidelity and sympathetic companionship ever since, until the time of her passing, and

WHEREAS, To be bereft of one's life companion is one of the most heartrending events of a lifetime and one which leaves a void which cannot be filled, and

WHEREAS, The Members of the Senate are deeply conscious of the sadness which has come to their esteemed and beloved colleague and desire to convey their sincere sympathy to him and his daughter Harriet, in their loss; now, therefore, be it

Resolved by the Senate of the State of California, That the Members of this Senate hereby extend their heartfelt regret upon the passing of Birdie Parkman, and offer deepest sympathy to Senator Parkman and his daughter; and be it further

Motion to Print Remarks of Senator Busch

Senator Powers moved that the remarks of Senator Busch in presenting Senate Resolution No. 25 regarding the passing of Mrs. Harry L. Parkman, be printed in the Journal.

Motion carried.

REMARKS OF SENATOR BUSCH

For upward of 40 years, Senator and Birdie Parkman were husband and wife. Their marriage was one of deep attachment, affection, and love. Together they unselfishly and worthily served their community, their State, and their Nation. To perpetuate this union, came one child, Harriet.

On June 23 of this year, death came to Birdie Parkman, and an irreplaceable loss to Harry Parkman.

In the hearts of all Members of this Senate has been the sincere wish to say or do something which might comfort our friend in this time of sorrow. Yet mortal limitations prevent us, and we find our powers of expression inadequate.

It is, therefore, with a sense of humbleness that I now move the adoption of this resolution whereby the Senate of the State of California may, in this time of his sorrow, express its deep sympathy and affection for a friend and a fine gentleman, Harry Parkman.

Senate Resolution No. 26

Relating to the construction of a Southern Trans-Sierra Route for national defense.

WHEREAS, The military commitments of this Nation in the past two decades have expanded greatly in the Pacific Ocean and the lands adjacent thereto, and the San Francisco Bay Area is the principal Pacific Coast port for shipment of military personnel and material, much of which is transported over these routes, and

WHEREAS, This principal port would be a primary target for enemy attack or sabotage, and therefore, would require emergency supply and reinforcement over the central Trans-Sierra Route, and

WHEREAS, These central route highways are still functioning with the same limited capacity of 20 years ago, and

WHEREAS, More than 20 major Department of Defense supply depots, tactical establishments and experimental installations are located in the intermountain areas served by the trans-Sierra trancontinental route; now, therefore, be it

The following resolution was offered:

By Senator O'Gara:

Senate Resolution No. 28**Relative to Lloyd's Reinsurance**

WHEREAS, The Insurance Commissioner of the State of California, in the reasonable exercise of the discretion vested in him by subdivision (b) of Section 922.5 of the Insurance Code, has allowed in the past credits claimed by ceding insurers in their financial statements on account of reinsurance in Lloyd's, London; and

WHEREAS, The Insurance Commissioner in his Bulletin 128, dated March 24, 1952, indicated that he was abandoning his former policy in view of the position taken by the National Association of Insurance Commissioners in December, 1951, that reinsurance ceded to Lloyd's, London, should be subject to the same standards as other alien reinsurance for the purpose of determining credit in the financial statements of ceding insurers; and

WHEREAS, Bulletin 128 further indicated that the Department of Insurance would no longer consider Lloyd's American Trust Fund as it currently exists a deposit of "sufficient assets in the United States" within the meaning of subdivision (b) of Section 922.5; and

WHEREAS, The Insurance Commissioner, by his Bulletin 128-A, dated July 17, 1952, modified the provisions of Bulletin 128 by deferring the effective date of certain policies expressed in said Bulletin 128; and

WHEREAS, In recognition of the fact that Lloyd's has the reputation of honoring its contracts and keeping its obligations; and

WHEREAS, Many California insurance companies have either directly, or through their American Reinsurers, ceded reinsurance to Lloyd's and are dependent upon Lloyd's reinsurance to meet their contingent obligations and to maintain the reserves required by the laws of the State of California; and

WHEREAS, The policy of the Department of Insurance as expressed by Bulletin 128 would have a disastrous effect on several insurance companies whose head offices are in this State; and

WHEREAS, The provisions of Bulletin 128-A have deferred and alleviated the problems of said companies; now, therefore be it,

Resolved by the Senate of the State of California, That the Insurance Commissioner of the State of California is commended for his action in issuing Bulletin 128-A and for his determination to solve the problem in a manner which is fair to all companies and policyholders concerned; and be it further

Resolved, That the Senate Standing Committee on Financial Institutions and the Assembly Interim Committee on Finance and Insurance are requested to cooperate with the Insurance Commissioner in investigating the necessity for legislation relating to the matters in Bulletins 128 and 128-A.

School Support Initiative—No. 2564

DEAR SENATOR ABSHIRE: You have asked our opinion on how much is required to be used for teachers' salaries from the apportionment of \$180 per pupil in average daily attendance as proposed by the initiative measure amending Section 6 of Article IX of the State Constitution that will appear on the ballot at the November General Election as Proposition No. 2, and particularly whether a percentage of this amount is specified for that purpose.

While the adoption of the proposed amendment obviously will make more money available to the schools for their support, including the salaries of the teachers, we find nothing either in the amendment or in other provisions of the State Constitution requiring either a percentage or any other specified portion of the apportionment to be used for that purpose.

The constitutional amendment would make two changes in the amounts required to be provided by the State for the support of the Public School System.

It would require the Legislature to increase the total amount in the State School Fund for apportionment from \$120 to \$180 per pupil in average daily attendance in the schools of the system during the preceding fiscal year.

It would increase the minimum amount required to be apportioned to each school district from \$90 to \$120 per pupil in average daily attendance in the district during the preceding fiscal year.

The only provision in the Constitution relating to the salaries of teachers is contained in Section 6 of Article XVI and is not amended by the initiative measure. That is the provision requiring that teachers' salaries be not less than \$2,400 a year for persons serving full time.

Education Code Section 6703 requires that 85 percent of all money apportioned to a school district as basic state aid and state equalization aid shall be expended for teachers' salaries. The proposed constitutional amendment does not alter this, but leaves with the Legislature the control of the amount of money to be paid as salaries.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel

DEAR SENATOR ABSHIRE: This supplements our earlier opinion on this subject.

In answer to your further question regarding the \$2,400 minimum salary provision required for school teachers by Section 6 of Article XI of the Constitution, Section 13842 of the Education Code as amended in 1951 prescribes a minimum annual salary of \$3,000.

COMMUNICATIONS

The following communication was received and read, and ordered printed in the Journal:

CENTRAL UNION HIGH SCHOOL
FRESNO, CALIFORNIA, August 6, 1952

*Members of the Legislature,
State of California,
Sacramento, California*

GENTLEMEN: The Board of Trustees of the Central Union High School adopted the following resolution:

"WHEREAS, Certain holidays are observed by the public schools and not by the public at large; and

"WHEREAS, Many parents who are working have complained about having their children on vacation while they themselves are not home for supervision; and

"WHEREAS, Education Code Section 8152 provides, 'The governing board of any school district may declare a holiday in the public schools under its jurisdiction when good reason exists,' and

"WHEREAS, The men and events which are being commemorated by these holidays can be paid equal, if not superior, honor and reverence by special school assemblies instead of by holidays; and

"WHEREAS, The preparation for and the participation in a school assembly or exercise actually makes the students more conscious of the event than does one day of freedom from school; and

"WHEREAS, In certain areas of the State weather and labor conditions make it mandatory for schools to open at a date as late in September as possible and to close as early in June as possible, and there should be no more holidays than is necessary; now, therefore, be it

"Resolved, That the holidays of September 9th, February 12th, and February 22d be discontinued as days of vacation with the stipulation that the public schools shall hold proper exercises commemorating those dates."

Very truly yours,

Relative to Lloyd's Reinsurance

WHEREAS, The Insurance Commissioner of the State of California in the reasonable exercise of the discretion vested in him by subdivision (b) of Section 922.5 of the Insurance Code has allowed in the past credits claimed by ceding insurers in their financial statements on account of reinsurance in Lloyd's, London; and

WHEREAS, The Insurance Commissioner in his Bulletin 128, dated March 24, 1952, indicated that he was abandoning his former policy in view of the position taken by the National Association of Insurance Commissioners in December, 1951, that reinsurance ceded to Lloyd's, London, should be subject to the same standards as other alien reinsurance for the purpose of determining credit in the financial statements of ceding insurers; and

WHEREAS, Bulletin 128 further indicated that the Department of Insurance would no longer consider Lloyd's American Trust Fund as it currently exists a deposit of "sufficient assets in the United States" within the meaning of subdivision (b) of Section 922.5; and

WHEREAS, The Insurance Commissioner, by his Bulletin 128 A, dated July 17, 1952, modified the provisions of Bulletin 128 by deferring the effective date of certain policies expressed in said Bulletin 128; and

WHEREAS, Many California insurance companies have either directly, or through their American Reinsurers, ceded reinsurance to Lloyd's and are dependent upon Lloyd's reinsurance to meet their contingent obligations and to maintain the reserves required by the laws of the State of California; and

WHEREAS, The policy of the Department of Insurance as expressed by Bulletin 128 would have a disastrous effect on several insurance companies whose head offices are in this State; and

WHEREAS, The provisions of Bulletin 128 A have deferred and alleviated the problems of said companies; now, therefore, be it

Resolved by the Senate of the State of California, That the Insurance Commissioner of the State of California is commended for his action in issuing Bulletin 128 A and for his determination to solve the problem in a manner which is fair to all companies and policyholders concerned; and be it further
